BOARD OF REVENUE.

NOTIFICATION.

No. 2258Mis.—The 7th July 1914.—In exercise of the power conferred by section 14 of the Pensions Act, 1871 (XXIII of 1871), and in supersession of all rules heretofore made by it under that section, the Board of Revenue, with the consent of the Governor in Council, hereby makes the following rules for Bengal:—

Territorial and Political Pensions.

Application of rules.

I. The following rules (except rules XXII to XXVI, inclusive) shall apply to territorial and political pensions only, disbursed through the revenue authorities. Rules XXII to XXVI, inclusive, shall apply to the former pensions only.[1]

Place of payment of pensions.

II. Except as provided in rule III, all pensions shall be payable at the district treasury, upon which a permanent pay order has been issued by the Accountant-General, Bengal.

Payment at subdivisions.

III. Pensioners residing within any subdivision of a district may obtain payment of their pensions from the subdivisional treasury in the same way as from the district treasury.

Transfer of payment.

IV. A Commissioner of a Division may, on application and on sufficient cause shown, permit transfer of payment from a treasury in his division to any other treasury in British India:

Provided that this rule shall not extend to political pensions in cases where the pensioner resides by order of the Government in a particular place.

Particulars to be submitted in case of transfer of payment.

V. A copy of the order directing the transfer referred to in rule IV shall be forwarded by the Commissioner to the Accountant-General, Bengal, together with a brief narrative of the origin and particulars of the pension; and the District Officer of the district from which the payment is transferred shall be instructed to return his and the pensioner's portion of the permanent pay order to the Accountant-General. The Accountant-General shall then issue a fresh permanent pay order to the officer who will, in future, pay the pension, or, if that officer belongs to another province, shall move the Accountant-General of such province to do so.

Time of payment of pensions.

VI. Except as otherwise provided in these rules, all pensions shall be paid monthly.

Arrears of pension.

VII. If a pension remains undrawn for more than six months, the Collector or other disbursing officer must at once make inquiry into the cause of the non-appearance of the pensioner, and must return the pay order to the Accountant-General, Bengal. When the inquiry has been completed, the result shall be communicated to the Accountant-General.

If the pensioner afterwards appears, the Collector or other disbursing officer may reclaim the pay order and renew his payments, and the payment of arrears that have accumulated, not exceeding Rs. 1,000, may be sanctioned by the Collector or other disbursing officer. If the amount of arrears exceeds Rs. 1,000, the previous sanction of the Commissioner must be obtained.

Personal appearance at time of payment, and exemptions therefrom.

VIII. (1) Except as provided in sub-rules (2) and (3) and rule IX, a pensioner must take payment in person, after identification, by comparison with the permanent pay order.

(2) The following persons, namely,—

(*a*) a pensioner specially exempted by the Collectors or the Heads of Departments from personal appearance,

(*b*) a female pensioner not accustomed to appear in public, and

(*c*) a male or female pensioner, who is unable to appear in consequence of bodily illness or infirmity,

[1] The rules governing service pensions, extraordinary pensions and gratuities for service not entitling to pension are contained in the Civil Service Regulations, published under the authority of the Government of India. Supplementary instructions to those rules are contained in Part I of the Board's Rules.

may receive his or her pension, upon the production of a life-certificate, signed by a responsible officer of Government, or by some other well-known and trustworthy person.

(3) A pensioner of any description, who produces a life-certificate signed by some person exercising the powers of a Magistrate of any class under the Code of Criminal Procedure, 1898, or by any Registrar or Sub-Registrar under the Indian Registration Act, 1908, or by any pensioned officer who, before retirement, exercised the powers of a Magistrate, is also exempted from personal appearance.

(4) In all cases referred to in sub-rules (2) and (3), the disbursing officer must take precautions to prevent imposition, and must, before the first payment in each year, require proof, independent of that furnished by the life-certificate, of the continued existence of the pensioner. For this purpose he shall (except in cases of exemption from personal appearance granted by the Heads of Departments or Collectors) require the personal attendance and due identification of all male or female pensioners who are not incapacitated by bodily illness or infirmity from so attending, and in all cases where such inability may be alleged, he shall require proof thereof in addition to the proof submitted of the pensioner's existence.

Pensioners of rank.

IX. Pensions of pensioners of rank, who are specially exempted by the Heads of Departments or Collectors from personal appearance, shall be paid to an agent holding a power-of-attorney on their behalf upon the production of the permanent order and of a separate receipt.

Payment to an agent.

X. Pensions of pensioners exempted from personal appearance under sub-rule (2) or (3) of rule VIII (except in cases mentioned in rule IX) may be paid to an agent on their behalf on the production of the permanent order, of a life-certificate as prescribed by those sub-rules, respectively, and of a separate receipt.

Arrears of deceased pensioners.

XI. On the death of a pensioner, payment of any arrear actually due may be made to his heirs provided that they apply within six months from his death, after which period no such payment shall be made without the sanction of the Commissioner.

Collectors of districts are empowered to sanction the payment of arrears of pension due to deceased pensioners to their heirs. Even if the pension has been sanctioned before the death of the pensioner, the payment may be made under the orders of the authority who would have been competent to sanction the pension if the pensioner had not died.

Making over of permanent pay order to pensioner.

XII. On the receipt by the disbursing officer of the permanent pay order, he shall summon the pensioner, and, on his appearing, shall make over to him his portion of the permanent pay order, and shall explain to him at what times he can draw his pension and how he must proceed for the purpose. No other certificate need be given.

Making over of permanent pay order to agent.

XIII. When the pensioner is exempted from appearance in person, the permanent pay order may be made over to any person authorized to act on the pensioner's behalf.

Worn permanent payment order.

XIV. When the reverse of a pension payment order is filled up, or when the pensioner's half is found to be worn or torn, both halves may be renewed by the Treasury Officer.

Loss of pensioner's portion of payment order.

XV. If a pensioner loses his half of the pension payment order, a new order may be issued by the Treasury Officer, who should see that no payment is made on the half alleged to be lost by a strict observance of rule 2 under Article 943 of the Civil Service Regulations. The necessary note should be made in the remarks column of the register in Form 39, Civil Account Code.

Registry of applications.

XVI. In each Collectorate a list of pensions granted shall be kept up in the form given in Appendix A. Applications for pensions are to be entered in Register 8 of miscellaneous cases.

Pensions undrawn for two years.

XVII. All pensions not drawn for two years shall be struck off the said register. If such pensions are renewed under rule VII, a fresh entry shall be made in the register in respect thereof.

Death of pensioner.

XVIII. Upon the death of a pensioner, the District Officer shall at once report the circumstance to the Accountant-General and shall return the original permanent pay order to his office.

Permanent pay orders.

XIX. When a pension is granted, the Accountant-General shall issue a permanent pay order to the disbursing officer of the station at which the pension is payable, directing him to pay periodically, until further notice, the amount of the pension upon the production of the counterpart of the order and a separate receipt according to the prescribed form. This order shall be entered in the register of permanent orders prescribed in Article 343 of the Civil Account Code, Volume I.

Register to be kept at subdivision.

XX. When payment of any pension is permitted at a subdivision, a copy of the permanent order in respect of such pension shall be forwarded to the subdivision, a note to that effect being made in the register of permanent orders at the headquarters station. At each subdivision a register of permanent orders so received shall be kept up in the same form as the register prescribed for the headquarters station.

Payment to be recorded.

XXI. Upon representation of a claim for payment, the District Officer shall at once record the sum paid upon the permanent order, enter the amount in the cash-book, and submit the separate receipt (Appendix B), with his treasury account, to the Accountant-General as a voucher in support of the charge.

Continuance of hereditary pensions.

XXII. The Board of Revenue is competent to sanction the continuance of hereditary pensions when the hereditary title has been already recognized by the Government or decreed by a competent Court of Justice. But it is to be borne in mind that the Government never undertook, absolutely, to pay the pensions included in the Permanent Settlement, and that if a pension has been unadvisedly continued to heirs, the hereditary nature of the gratuity may, on the death of the incumbent, again be questioned.

Hereditary pensions not to be ordinarily allowed.

XXIII. As a general principle, pecuniary grants will not be continued after the death of the parties in whose favour they were originally made. Pensioners whose pensions are granted for life only, and are resumable at their decease, are to be in no way encouraged by the local officers to hope that their pensions will be continued to their heirs, and thereby induced to neglect making a proper provision for their families. The Board is to submit to Government for decision any case in which it may be of opinion, on the decease of a life-pensioner, that the pension or any part thereof, should be continued to the heirs.

General principles.

XXIV. The principles laid down in the memorandum by Mr. F. Millett, printed in Appendix C, are, under the orders of Government, to be followed in recommending, or deciding upon, the continuance or discontinuance to heirs of the various classes of pensions with which the memorandum deals.

Distribution of pension.

XXV. As a rule, the distribution of pensions is irrespective of Hindu or Muhammadan law, and dependent on the pleasure of the Government only.

In cases where the original grant of a pension to two or more persons was joint and undivided, the survivor or survivors shall be considered entitled to retain only an exact half, or a lesser share, according to circumstances, of the whole sum without reference to sex.

Grant of certificate.

XXVI. Notwithstanding anything contained in rule XXV, when the grant was of a specific sum annually, payable in perpetuity and unconditionally, the District Officer may, with the sanction of the Commissioner and the Board, grant a certificate to the Civil Court under section 6 of the Pensions Act, XXIII of 1871, where the question at issue is the right of one or other of two parties to receive any portion of such grant.

APPENDIX C.

(*See* RULE XXIV.)

Memorandum by Mr. F. Millett on Pensions and Charitable or other allowances, dated 12th May 1845.[1]

The Government never undertook absolutely to pay the pensions included in the Permanent Settlement.

Section 74, Regulation VIII, 1793, provided "with respect to any of the existing established zamindari charges, such as pensions, charitable or other allowances, which it may be thought proper to continue, they shall be paid by the Collectors, etc."[2]

Regulation XXIV, 1793, prescribed the rules for determining their continuance or discontinuance, the fundamental principle being that all such pensions and allowances were gratuitous.

[1] Bengal Regulations XXIV of 1793, XXXIV of 1795, XXIV of 1803, XXII of 1806 and XI of 1813, referred to in this memorandum, were repealed by Act XXIII of 1871 (Pensions) section 2 and schedule, subject to a saving as to rules made thereunder.

[2] Section 74 of Bengal Regulation VIII of 1793 was repealed by Act XVI of 1874.

The following are the principal provisions of that Regulation :—

"Pensions received by virtue of sanads granted before the Dewany, or since granted with the sanction of Government, and pensions received from before 1179 (Country Era), to be continued to the grantees or original holders; but if the grantees or original holders be dead, the pensions not to be continued to their heirs or descendants without the sanction of Government; and

"No pension after the death of the person then entitled to it to be continued to his descendants without the like sanction, whether the grant was, in either case, according to the terms of it, hereditary or otherwise.

"Whenever Government orders the continuance of a pension, whether to the original holder or his heir, the Collector to give him a certificate, stating the title of the party thereto during his or her life.

"The Collector to keep a register of these certificates noting therein such personal identification of the parties as might detect any attempt to transfer the certificate to others.

"The pensions and allowances being gratuitous, the determining upon the continuance or discontinuance of them under the rules prescribed is reserved to Government."

It appears to me plain that, according to this Regulation, every pension confirmed was to be confirmed as a life-pension only, and that, on the death of any pensioner, the case of any new claimant was to be submitted to Government for its determination.

Section 6 of Regulation XXIV, 1803 (Ceded Provinces), provided that pensions granted to *fakeers* and other religious persons, for the purpose of lighting mausoleums or mosques, or for that of repairing them, as also to enable them to perform their religious ceremonies, usual in the Muharram, were to be continued; but that pensions of this description were not to be considered as of a personal nature, and that the Collector was to be responsible for their being applied to the purpose for which they were bestowed.

Certificates were, under this Regulation, to be granted for pensions renewed on the death of pensioners, and registers of certificates to be kept as under Regulation XXIV, 1793; and section 16 declared that the continuance or discontinuance of pensions was, after the death of the persons then receiving them, to depend solely on the pleasure of Government.

I reconcile sections 6 and 16 in this way. Pensions received by *fakeers* at the date of the Regulation for certain purposes were to be continued to them; but if they applied them to other purposes, they would be resumed. On the death of the then holders, the pensions were to be continued to their successors or not, as Government might determine, each renewal requiring a specific order.

By section 30, Regulation XII, 1805, the provisions of Regulation XXIV, 1793, were made applicable to pensions and allowances granted for religious purposes in Cuttack, with these provisos :—

(*i*) That pensions obtained from the Government of Berar, under grants prior to October 1803, should be continued to the then incumbents, and on their death should descend to their heirs and successors or revert to Government, as should appear to the Governor-General in Council,[3] on a consideration of the tenor of the grant and all the circumstances of the case, to be proper.[4]

(*ii*) Pensions received, under whatever authority, for three or more years before October 1803, to be continued to the then incumbents for life; but on their death to revert to Government, unless any particular reasons should appear to the Governor-General in Council[3] to exist for continuing them to their heirs and successors.

In the terms "on a consideration of the tenor of the grant" contained in the proviso (*i*), we find the first indication of Government prescribing a rule to itself respecting the continuance of a pension to heirs and successors of incumbents. Section 4, Regulation XXIV, 1793, to which reference is made, contains no such rule [5].

[3] The words "Governor-General in Council" in section 30 of Bengal Regulation XII of 1805 are now to be read as if the words "Local Government" were substituted therefor. *See* Act I of 1903, Schedule 2.

[4] The words and figures "under section 4 of the said Regulation" are omitted, since the words and figures "under section 4, Regulation XXIV, 1793," in section 30 of Bengal Regulation XII of 1805, were repealed by Act XII of 1891.

[5] The reference is now omitted; *see* footnote [4] *supra*.

By section 7, Regulation XXII, 1806, the Board were instructed, in determining whether, on the death of a pensioner, the pension, or any part of it, should be continued to heirs or successors, "to ascertain particularly the situation and circumstances of the person claiming the continuance of the pension, and not to comply with any applications of that nature, unless, on the ground of poverty or other substantial reason, the party claiming it shall have a strong claim on the indulgence of Government."

This relates to pensions to a certain amount (fifty rupees) left to the Board's decision; but I presume the principle was applicable to all.

Section 8 enjoined Collectors to discontinue the payment of all pensions where the persons to whom they had been adjudged had died, until it could be determined whether they were to be continued to heirs.

Section 9 had in view the commutation of money pensions for grants of waste land or property.

It begins by repeating the declaration that pensions are gratuitous, and that the continuance or discontinuance of them is to depend on the pleasure of Government.

It then enacts that adjudged pensions are not to be commuted for grants of land except with the consent of the pensioner, and adds these further provisos :—

That pensions granted for, and *bonâ fide* appropriated to, the support of institutions, either of the Hindu or Muhammadan religion, shall be continued for the support of such institutions, unless the present incumbents or their successors shall, of their own free will and accord, agree to accept waste lands in lieu of the said pensions; and that no pensions which are declared to be hereditary, either by the terms of the grant or by any existing Regulations, shall be commuted without the consent of the present pensioners or their successors.

The first proviso has been quoted as containing an abstract rule that pensions for the support of the institutions therein described shall be continued in perpetuity; but considering the whole scope of the section, it seems to me rather to mean that so long as the allowances are continued by the pleasure of Government, they shall be continued in the shape of money payments, unless the incumbent for the time being consents to a commutation for land.

So also in respect of pensions which, in consideration of the terms of the grant, the Government may hereafter continue to the heirs of present incumbents. These shall likewise be continued in the shape of money payments, unless, with the consent of the heir to whom it is continued, it shall be commuted for land.

The same rule to apply to pensions declared hereditary by the Regulations, *i.e.*, those described in section 2, Regulation XXXIV, 1795, and section 2, Regulation XXIV, 1803, which are declared to be property, and liable to be sued for and inherited as such, and are distinct from the gratuitous pensions.

Suppose, then, a case in which the grant was not hereditary by the terms of it, but which the Government thought it right to continue to the heir of a deceased incumbent. they might insist on his taking land in lieu of it or renouncing all claim to the allowance.

Sections 2 and 3, Regulation XI, 1813, enact that all pensions shall be stopped until those receiving them prove that they are either the original grantees, or that they have been regularly declared entitled to succeed to the enjoyment of the pensions, and that new registers shall be made and corrected as often as any pensions revert wholly or in part to Government, or whenever other individuals than those by whom the pensions are at present received, shall be adjudged entitled to the reversion of them.

So far, then, as the law is concerned, it appears to me that the continuance or discontinuance of any pension or allowance on the death of an incumbent rests entirely in the discretion of Government that when continued, it should be for the life of the applicant only.

In practice, I believe the Government has very much fettered itself in the exercise of this discretion.

Extract (paragraphs 1 and 2) from the Proceedings of the Government of India in the Home Department (Public), under date Calcutta, the 8th December 1899.

RESOLUTION.

THE Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to

enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject, and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, in the form appended to this Resolution, signed by the head of the district (in a Presidency town, the Commissioner of Police) in the case of residents of British India, and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer (in a Presidency town, the Commissioner of Police) or Political Officer, as the case may be.

DRAFT RULES.

1. Every vessel passing through the line of navigation known as the Madaripur Bhil channel shall stop at the prescribed toll-stations as notified in the Schedule of tolls for the purpose of assessment or check of toll charges.

2. For the purposes of these rules, vessels other than rafts, timbers, bamboos or other floating material shall be divided into two classes as below :—

Class I.—To include all vessels of the usual native types of build.

Class II.—To include all steamers, flats and barges, and such other square-built boats as should, in the opinion of the Collector of Tolls, be included.

3. The net tonnage of every vessel of class 1, whether laden or empty, shall, for the purposes of these rules, be determined by the following measurements :—

A.—The product of one quarter the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel, multiplied by the interior greatest depth from the water-line to the bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

B.—The measurement of the length is to be made in feet, rejecting inches; the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting portions of less than a quarter of a foot.

C.—The maundage on which tollage shall be charged shall be a simple multiple of 12½ maunds, rejecting any remainder by which the maundage, calculated as above, may exceed such simple multiple.

4. For vessels in class II the tonnage shall be determined as follows:—

The tonnage of steamers shall be the registered tonnage as given in the certificate of survey of the steamer.

Toll shall be levied on the actual weight of cargo carried on steamers, flats, barges and other vessels included in this class, as declared in the manifests.

When the registered tonnage of a steamer, or the manifest for cargo of a flat is not available, the tonnage will be taken as arrived at under rule 3.

For square-built boats the total maundage, as determined under rules for class I, shall be increased by half, and for steamers one-third of the total maundage shall be deducted for engine space.

5. Every vessel shall be furnished at the toll-station of entry with a ticket on which the name of the serang, manjhi or other person in charge of the vessel, the date of entry, the maundage of the vessel, the nature and weight of the cargo it contains and the amount of toll charged shall be entered.

6. This ticket may be demanded and checked by any navigation officer while the vessel is within the toll-limits of the Bhil channel, and must be kept on board and at hand for that purpose. The ticket must be given up at the exit toll-station. If the ticket is not produced on demand by a Canal officer, such officer shall assess the amount of toll payable and the vessel will be liable to seizure and detention under the provisions of section 9 of the Act until such sum is realized.

7. Vessels leaving the channel between two toll-stations shall obtain permission from the toll collector of the nearest toll-station and give up the ticket to that officer while leaving the channel.

8. A vessel, which has been detained under these rules or under section 9 of the Act, may not be removed from the channel without the order of the collector of tolls until the toll due has been paid. During such detention the manjhi, owner or agent must make arrangements for the safety of the vessel and cargo.

9. All tolls are payable on demand and shall be paid at the toll-station before a vessel is permitted to proceed. Provided that the collector of tolls appointed under section 8 of the Act may, at his discretion, permit vessels belonging to individuals or firms of recognised standing to proceed without prepayment, on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

10. The term "NAVIGATION OFFICER," as used in rule 6, shall include the collector of tolls appointed under section 8 of the Act, and the officer, or the subordinate duly authorised by such officer, of the PUBLIC WORKS DEPARTMENT, in charge of the subdivision or section within which the channel is situated.

11. Duplicates of lost tickets will be granted by the toll collector who originally issued the ticket on payment of a fee of one-fourth of the amount of toll payable, subject to a maximum of one rupee and a minimum of four annas. HIGH COURT NOTICES.

CIRCULAR ORDER.

ISSUED BY AUTHORITY OF THE HIGH COURT OF JUDICATURE AT FORT WILLIAM IN BENGAL.

CIVIL.

No. 11 OF 1914.

THE attention of all subordinate Civil Courts is drawn to Rule 5 Chapter VI, page 145, Volume I, of the High Court's General Rules and Circular Orders, Civil, regarding costs of adjournments ordered to be paid by a party under Order XVII, Rule 1 (2) of the Code of Civil Procedure. While the Courts have full liberty to exercise their discretion in each individual case, the High Court consider that, in the absence of special circumstances, and when the costs allowed do not exceed a few rupees, it is reasonable that the party desiring the adjournment should come prepared to compensate his opponent for the inconvenience to which he is put, and that the Court will be justified in making the adjournment conditional on the money being paid then and there.

2. The fact of direct payment should invariably be noted in the record of the case, as required by Rule 8, pages 186-187, Chapter IX, Volume I, of the High Court's General Rules and Circular Orders, Civil, and this note should be made on the order sheet. Similarly, where adjournment costs have been paid into Court, under head (*i*) of Rule 5 at page 185, the fact of such payment should be certified by the Nazir at the time that he submits his

certificate on unexpended diet money under Rule 57 (*a*), page 213, and noted on the order-sheet by the Sarishtadar. It will thus be possible to see from the order-sheet exactly what sum, if any, still remains unpaid. All costs of which payment has not been noted under the foregoing orders must be entered in the decree as costs of the suit.

By order of the High Court,

H. M. VEITCH,
Offg. Registrar.

"and the Court may also satisfy itself in accordance with the terms of Rule 19 of the same Order,"

II.—*Cancel* Rule 18, Chapter I, page 8, *ibid*, and *substitute* therefor the following:—

"If the return of service is under Order V, Rule 20, it should in like manner be proved that the house, upon the door of which a copy of the process was fixed, was the house in which the defendant or respondent is known to have last resided, and that the service was made in all respects in conformity with the order for substituted service, which should accompany the process. IRRIGATION DEPARTMENT.

The 21st July 1914.

No. 6.—Notification.—The following draft of (1) rules and (2) Schedule of rates of tolls, which, in exercise of the powers conferred by sections 6 and 11 of the Canals Act, 1864 (Bengal Act V of 1864), and in supersession of all previous notifications on the subject, the Governor in Council intends to make and fix for the line of navigation known as the Madaripur Bhil channel, as defined in Notification No. 128, dated the 26th June 1900, is published, as required by section 12 of that Act, for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on or after the 15th September 1914, and any objection or suggestion which may be received by the undersigned before that date will be duly considered.

A. C. J. DE LOTBINIÈRE, LT.-COL., R.E.,
Offg. Secy. to the Govt. of Bengal.

DRAFT RULES.

1. Every vessel passing through the line of navigation known as the Madaripur Bhil channel shall stop at the prescribed toll-stations as notified in the Schedule of tolls for the purpose of assessment or check of toll charges.

2. For the purposes of these rules, vessels other than rafts, timbers, bamboos or other floating material shall be divided into two classes as below :—

Class I.—To include all vessels of the usual native types of build.

Class II.—To include all steamers, flats and barges, and such other square-built boats as should, in the opinion of the Collector of Tolls, be included.

3. The net tonnage of every vessel of class 1, whether laden or empty, shall, for the purposes of these rules, be determined by the following measurements :—

A.—The product of one quarter the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel, multiplied by the interior greatest depth from the water-line to the bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

B.—The measurement of the length is to be made in feet, rejecting inches; the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting portions of less than a quarter of a foot.

C.—The maundage on which tollage shall be charged shall be a simple multiple of 12½ maunds, rejecting any remainder by which the maundage, calculated as above, may exceed such simple multiple.

4. For vessels in class II the tonnage shall be determined as follows :—

The tonnage of steamers shall be the registered tonnage as given in the certificate of survey of the steamer.

Toll shall be levied on the actual weight of cargo carried on steamers, flats, barges and other vessels included in this class, as declared in the manifests.

When the registered tonnage of a steamer, or the manifest for cargo of a flat is not available, the tonnage will be taken as arrived at under rule 3.

For square-built boats the total maundage, as determined under rules for class I, shall be increased by half, and for steamers one-third of the total maundage shall be deducted for engine space.

5. Every vessel shall be furnished at the toll-station of entry with a ticket on which the name of the serang, manjhi or other person in charge of the vessel, the date of entry, the maundage of the vessel, the nature and weight of the cargo it contains and the amount of toll charged shall be entered.

6. This ticket may be demanded and checked by any navigation officer while the vessel is within the toll-limits of the Bhil channel, and must be kept on board and at hand for that purpose. The ticket must be given up at the exit toll-station. If the ticket is not produced on demand by a Canal officer, such officer shall assess the amount of toll payable and the vessel will be liable to seizure and detention under the provisions of section 9 of the Act until such sum is realized.

7. Vessels leaving the channel between two toll-stations shall obtain permission from the toll collector of the nearest toll-station and give up the ticket to that officer while leaving the channel.

8. A vessel, which has been detained under these rules or under section 9 of the Act, may not be removed from the channel without the order of the collector of tolls until the toll due has been paid. During such detention the manjhi, owner or agent must make arrangements for the safety of the vessel and cargo.

9. All tolls are payable on demand and shall be paid at the toll-station before a vessel is permitted to proceed. Provided that the collector of tolls appointed under section 8 of the Act may, at his discretion, permit vessels belonging to individuals or firms of recognised standing to proceed without prepayment, on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

10. The term "NAVIGATION OFFICER," as used in rule 6, shall include the collector of tolls appointed under section 8 of the Act, and the officer, or the subordinate duly authorised by such officer, of the PUBLIC WORKS DEPARTMENT, in charge of the subdivision or section within which the channel is situated.

11. Duplicates of lost tickets will be granted by the toll collector who originally issued the ticket on payment of a fee of one-fourth of the amount of toll payable, subject to a maximum of one rupee and a minimum of four annas. The duplicate will be issued only when the toll collector is satisfied about the identity of the boat.

12. No person shall wilfully or negligently allow a vessel to sink in the channel.

13. (*1*) In every case of a sunken vessel whether due to negligence or otherwise, the Supervisor and his subordinates shall offer every assistance in removing the same.

(*2*) If, three days after the occurrence of a wreck, it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the Supervisor and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner.

14. When a sunken vessel has been recovered, the Supervisor shall cause notices to be posted at the toll offices, or other prominent places, calling on those concerned to pay to the collector of tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo. Should the sum due be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold under the procedure directed in section 9 of the Act.

15. The purchaser of a vessel sold under the provisions of section 9 of the Act shall have the right to take it out of the channel on the day of purchase, or within such time as may be allowed by the collector of tolls, without payment of tolls.

16. When any laden vessel, which has sunk, has been recovered, or when any laden vessel has been seized under the provisions of the Act or of these rules, the Supervisor shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay, and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

17. If the Supervisor be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in rule 16 shall be effected by a notice exhibited in his office, and by advertisement in at least one English and one vernacular Calcutta newspaper.

18. *Lights and Signals.*—All vessels, whether travelling or moored in the channel, must, between sunset and sunrise, carry a white light in a lantern on the fore-part of the vessel where it can be distinctly seen from all sides. All steam-vessels in motion shall carry the lights prescribed by

the Board of Trade regulations. Barges or boats attached to a steam-vessel, whether in motion or moored, shall carry the light prescribed in the first paragraph of this rule.

19. Every vessel proceeding in the channel must limit her speed to six miles an hour from the 15th October to the 10th July, and to eight miles an hour from the 11th July to the 14th October.

20. For any infringement of rule 6, 7, 8, 9, 12, 13, 14 16, 17, 18 or 19, the person in charge of the vessel or other persons in fault shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50 or Rs. 5 a day for any continuing infringement.

H. L. STEPHENSON,
Secretary to the Government of Bengal.

RULES UNDER SECTION 24 OF THE PROVIDENT INSURANCE SOCIETIES ACT, 1912.

Short title.

1. These rules may be called the Bengal Provident Insurance Societies Rules, 1914.

Definitions.

2. In these rules, unless there is anything repugnant in the subject or context,—

(*a*) "the Act" means the "Provident Insurance Societies Act, 1912";

(*b*) "society" means a Provident Insurance Society to which the Act applies;

(*c*) "provident insurance business" means any class of business to which the Act applies;

(*d*) "dividing society business" means provident insurance business under which the amount payable on the policy money becoming due is not fixed, but depends either partly or wholly on the results of the division of any portion of the premium income or funds amongst the policies which have become due for payment in proportion to the premiums received under each class in any specified period;

(*e*) "bond investment business" means the issue of bonds or policies by which the society, in return for premiums or subscriptions payable at periodical intervals of one year or less, contract to pay the legal holder of the bond or policy a sum at a future date either with or without the other specified benefits such as the right to share in the profits of the society or to an advance for certain specified objects, and not being life assurance business;

(*f*) "ordinary life assurance business" means life assurance business transacted on similar lines to those adopted by ordinary life assurance companies, namely, by granting annuities on human life, or by assuring a fixed sum payable at death, on survivance or on the happening of any contingency dependent on human life in return for a premium which is fixed at the outset for each age at entry. This shall not exclude the case of sums assured and premiums which vary as the result of bonus ascertained by an actuarial valuation conducted in the manner provided for in the Fourth Schedule to the Indian Life Assurance Companies Act, 1912.

Contingencies prescribed under the Act.

3. The provisions of the Act shall, in addition to the contingencies of birth, marriage and death prescribed in clause (*8*) of section 2 of the Act, extend to the receipt of premiums, or contributions for insuring money to be paid on the happening of any of the following contingencies, or of any

other uncertain event coupled therewith, and shall apply to any society receiving such premium or contributions, namely :—

(*a*) the payment of sums on a person or persons surviving a given term, age or contingency, and the contingencies arising under any other life assurance business which is not subject to the provisions of the Indian Life Assurance Companies Act, 1912 ;

(*b*) bond investment business ;

(*c*) failure of issue ;

(*d*) provision for the expenses of any ceremonial occasion, such as betrothal, circumcision, thread ceremonies, shaving of the head, etc., which is generally observed among the different communities in India ;

(*e*) unemployment or retirement from business ;

(*f*) sickness ; and

(*g*) accident :

Provided always that the Act shall not apply to any society which is subject to, and complies with, the provisions of the Indian Life Assurance Companies Act, 1912.

Certificate of registration.

4. On the registration of a society, the Registrar shall grant a certificate to the society in Form No. 1 in Part II of the Schedule annexed hereto ; and on the registration of any other documents authorized or required to be recorded or filed he shall grant a certificate in Form No. 2 in the said Part II.

Name.

5. (*1*) No society subject to the Act may register hereafter with a name in which the words "life assurance" or "life insurance" occur, or having a name either the same as that of any existing society or other company or so nearly resembling it as to be likely to lead to confusion :

Provided that no society which has already been registered under the Indian Companies Act, 1913, or under Act VI of 1882 before the date of these rules shall be required under this rule to register by a different name.

(*2*) The name of every society, which is required by section 12 of the Act to be displayed in a conspicuous position in legible letters on the outside of the office of the society, shall be displayed in English and in the vernacular of the district in which the office is situated :

Provided that, in the case of offices of societies in the town of Calcutta, it will be sufficient if the name of the society is displayed in English alone.

Matters to be provided for by the rules.

6. (*1*) In accordance with the provisions of section 5 of the Act, every society,—

(*a*) if already existing at the date when these rules come into force shall provide, within six months from that date, for such of the matters mentioned in Part I of the Schedule annexed hereto as are not already provided for in the rules of the society, subject to the condition that the terms of the then existing contracts shall not be altered to the detriment of the policy-holders :

Provided that if, in any case, it is made to appear to the Registrar that the circumstances are such that a longer period than six months should be allowed, he may extend that period by such time as he may think fit ; and

(*b*) if not existing at the said date, shall provide in its rule, before registration under the Act, for the matters mentioned in the said Part I.

(*2*) A copy in English of the rules of the society and of any amendments thereto and of the said Part I of the Schedule duly completed as aforesaid, shall, within fifteen days from the date of the adoption of the rules, be sent to the Registrar. Blank forms of the said Part I may be obtained from the Registrar and should be used on each occasion when particulars are being submitted in compliance with this rule.

(*3*) The copy of the rules or amended rules of a society required to be forwarded in compliance with this rule and sections 6 and 8 of the Act

shall not be accepted for registration unless it is certified to be a correct copy and is signed by the Chairman or Managing Director or, if there is no Chairman or Managing Director, by all the Directors, as well as by the Manager, Managing Agent, or one of the other responsible officers of the society.

Qualifications of auditors.

7. No person shall be appointed or act as an auditor of any society unless he is either—

8. The accounts of every society not subject to audit in accordance with the provisions of the Indian Companies Act, 1913, or of any other law for the time being in force in British India relating to the registration of companies shall be audited in accordance with that Act or such other law.

Additional particulars in case of societies to which the Act applies.

9. Every auditor auditing under the Act the accounts of a society shall state the following additional particulars in his report—

(*a*) whether or not he has personally verified the whole of the investments with the securities and other vouchers and is satisfied as to their correctness;

(*b*) any other matters that he considers should be brought to the notice of the members or policy-holders of the society.

Qualifications of actuaries under the Act.

10. (*1*) Any person who, as an actuary, investigates the financial condition of a society or signs valuation returns of a society shall be either—

(*a*) a Fellow of the Institute of Actuaries, London, or a Fellow of the Faculty of Actuaries in Scotland; or

(*b*) where application is made by a society or by the Registrar and where, in the opinion of the Governor in Council, special circumstances exist,—

(*i*) an Associate of such Institute of Actuaries or of such Faculty of Actuaries; or

(*2*) Every application by a society for permission to employ as an actuary any person other than a Fellow of the Institute or Faculty of Actuaries shall state the work for the performance of which such person is required, and the Governor in Council, if he grants the application, shall cause a certificate to be issued to the society permitting, subject to such conditions and restrictions as he thinks fit, the employment of the person mentioned in the application.

Accuracy of particulars.

11. An actuary, when investigating the financial condition of a society, shall either satisfy himself as to the accuracy of the particulars extracted from the books or require a certificate of their accuracy from the manager and one other responsible officer of the society.

Particulars to be given in the report of actuary.

12. An actuary, when investigating the financial condition of a society, shall comply with the requirements of the forms set forth in the Fourth and Fifth Schedules of the Indian Life Assurance Companies Act, 1912, or as near thereto as circumstances will permit, and in addition he shall report—

(*a*) whether the calculations are correct and made on the principles which are contained in the statement required by the Fourth Schedule to the Indian Life Assurance Companies Act, 1912;

(*b*) whether these principles have his approval;

(*c*) whether he has obtained all the information and explanations that he has required;

(*g*) whether all negative values were eliminated from the valuation; and

(*h*) the reserve values held against policies effected at ages 20, 30, 40 and 50 and which have been in force for 1, 2, 3, 4, 5, 10, 15 and 20 years, respectively, in respect of—

(*i*) whole-life assurances with premiums payable throughout life;

(*ii*) whole-life assurances with premiums payable for 20 years;

(*iii*) endowment assurances payable at age 60 or previous death.

Further particulars in case of insolvent society.

13. In the event of the actuary finding that the financial condition of the society is such, in his opinion, that no payment should be made either of bonus to policyholders or of dividend to members, he shall state whether or not he finds the society to be solvent. If he finds it to be insolvent,—

(*a*) he shall state whether he considers that the society could be made solvent as regards existing contracts by the transfer of its subscribed capital (whether paid or unpaid) to make good the deficiency in the funds. If so, he shall state what, in his opinion, is the amount so required, and whether or not any alteration would require to be made in the rates of premium for future entrants;

(*b*) if he considers that the society cannot be made solvent as regards existing contracts by the transfer of the whole of the subscribed capital to the credit of the funds in deficit, he shall state what proportion of the sum assured the society would, in his opinion, be able to meet under such contracts, if all the premiums thereunder were reduced proportionately with the sum assured, and all subscribed capital were fully paid up and transferred to such funds.

Power of Registrar to postpone order under section 18.

14. (*1*) When an inquiry has been held under section 17 of the Act, the Registrar may, if he thinks fit, instead of cancelling the registry of the society under section 18 and appointing a liquidator to wind up the society under section 19 of the Act, consent to the society reducing the

amount of its contracts upon such terms and subject to such conditions as he thinks just.

(2) When policy contracts have been reduced under sub-rule (*1*), no money whatever shall be paid to shareholders either as repayment of capital, payment of dividend or in any other way until the society is able to meet policyholders' claims in full according to the original contract.

Liquidation of societies registered under the Indian Companies Act, 1913.

15. The Registrar shall not appoint a liquidator under section 19 in the case of a society subject to the law for the time being in force in British India relating to the registration of companies.

Liquidator may reduce contracts.

16. When a liquidator has been appointed in terms of section 19, he may, if he thinks fit, reduce the amount of each of the contracts of the society upon such terms and subject to such conditions as he may think just, as a means towards winding-up. If the contracts are not to be reduced in amount as here provided, the liquidator shall ascertain the value of the liability of the society to each person appearing by the books of the society to be entitled to or interested in policies granted by such society. He shall give written notice to such person of the value so ascertained.

Form of accounts, etc.

17. (*1*) The accounts of a society shall consist of the Revenue Account Profit and Loss Account and Balance Sheet as prescribed in Forms Nos. 3, 5 and 6, respectively, in Part II of the Schedule hereto annexed; but a society may, if it so desires, submit a Separate Revenue Account (precisely similar to Form No. 3) for any class of business carried on by it, but the transactions in respect of a class of business not prescribed under the Act shall not be shown in a Revenue Account showing the transactions in respect of any business which is so prescribed. The accounts shall be signed by all the directors of the society and by the manager and one of the other responsible officers. If any of these omit to sign, the reason shall be stated. Other statements shall be prepared each year in the following forms and signed by the Chairman or Managing Director (if any) as well as by the manager or one of the other responsible officers of the society :—

18. The Chairman or Managing Director (if any), as well as the manager and one of the other responsible officers of the society, shall sign all the accounts and the balance sheet and the abstracts or statements sent to the Registrar.

Registrar not responsible for accuracy of returns.

19. The receipt of an annual return by the Registrar implies no approval of anything it contains. An acknowledgment of the fact that documents purporting to be the annual returns of a particular society have been received will be given, but the acknowledgment does not imply that a valid return has been made or indicate approval of anything that it contains.

Registration fees.

20. The following fees shall be payable to the Registrar in cash or by postal money order for matters transacted under the Act :—

(*1*) Registration of a society (section 6) Rs. 100 :

NOTE 3.—Societies having investments with any uncalled liability shall state separately the full amount thereof.

On the *Income* side of this account should appear the premiums for each different class of insurance, all entrance fees, fines and other sums due to the society during the year (whether received or not) under the several items provided in the forms—

(*a*) Investments made or realised should not be entered in this account, but only the *gain* or *loss* made on their realisation, which should appear as income, if gain, and as expenditure, if loss.

(*b*) No deposits in, or withdrawals from, bank are to be brought into this account.

On the *Expenditure* side should appear all expenses incurred during the year (whether paid or outstanding), under the several items provided in the form. Bad debts and losses on agents' balances should be shown as expenditure.

No item can be included in the funds at the end of the year which was not included in the funds at the beginning of the year unless it is shown as an item of income of the year. Similarly, no diminution can be made in any of the funds in any year without appearing as an item of expenditure in the Revenue Account for that year.

The amount of each different fund at the beginning of the year should be the same amount which was stated in the Revenue Account of the society's last return as the amount of those funds at the end of the year.

If the balance of any account shown in the previous return be found incorrect, the corrected balance should be brought forward in the next return, and an explanation of the difference given on the form itself.

On the *Liabilities* (or left-hand) side of the Balance Sheet there should be brought from the Revenue Account the amounts of the funds at the end of the year as indicated on the form ; and the particulars stated of any debts incurred on behalf of the society, cash (if any) due by the society, and any other liabilities incurred by it which may be outstanding at the end of the year.

On the *Assets* (or right-hand) side should be shown the society's investments, together with the cash in hand and any other assets of the society. Among such other assets will be, for instance—

The amounts of these items shown in the balance sheet will, in the main, be received during the next financial year, but they must not again be included amongst the premiums, interest or cash in the Revenue Account, as they have already been included in the amount shown in that year's Revenue Account as "Amount of funds at the beginning of the year."

Some of these outstanding items which have been taken credit for as an asset may never be paid at all. The amount of those not realised will have to be written off through the Revenue Account and the funds will be decreased accordingly.

"His Britannic Majesty's Government find themselves under the necessity of availing themselves of the power reserved under article 8 of the

International Telegraph Convention and article 17 of the International Radio-telegraph Convention to suspend the transmission of telegrams and radio-telegrams to and from or in transit through the United Kingdom and to and from or in transit through all British Possessions and all British Protectorates whatsoever, save and except such telegrams and radio-telegrams as are on the service of His Majesty's Government or of the Government of any British Possession or Protectorate. II. The draft will be taken into consideration on or after the 15th September 1914, and any objection or suggestion which may be received by the undersigned before that date will be duly considered.

A. C. J. DE LOTBINIÈRE, LT.-COL., R.E.,
Offg. Secy. to the Govt. of Bengal.

DRAFT RULES.

1. Every vessel passing through the line of navigation known as the Madaripur Bhil channel shall stop at the prescribed toll-stations as notified in the Schedule of tolls for the purpose of assessment or check of toll charges.

2. For the purposes of these rules, vessels other than rafts, timbers, bamboos or other floating material shall be divided into two classes as below :—

Class I.—To include all vessels of the usual native types of build.

Class II.—To include all steamers, flats and barges, and such other square-built boats as should, in the opinion of the Collector of Tolls, be included.

3. The net tonnage of every vessel of class 1, whether laden or empty, shall, for the purposes of these rules, be determined by the following measurements :—

A.—The product of one quarter the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel, multiplied by the interior greatest depth from the water-line to the bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

B.—The measurement of the length is to be made in feet, rejecting inches; the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting portions of less than a quarter of a foot.

C.—The maundage on which tollage shall be charged shall be a simple multiple of 12½ maunds, rejecting any remainder by which the maundage, calculated as above, may exceed such simple multiple.

4. For vessels in class II the tonnage shall be determined as follows :—

The tonnage of steamers shall be the registered tonnage as given in the certificate of survey of the steamer.

Toll shall be levied on the actual weight of cargo carried on steamers, flats, barges and other vessels included in this class, as declared in the manifests.

When the registered tonnage of a steamer, or the manifest for cargo of a flat is not available, the tonnage will be taken as arrived at under rule 3.

For square-built boats the total maundage, as determined under rules for class I, shall be increased by half, and for steamers one-third of the total maundage shall be deducted for engine space.

5. Every vessel shall be furnished at the toll-station of entry with a ticket on which the name of the serang, manjhi or other person in charge of the vessel, the date of entry, the maundage of the vessel, the nature and weight of the cargo it contains and the amount of toll charged shall be entered.

6. This ticket may be demanded and checked by any navigation officer while the vessel is within the toll-limits of the Bhil channel, and must be kept on board and at hand for that purpose. The ticket must be given up at the exit toll-station. If the ticket is not produced on demand by a Canal officer, such officer shall assess the amount of toll payable and the vessel will be liable to seizure and detention under the provisions of section 9 of the Act until such sum is realized.

7. Vessels leaving the channel between two toll-stations shall obtain permission from the toll collector of the nearest toll-station and give up the ticket to that officer while leaving the channel.

8. A vessel, which has been detained under these rules or under section 9 of the Act, may not be removed from the channel without the order of the collector of tolls until the toll due has been paid. During such detention the manjhi, owner or agent must make arrangements for the safety of the vessel and cargo.

9. All tolls are payable on demand and shall be paid at the toll-station before a vessel is permitted to proceed. Provided that the collector of tolls appointed under section 8 of the Act may, at his discretion, permit vessels belonging to individuals or firms of recognised standing to proceed without prepayment, on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

10. The term "NAVIGATION OFFICER," as used in rule 6, shall include the collector of tolls appointed under section 8 of the Act, and the officer, or the subordinate duly authorised by such officer, of the PUBLIC WORKS DEPARTMENT, in charge of the subdivision or section within which the channel is situated.

11. Duplicates of lost tickets will be granted by the toll collector who originally issued the ticket on payment of a fee of one-fourth of the amount of toll payable, subject to a maximum of one rupee and a minimum of four annas. The duplicate will be issued only when the toll collector is satisfied about the identity of the boat.

12. No person shall wilfully or negligently allow a vessel to sink in the channel.

13. (*1*) In every case of a sunken vessel whether due to negligence or otherwise, the Supervisor and his subordinates shall offer every assistance in removing the same.

(*2*) If, three days after the occurrence of a wreck, it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the Supervisor and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner.

14. When a sunken vessel has been recovered, the Supervisor shall cause notices to be posted at the toll offices, or other prominent places, calling on those concerned to pay to the collector of tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo. Should the sum due be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold under the procedure directed in section 9 of the Act.

15. The purchaser of a vessel sold under the provisions of section 9 of the Act shall have the right to take it out of the channel on the day of purchase, or within such time as may be allowed by the collector of tolls, without payment of tolls.

16. When any laden vessel, which has sunk, has been recovered, or when any laden vessel has been seized under the provisions of the Act or of these rules, the Supervisor shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay, and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

17. If the Supervisor be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in rule 16 shall be effected by a notice exhibited in his office, and by advertisement in at least one English and one vernacular Calcutta newspaper.

18. *Lights and Signals.*—All vessels, whether travelling or moored in the channel, must, between sunset and sunrise, carry a white light in a lantern on the fore-part of the vessel where it can be distinctly seen from all sides. All steam-vessels in motion shall carry the lights prescribed by

the Board of Trade regulations. Barges or boats attached to a steam-vessel, whether in motion or moored, shall carry the light prescribed in the first paragraph of this rule.

19. Every vessel proceeding in the channel must limit her speed to six miles an hour from the 15th October to the 10th July, and to eight miles an hour from the 11th July to the 14th October.

20. For any infringement of rule 6, 7, 8, 9, 12, 13, 14, 16, 17, 18 or 19, the person in charge of the vessel or other persons in fault shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50 or Rs. 5 a day for any continuing infringement.

RULES UNDER THE BENGAL TENANCY ACT, 1885 (VIII OF 1885).

CHAPTER I.—GENERAL.

Supervision and control by Local Government.

1. Except where otherwise provided for by law or by these rules, all proceedings and orders of Revenue-officers, passed in the discharge of any duty imposed upon them by or under the Bengal Tenancy Act, 1885 (hereinafter referred to in these rules as "the Act"), shall be subject to the supervision and control of the Local Government; and the proceedings and orders of each Revenue-officer under the Act shall be subject to the supervision and control of the Revenue-officers to whom he may be declared by the Local Government to be, for the purposes of the Act, subordinate.

Act VIII of 1885.

The Collector and the Commissioner, in whose jurisdiction operations under these rules are in progress, shall be entitled to inform themselves of the nature and progress of such operations.

Service of notice where mode not prescribed by the Act or these rules.

2. Where no other mode of service of notice is prescribed by the Act or by these rules, service shall be effected in the manner prescribed for the service of summons on a defendant under the Code of Civil Procedure, if the notice is addressed to one or more persons occupying or owning the same holding or tenure; and if it is addressed to a number of persons occupying or owning different holdings or tenures in the same village, the notice shall be served in the manner prescribed for the service of summons on a defendant under the Code of Civil Procedure, *or* by proclamation and beat of drum, and by posting it, in the presence of not less than two persons, on some conspicuous place in the village, and also by fixing it up in the village office, if any, where the rent is usually paid. In the case of uninhabited villages, the posting of the notice shall be made in the nearest inhabited village.

CHAPTER II.—STAPLE FOOD-CROPS AND PRICE-LISTS.

Local areas.

3. *Section 39.*—Each Sub-division of a District shall form a local area for the purposes of sub-section (*1*) of section 39 of the Act, and the Collector shall settle the mart within the Sub-division at which prices shall be recorded.

Staple food-crops.

4. Rice has been declared, and until further orders shall be deemed, to be the staple food-crop in all such local areas.

Dates for preparation of price-lists.

5. Price-lists of the staple food-crop shall be prepared on one market-day in the month, at intervals of not less than twenty days. This market-day shall be selected by the Collector, subject to the control of the Board of Revenue.

Provided that no such entry or revised entry shall be made unless the tenure-holder has been previously informed of the proposed entry and has been given an opportunity of objecting thereto.

59. *Preparation of a settlement rent-roll.*—Where land revenue is being, or is about to be, settled, the Revenue-officer shall prepare a rent-roll for each village, in accordanee with the following procedure :—

(*i*) Before preparing the rent-roll the Revenue-officer shall issue a proclamation informing the landlords and tenants of the time and place at which the preparation of the rent-roll will begin. If any tenant be absent, the Revenue-officer shall make no entry in the rent-roll which would have the effect of altering the rent of that tenant until a special notice has been duly served on that tenant.

(*ii*) When the Revenue-officer is preparing the settlement rent-roll on the basis of a table of rates, he shall consult the landlord and tenants of the village regarding their own classification of the lands therein and regarding the relative capability of each class of land, according to that classification. When specifying in the table of rates the rate of rent which is fairly and equitably payable in respect of each class of land, the Revenue-officer shall specify and have regard to the rate of rent which is now being paid in respect of each class of land, and shall also have regard to the statements of the landlords and tenants as to the classification and relative capability of lands. Before settling any rent upon the application of the table of rates, the Revenue-officer shall consider the circumstances of the tenant and shall compare the total rent which he is now paying with the rent which he would pay according to the table of rates. He shall also consider whether the land held by the tenant is good or bad land of its class.

(*iii*) When determining the final entries to be made in the rent-roll, the Revenue-officer shall read out, or cause to be read out in his presence, the principal entries relating to the holding and rent of each tenant whose rent is to be settled, and shall enter in the rent-roll with his own hand the fair rent settled for each such tenant.

(*iv*) The Revenue-officer shall enter in the settlement rent-roll the cess which is payable by each tenant to his landlord after the determination of the fair rent.

(*v*) The publication of the draft table of rates, if any, and of the draft settlement rent-roll shall be carried out in the manner and for the period prescribed in the case of the publication of the draft record-of-rights.

(*vi*) Objections under section 104B (*3*) or under section 104E of the Act shall ordinarily be disposed of by the Revenue-officer, in or near the village in which the land is situated. The Revenue-officer shall record his reasons for each order on an objection. Appeals will lie against these orders to the superior Revenue authority mentioned in rule 48.

60. *Preparation of the Final Record.*—When all objections under section 103A of the Act have been disposed of, and when the settlement rent-roll, if any, has been prepared, sanctioned and incorporated with the record, and when the draft record has been corrected in accordance with the original and appellate orders on all objections, the Revenue-officer shall proceed to frame the final record. The final record shall be prepared in conformity with the draft record corrected as above, and shall consist of a series of *khatians* prepared on forms which are generally similar to the forms used for the *khatians* of the draft record. The *khasra* shall not form part of the final record. The final record shall be printed or prepared in manuscript, according as the Local Government may, by general or special order, determine.

61. *Publication of the Final Record.*—The Revenue-officer shall publish the final record-of-rights by placing it for public inspection free of charge, during a period of not less than one month, at such convenient place as he may determine. A proclamation shall previously be published in each village, informing the landlords and tenants of the place at which the final record of that village will be open to public inspection and the period during which it will be open to such inspection.

68. *Deposits of rent.*—For deposits of rent under section 61 (*2*) of the Act fees shall be levied according to the following scale :— Fees for deposits of rent.

69. *Distraint of crops.*—(*1*) The following scale of charges is prescribed on account of processes for distraint and sale under section 134 of the Act :— Fees for processes for distraint.

H. L. STEPHENSON,
Secy. to the Govt. of Bengal.

the examination of candidates from the Government medical schools and from those private medical schools whose equipment and training may justify them in aspiring to a registrable qualification for their students.

3. The Bengal Medical Act which was passed last April has conferred upon the Bengal Council of Medical Registration the duties of general supervision over the interests of the medical profession and the progress of medical education, and it rests with that body to decide when the training and equipment of a school or college are such as to justify the grant of a registrable qualification to its successful students. It is undesirable that the functions of this Council, which is largely elective and is the first step towards self-government in the profession, should be trenched upon by any other body, and the responsibilities of the State Medical Faculty will therefore be confined to arranging for the examination of students from colleges and schools which have been approved for this purpose by the Council of Medical Registration. The State Medical Faculty will grant a diploma of membership and a license, the former corresponding to the L.M.S. and the latter to the certificate given by the Government medical schools, and it is expected that the Council of Medical Registration will recognise these qualifications as registrable under section 18 (*a*) of the Bengal Medical Act and thus avoid the multiplicity of titles and qualifications which would otherwise be necessary when private schools and colleges are approved by the Council. As the State Medical Faculty will be purely an examining body and it is desirable that their diploma and license should have the weight of Government authority, the Governing Body will be appointed by His Excellency in Council.

4. The statutes and bye-laws of the State Medical Faculty, which is hereby constituted, are published below for general information :—

By order of the Governor in Council,

H. L. STEPHENSON,
Secy. to the Govt. of Bengal.

II. The draft will be taken into consideration on or after the 15th September 1914, and any objection or suggestion which may be received by the undersigned before that date will be duly considered.

A. C. J. DE LOTBINIÈRE. LT.-COL., R.E.,
Offg. Secy. to the Govt. of Bengal.

DRAFT RULES.

1. Every vessel passing through the line of navigation known as the Madaripur Bhil channel shall stop at the prescribed toll-stations as notified in the Schedule of tolls for the purpose of assessment or check of toll charges.

2. For the purposes of these rules, vessels other than rafts, timbers, bamboos or other floating material shall be divided into two classes as below :—

Class I.—To include all vessels of the usual native types of build.

Class II.—To include all steamers, flats and barges, and such other square-built boats as should, in the opinion of the Collector of Tolls, be included.

3. The net tonnage of every vessel of class 1, whether laden or empty, shall, for the purposes of these rules, be determined by the following measurements :—

A.—The product of one quarter the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel, multiplied by the interior greatest depth from the water-line to the bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

B.—The measurement of the length is to be made in feet, rejecting inches; the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting portions of less than a quarter of a foot.

C.—The maundage on which tollage shall be charged shall be a simple multiple of 12½ maunds, rejecting any remainder by which the maundage, calculated as above, may exceed such simple multiple.

4. For vessels in class II the tonnage shall be determined as follows :—

The tonnage of steamers shall be the registered tonnage as given in the certificate of survey of the steamer.

Toll shall be levied on the actual weight of cargo carried on steamers, flats, barges and other vessels included in this class, as declared in the manifests.

When the registered tonnage of a steamer, or the manifest for cargo of a flat is not available, the tonnage will be taken as arrived at under rule 3.

For square-built boats the total maundage, as determined under rules for class 1, shall be increased by half, and for steamers one-third of the total maundage shall be deducted for engine space.

5. Every vessel shall be furnished at the toll-station of entry with a ticket on which the name of the serang, manjhi or other person in charge of the vessel, the date of entry, the maundage of the vessel, the nature and weight of the cargo it contains and the amount of toll charged shall be entered.

6. This ticket may be demanded and checked by any navigation officer while the vessel is within the toll-limits of the Bhil channel, and must be kept on board and at hand for that purpose. The ticket must be given up at the exit toll-station. If the ticket is not produced on demand by a Canal officer, such officer shall assess the amount of toll payable and the vessel will be liable to seizure and detention under the provisions of section 9 of the Act until such sum is realized.

7. Vessels leaving the channel between two toll-stations shall obtain permission from the toll collector of the nearest toll-station and give up the ticket to that officer while leaving the channel.

8. A vessel, which has been detained under these rules or under section 9 of the Act, may not be removed from the channel without the order of the collector of tolls until the toll due has been paid. During such detention the manjhi, owner or agent must make arrangements for the safety of the vessel and cargo.

9. All tolls are payable on demand and shall be paid at the toll-station before a vessel is permitted to proceed. Provided that the collector of tolls appointed under section 8 of the Act may, at his discretion, permit vessels belonging to individuals or firms of recognised standing to proceed without prepayment, on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

10. The term "NAVIGATION OFFICER," as used in rule 6, shall include the collector of tolls appointed under section 8 of the Act, and the officer, or the subordinate duly authorised by such officer, of the PUBLIC WORKS DEPARTMENT, in charge of the subdivision or section within which the channel is situated.

11. Duplicates of lost tickets will be granted by the toll collector who originally issued the ticket on payment of a fee of one-fourth of the amount of toll payable, subject to a maximum of one rupee and a minimum of four annas. The duplicate will be issued only when the toll collector is satisfied about the identity of the boat.

12. No person shall wilfully or negligently allow a vessel to sink in the channel.

13. (*1*) In every case of a sunken vessel whether due to negligence or otherwise, the Supervisor and his subordinates shall offer every assistance in removing the same.

(*2*) If, three days after the occurrence of a wreck, it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the Supervisor and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner.

14. When a sunken vessel has been recovered, the Supervisor shall cause notices to be posted at the toll offices, or other prominent places, calling on those concerned to pay to the collector of tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo. Should the sum due be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold under the procedure directed in section 9 of the Act.

15. The purchaser of a vessel sold under the provisions of section 9 of the Act shall have the right to take it out of the channel on the day of purchase, or within such time as may be allowed by the collector of tolls, without payment of tolls.

16. When any laden vessel, which has sunk, has been recovered, or when any laden vessel has been seized under the provisions of the Act or of these rules, the Supervisor shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay, and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

17. If the Supervisor be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in rule 16 shall be effected by a notice exhibited in his office, and by advertisement in at least one English and one vernacular Calcutta newspaper.

18. *Lights and Signals.*—All vessels, whether travelling or moored in the channel, must, between sunset and sunrise, carry a white light in a lantern on the fore-part of the vessel where it can be distinctly seen from all sides. All steam-vessels in motion shall carry the lights prescribed by

the Board of Trade regulations. Barges or boats attached to a steam-vessel, whether in motion or moored, shall carry the light prescribed in the first paragraph of this rule.

The following tables show the number of patients and their relatives and friends admitted during the last six years together with the daily average sick :—

Patients.

YEARS.	1908.	1909.	1910.	1911.	1912.	1913.
Admissions ...	431	389	427	393	506	499
Daily average sick ...	26·7	24·85	30·05	26·87	24·72	23·11

Relatives and Friends.

Total number ...	114	83	139	138	169	173

The following table shows the total number of patients treated during the year 1913 :—

Males.	Females.	CHILDREN.		Total.	Cured.	Relieved.	Died.
		Males.	Females.				
201	194	49	55	499	453	40	6

The total number of admissions during the year 1913 was 672. Of these 79 were admitted to the first class, as compared with 85 in 1912, 125 to the Intermediate as compared with 124, 291 to the second class as compared with 288, and 177 to the third class as against 178 in 1912.

Of these there were 13 children in the first class, 29 in the intermediate, 88 in the second class and 41 in the third class, making a total of 171 children admitted in the year 1913.

From these figures it will be seen that there has been an increase in intermediate and second classes and a slight fall in the numbers of the first and third classes.

The number of patients treated in 1913 was 499 against 506 in 1912. The above figures stand second in the records of patients treated during the past six years from 1908 to 1913. No reason can be assigned for the slight decrease of patients as compared with the year 1912.

The daily average number of residents for the whole year works out to 42, though for the period the Sanitarium was open it was 55, as compared with 39 and 61 respectively during the year 1912. The average stay of each resident was 21 as compared with 19 days in 1912.

The residents generally expressed satisfaction with the arrangements.

5. The free beds of the Medical College Hospital and Presidency General Hospital were occupied nearly all the season.

Four patients were treated in the Superintendent's Free bed against four in 1912.

Ten patients were treated in the Presidency General Hospital Free beds against eight in 1912.

Eight patients were treated in the Medical College Hospital Free bed against five in 1912.

Four patients were treated in the John White Free bed, and two patients who were tea-planters were admitted in the Peter West Free bed during the year 1913.

Three children were treated free in the Theo. Beryl Cot, and the Ministering Children's League, Darjeeling, paid for the treatment of four children at the Eden Sanitarium.

The total amount spent on Free bed patients was Rs. 1,417-8 against Rs. 1,488 in 1912.

6. The following donations and subscriptions were received in 1913 :—

		Rs.	A.
(1)	Mr. Gallacher	49	4
(2)	Manager of Tukvar Co., Ltd.	100	0
(3)	Messrs. Hamilton & Co.	25	0
(4)	Messrs. Ranken & Co.	25	0
(5)	Messrs. T. E. Thompson & Co.	25	0
(6)	Mr. D. P. Mackenzie	250	0
(7)	Messrs. R. Knight & Sons	25	0
(8)	Messrs. Cooke & Kelvey	25	0
(9)	Messrs. Mackintosh, Burn & Co.	25	0
(10)	General Manager, D. H. Railway... ...	100	0

	Total ...	856	6

7. The rule whereby European Government servants on receipt of Rs. 400 or under can obtain first class accommodation by paying intermediate class rates, was taken advantage of in seven cases.

The rule granting a reduction of rates to European assistants in Commercial firms, Banks, etc., who are annual subscribers, was taken advantage of in two cases only during the year 1913.

8. (1) There were four cases of Enteric fever against four in 1912. All were of a serious type. There was one death in a case complicated by a malignant form of Purpura.

(2) There were 12 cases of Malarial fever treated against 15 in 1912. Two Kala Azar cases were treated against one in 1912.

(3) Nine Pneumonia cases were treated in 1913 as compared with four in 1912. Of these seven recovered and two died.

(4) There were 26 operations performed during the year 1913 against 36 in 1912. An analysis of the 26 operations performed during the season shows that 6 were performed during the first half of the period and 20 during the second. It is my opinion that this decrease in the year is not dependant on the fact that fees are charged for operations. Three selected operations were performed by Major A. Gwyther, I.M.S., nine by myself and one by Military Assistant Surgeon J. C. Chalke. Of these two were obstetric operations.

(5) There were 10 labour cases treated in the Hospital in 1913 against 13 in 1912. Of these eight were normal cases and two abnormal cases.

(6) There were altogether six deaths against four in 1912.

The causes were :—One Typhoid fever, two Pneumonia, one Meningitis, one Appendicitis, one Premature Birth (Inanition).

(7) In accordance with the usual custom every inmate, not a "relative" or friend, has been shown as sick and most of them have been as usual shown as suffering from anaemia and debility. A large proportion of these were in no way more debilitated than any ordinary individual who comes to a hotel or boarding-house in Darjeeling for a change. No medical certificate is required for entry into the Sanitarium. It is in fact largely a boarding-house.

9. INCOME AND EXPENDITURE :—

The daily cost of diet for residents not including the staff was Rs. 1-9-5 as compared with Rs. 1-10-6 in 1912.

The accounts were audited by Messrs. Viney and Thurston, Chartered Accountants of Calcutta.

10. GENERAL REMARKS :—

The nursing arrangements and linen as usual were under the supervision of two of the Clewer Sisters from Calcutta. I am much indebted to them for their valuable assistance.

RULES.

Definition. [Cf. Bengal Act III of 1884, s. 101.]

1. In these rules, unless there is anything repugnant in the subject or context, "rental" means—

(*a*) in the case of any dwelling-house, erected for letting purposes or ordinarily let, the gross annual rental at which such dwelling-house, together with its appurtenances and any furniture that may be let for use or enjoyment therewith, may reasonably be expected to be let from year to year, subject to the following deductions :—

(*i*) such deduction as the Cantonment authority in each particular case may consider a reasonable allowance on account of the furniture let therewith, and

(*ii*) a deduction of ten per cent. for the cost of repairs and for all other expenses necessary to maintain the dwelling-house in a state to command such gross annual rent. The deduction under this sub-clause shall be made from the gross rent, less the deduction (if any) under sub-clause (*i*).

Explanation.—For the purposes of clause (*a*) it is immaterial whether the dwelling-house and the furniture let for use or enjoyment therewith are let by the same contract, or by different contracts, and if by different

contracts, whether such contracts are made simultaneously or at different times;

(*b*) in the case of any dwelling-house owned by Government (including any dwelling-house acquired at the cost of the Cantonment Fund), the actual rental assessed by the Military Works or other Department under whose control the dwelling-house may be; and

(*c*) in the case of any dwelling-house not erected for letting purposes and not ordinarily let, five per cent. on the sum obtained by adding the present estimated cost of erecting the house, less a reasonable amount to be deducted on account of depreciation (if any), to the estimated value of the land valued with the house as part of the same premises:

Provided as follows:—

(*i*) in the calculation of the annual value of any premises, no account shall be taken of any machinery thereon;

(*ii*) when a dwelling-house is occupied by the owner under such exceptional circumstances as to render a valuation at five per cent. on the cost of erecting the house, less depreciation, excessive, a lower percentage may be taken.

Register to be kept. [*Cf.* Bengal Act III of 1884, s. 322 (*4*).]

2. 3. The entries in the demand and collection register shall be checked by the Secretary or such responsible officer as the Cantonment authority may appoint in this behalf, who shall place his initials in column 8 thereof against each item of demand. If any alteration is made in the demand, the information or order in accordance with which it has been made shall be noted in column 28 of the said Register.

In certain cases tax may be levied from owner, who may recover from occupier [Bengal Act III of 1884, s. 323.]

6. If any dwelling-house is occupied in severalty by more than one person, the Cantonment authority may levy the said tax from the owner of such house, who may recover from each occupier such sum as shall bear to the entire amount of the tax so levied the same proportion as the rental of the part of the house in the occupation of such person bears to the entire rental of such house.

Owner may recover amount of tax from occupier as rent. [Bengal Act III of 1884, s. 324.]

7. Every owner who under rule 6 is entitled to recover any sum from the occupier of any part of a dwelling-house, shall have for the recovery of the said sum all such and the same remedies, powers, rights and authorities as if such sum were rent payable to him by the occupier in respect of such portion of the house as may be in his occupation.

Remission or refund on account of vacant buildings. [Bengal Act III of 1884, s. 110, read with s. 322 (*1*).]

8. When any dwelling-house has been vacant for sixty or more consecutive days during any year, the Cantonment authority shall remit, and, if the tax has been paid, shall refund, one-half of so much of the tax of that year as may be proportionate to the number of days the said dwelling-house has remained unoccupied:

Provided that the owner of such house, or his agent, has given to the Cantonment Magistrate notice in writing of the vacancy thereof, and that the application for refund is made within six months from the date on which such notice is delivered at the office of the Magistrate.

The amount of the tax to be remitted or refunded shall be calculated from the date of the delivery of such notice.

Power to grant exemption from tax in certain cases. [*Cf.* Bengal Act III of 1884, s. 106, read with s. 322 (*1*).]

9. The Cantonment authority may exempt, in whole or in part, for any period not exceeding one year, from the payment of the conservancy tax, any person who by reason of poverty may, in its opinion, be unable to pay the same, and may renew such exemption as often as may be necessary.

Recovery of arrears of tax. [*Cf.* Bengal Act III of 1884, s. 322 (*1*), read with ss. 121 and 127.]

10. Arrears of conservancy tax may be recovered on application to a Magistrate having jurisdiction within the limits of the Cantonment or in any other place where the defaulter may for the time being be resident, by the distress and sale of any moveable property within the limits of such Magistrate's jurisdiction belonging to such defaulter, except ploughs, plough-cattle, tools or implements of agriculture or trade.

Appeal against assessment or levy of tax. [*Cf.* Bengal Act III of 1884, ss. 113, 114, 115, read with s. 322 (*1*).]

11. The appellate order of such officer shall be final.

Taxation not to be questioned, save under these rules. [*Cf.* Bengal Act III of 1884, s. 116.]

(*ii*) stopping at a particular place,

(*iii*) refraining from communication with the shore, and

(*iv*) taking measures for giving effect to the present regulations.

3. If the vessel be at anchor within port limits when such disease first breaks out or such death occurs, the master shall hoist the signals specified in regulation 2.

4. The pilot or other boarding officer shall promptly report the circumstances of the case to the Port Officer, who shall immediately forward any report so made or give notice of any signal hoisted to the Port Health Officer.

5. (1) When any *healthy* vessel is within sight of a port in British India, the master shall intimate the fact by signal.

(2) Such intimation shall ordinarily be accepted by the Port Officer; and if so accepted, the Health Officer need not visit the vessel, which may be considered to have pratique.

PART III.—BERTHING OF VESSELS.

6. (*a*) If the number of deaths from or cases of the diseases enumerated in the preamble, with the exception of plague and yellow fever, does not exceed two, the vessel will not be prohibited from taking up the usual place of anchorage in the harbour or port, except that she may not enter the docks without the written permission of the Health Officer, and the passengers and crew not suspected of having any of the diseases in question need not, except in the case of pilgrim and emigrant ships *and those not carrying a medical officer*, be detained on board pending the inspection of the Health Officer. The master of the vessel shall be responsible that no one of the passengers or crew, except those referred to above, is allowed to leave the vessel before inspection by the Health Officer, and shall prevent the landing of infected bedding, clothes, or other personal effects which he has reasonable cause to consider likely to be infected.

(*b*) If the number of cases or deaths within the previous twelve days has exceeded two, or when from their occurrence on pilgrim or emigrant ships or for other special reasons further precautions may be deemed advisable, the pilot, or in his absence the master, shall keep hoisted by day or night as the case may be, the signals prescribed by regulation 2, and shall anchor the vessel in the place appointed for the purpose and shall not allow any of the passengers or crew to leave the vessel except with the permission of, or under such instructions as may be issued by, the Health Officer.

7. If a case of yellow fever or of plague or unusual mortality among rats has occurred on board, the vessel shall not take up the usual place of anchorage pending the visit of the Health Officer; in the meanwhile the vessel shall stop at such place as Government may by order provide.

8. So long as the signals prescribed by regulation 2 are shown, no *tindal* or other person in charge of or navigating any boat shall, without the permission of the Health Officer, attempt to take it alongside such vessel.

PART IV.—INSPECTION OF VESSELS.

9. Whenever the Health Officer receives the notice referred to in regulation 4, he shall without unnecessary delay proceed on board and examine the vessel, and the master shall give him every facility for the examination of the passengers, crew, personal effects, cargo, and any part of the ship the Health Officer thinks necessary. The Health Officer may require a declaration on oath from the medical officer (if any) of the vessel or from the master or from both, whether any death or sickness from an unknown or suspicious cause or any case of any of the diseases enumerated in the preamble has occurred on board the vessel either during the voyage or before her departure, and with reference to plague, whether any unusual mortality has been observed among rats. If the Health Officer is satisfied that such deaths as may have occurred were not due to any of the causes enumerated in the preamble, he shall permit the vessel to proceed to the usual place of anchorage and to discharge passengers and cargo without any further restrictions. If he is not so satisfied, he shall proceed as provided in these regulations. The inspection by the Health Officer will ordinarily take place between sunrise and sunset.

10. As a result of every inspection the Health Officer shall classify the vessel as infected, suspected or healthy, *in accordance with the definitions given in Part I.*

11. On the completion of the inspection prescribed by regulation 9, such of the passengers and crew as *have been detained under regulation 6 (a) but w o* are found to be free from any of the diseases in question and unlikely to carry infection shall be allowed to land. All baggage, personal effects and cargo, except such articles as the Health Officer is entitled to disinfect, may also be landed.

12. If a case of any of the diseases enumerated in the preamble occurs on any vessel after she has entered dock or has been moored at a wharf, the master shall forthwith cause information thereof to be given to the dock master or superintendent of the wharf, who shall communicate the information to the Health Officer (through the Port Officer) and to the Superintendent of Police, and shall be responsible that the sick person shall be isolated as much as possible, and that free communication with the wharf is stopped until the Health Officer has inspected the vessel.

PART V.—REMOVAL OF THE SICK.

13. When on inspection the Health Officer considers it necessary in order to prevent the spread of disease, he shall take the measures indicated in Part VI of these regulations as the case may be.

14. Unless a vessel shall have had communication with the shore under the proviso to regulation 43, and *except as provided for under regulation 19* (2) and 33 the removal of *sick* passengers is not to be enforced in the case of persons bound for an onward port unless under the clearest necessity of which the Health Officer shall be the judge, and in every such case a special report explaining the reasons for the action taken must be submitted by the Health Officer to Government.

15. The Health Officer shall inform the Municipal Health Officer in all cases in which he arranges for the conveyance of a patient to a sanitarium or hospital or other place within municipal limits, and shall furnish the Municipal Health Officer with the address of any private residence to which he permits the removal of a patient.

16. Where small-pox is the disease on account of which the vessel is deemed to be infected, the Health Officer shall offer, without charge, vaccination or revaccination to all persons willing to be operated upon, and shall cause to be vaccinated, if their guardians or those in charge of them consent, all children below 10 years and over six months of age who do not bear marks of vaccination or of small-pox. In the case of plague, inoculation may similarly be offered free of charge to all willing to be inoculated.

PART VI.—MEASURES TO BE TAKEN IN THE CASE OF HEALTHY, INFECTED AND SUSPECTED VESSELS.

17. Vessels classed by the Health Officer after inspection as healthy shall be given free pratique, save as otherwise provided in rule 23. Other vessels will be dealt with in accordance with rules contained in Parts VI(A), VI (B), VI (C), VI (D), or VI (E) according to the disease on account of which they are declared suspected or infected.

PART VI-A.—SMALL-POX, CHICKEN-POX, MEASLES, CHOLERA, TYPHUS AND SCARLET FEVER.

18. In the event of a vessel being classed either as infected or suspected on account of any of the abovementioned diseases, the Health Officer—

(1) shall arrange for the conveyance of any person suffering or suspected to be suffering from such disease to a sanitarium or hospital, unless the sick person or his friends can make adequate provision elsewhere of which the Health Officer must satisfy himself; but he shall not enforce the removal from the vessel of any person or persons bound for an onward port except as provided for in regulation 14;

(2) shall either himself undertake, or direct the master of the vessel to undertake, the destruction or disinfection of all clothing, bedding and other articles that he may consider infected;

(3) may, when a vessel with one or more of the abovementioned diseases on board has in his opinion passengers or crew in a filthy and unwholesome condition, cause the clothing and personal effects of such persons to be disinfected before allowing them to leave the vessel;

(4) may, in the case of undecked craft, direct the disinfection, or in special cases the destruction, of food-stuffs which have been exposed to contamination and are considered likely to be infected;

(5) may order that any portion of the vessel that has actually been exposed to contamination or is in a filthy or insanitary condition, or which he considers likely to be infected, should be disinfected and cleansed as he may direct and may prohibit the discharge of bilge-water or water ballast within port limits without previous disinfection;

(6) may, in the case of cholera, direct the master to have the bilges and water tanks emptied, cleaned and disinfected.

PART VI-B.—PLAGUE.

19. In the case of infected vessels the following measures shall be taken:—

(1) All persons on board shall be medically examined as prescribed in regulation 9.

(2) All persons suffering from plague shall immediately be disembarked under the directions of the Health Officer and isolated in the camp or hospital, whether ashore or afloat, appointed by Government for the purpose.

(3) At the discretion of the Health Officer other persons may also be disembarked and be subjected to observation* or surveillance* or observation followed by surveillance during a period which shall not exceed five days.

(4) Such soiled linen, wearing apparel and articles belonging to the crew and passengers as are, in the opinion of the Health Officer, infected, shall be disinfected.

(5) All parts of the vessel which have been occupied or frequented by plague patients shall be disinfected; and any other parts of the vessel that, in the opinion of the Health Officer, are infected, shall be disinfected.

(6) The rats on board shall be destroyed, either before or after discharge of the cargo, in either case as quickly as possible, and in such manner as to avoid as far as possible damage to merchandise and to the ship's plating and engines. In the case of ships in ballast this process must be carried out as soon as possible, before embarking cargo.

(7) Passengers arriving by an infected ship and subjected to the provisions of clauses (2), (3) and (4) above are entitled to obtain from the Health Officer a certificate showing the date of their arrival and the measures taken as regards themselves and their baggage.

20. When the measures prescribed in regulation 19 have been duly taken in respect of any vessel, the Health Officer shall, by written order, grant pratique, provided that, if a case of plague or of illness suspected to be plague occurs on board subsequent to the grant of the above certificate, the certificate shall become invalid and the vessel again become subject to the requirements of the regulations regarding infected vessels.

21. In the case of suspected vessels the following measures shall be taken:—

(1) All persons on board shall be medically examined as prescribed in regulation 9.

(2) The destruction of rats may be ordered at the discretion of the Health Officer, and if ordered shall be carried out in the terms of regulation 19 (6).

* "Observation" means isolation either on board the ship or in a sanitary station appointed for the purpose before the grant of pratique. Passengers under "surveillance" are not isolated; they receive pratique at once and are at liberty to proceed to their destinations, but the authorities at those places are informed of their coming and they are subjected to medical examination for such period as may be fixed in these regulations.

(3) All soiled linen, wearing apparel and personal effects of the crew and passengers which are or are suspected to be infected, shall be disinfected.

(4) All parts of the vessel which have been occupied or frequented by plague patients shall be disinfected; and any other parts of the vessel that, in the opinion of the Health Officer, are infected, shall be disinfected.

22. When the measures prescribed in regulation 21 have been taken in respect of any vessel. the Health Officer shall, by written order, grant pratique.

23. In the case of healthy vessels, pratique shall ordinarily be given at once as provided for in regulation 17, but the Health Officer may, in his discretion, if special circumstances appear to him to require it, impose any or all of the following measures :—

(1) medical examination as prescribed in regulation 9;

(2) disinfection of soiled linen, etc., as prescribed in regulation 19 (*4*);

(3) destruction of rats as prescribed in regulation 19 (*6*); but the process of deratisation must not occupy more than 24 hours.

24. In exercise of the functions imposed upon him by regulations 9, 19 and 21, the Health Officer shall—

(*a*) attach due importance to the presence on board the vessel of a medical officer and to the provision of apparatus for disinfection by means of saturated steam and for the destruction of rats and

(*b*) shall take into account the sanitary or insanitary, and roomy or, crowded condition of the vessels.

25. If, in the case of any vessel making a passing call, the communication with the shore is restricted to the landing of passengers, mails or goods, the Health Officer may, in his discretion, enforce the provisions of regulation 19, 21 or 23, as the case may be, to such extent only as may in his opinion be necessary for the purpose of controlling the actual communication with the shore :

Provided (*a*) that any persons on board the vessel whom the Health Officer has reason to believe to be suffering from plague shall be landed and kept under observation.

Provided also (*b*) that ships from an infected place that have been disinfected and have undergone adequate sanitary measures, shall not, on their arrival in another port, be subjected to these measures a second time if no case has occurred since the disinfection was performed and if they have not called at an infected port. A ship which has merely disembarked passengers and their baggage or mails, without having been in communication with the shore, shall not be regarded as having called at the port.

26. The Health Officer shall, whenever requested, furnish the master, the shipowner or the shipowner's agent with a certificate stating that measures of rat destruction have been carried out and giving the reasons why they were resorted to.

27. The foregoing regulations shall not prevent the transhipment, under restrictions to be imposed by the Health Officer in conformity therewith, of passengers, mails or goods between vessels which have not been granted pratique.

28. If any case of plague occurs among any group of persons who are being kept under observation, the patient shall be isolated or sent to a hospital, and the other persons shall continue to be detained and segregated as aforesaid for a period not exceeding five days from the date on which the group became free from plague. The clothes and effects of the patient and of such persons as have been in contact with the patient shall be disinfected at the discretion of the medical officer in charge.

29. The medical officer in charge of any place appointed for the isolation of any persons under these regulations may, in his discretion, by written order, direct that any person who is kept there under observation shall be allowed to depart and shall be subject to surveillance.

30. If the system of surveillance to which any person is subjected on shore requires his daily attendance before a medical officer, the Health Officer may, by written order, exempt such person from such attendance on being satisfied that he may be relied upon to send in a prompt report if he should fall sick.

31. Persons subjected to surveillance shall submit to, and comply with, all directions as to medical supervision or otherwise, which may be given by written order of a medical officer appointed by Government in this behalf.

PART VI-C.—YELLOW FEVER.

32. In the case of vessels which have, within a period of two months immediately preceding their arrival, started from or touched *en route* at a port infected with yellow fever or communicated (except orally without contract or by signal) with a vessel either infected or which has left an infected port within that period, the following procedure shall be observed :—

(1) The vessel shall be anchored at sea at such special anchorage as may be fixed for this purpose by the Local Government but in no case less than half a mile from the land at low water. The visit of the Health Officer shall be made during the day as early as possible and all persons on board shall be medically examined as prescribed in regulation 9.

(2) Any person suffering from yellow fever, if in the first four days of the disease, or if there is any doubt about the duration of the disease, shall be protected from the approach of mosquitoes by means of curtains, and shall be treated on board for at least four days. Any person suffering from fever shall similarly be isolated, be protected from the approach of mosquitoes by curtains and treated on board for at least four days. All passengers in perfect health (with normal temparature, etc.) may be landed, and shall be kept under close observation for a period of at least eight days extensible at the discretion of the Health Officer to a maximum of twelve days, special precautions being taken throughout the whole of this period to prevent mosquitoes having access to them.

(3) In no case should any person sick of yellow fever be landed during the first four days of his illness without the special sanction of Government. If such sanction is given, the most minute precautions to prevent mosquitoes reaching the patient shall be taken, including a mosquito-proof cabin on the launch, mosquito-proof ambulances and a mosquito-proof ward in an isolation hospital.

(4) The crew of the vessel should be required to sleep in airy places preferably on deck, and should be protected by mosquito curtains.

(5) The ship shall be cleared of mosquitoes by the systematic fumigation*, under efficient supervision, of every cabin, store-room, alley-way and hold.

(6) All water in which mosquitoes could breed should be emptied into the sea and all drains flushed by means of a hose. The bilge should be pumped out or oiled. The drinking water tanks should be emptied to get rid of larvæ, fresh water being taken and the tanks completely filled so as to drown any adult mosquitoes which may be present in them.

(7) Provided if no case of yellow fever has occurred on board within two months immediately preceding the vessel's arrival, only such of the above measures in addition to those described in paragraphs (1) (5) and (6) shall be carried out as are considered by the Health Officer necessary in the circumstances of the case.

(8) No ship shall leave the anchorage for the purpose of taking up her berth until the measures described in paragraphs (5) and (6) have been carried out.

* Sulphurous acid is probably the best gas to use.

PART VI-D.—SLEEPING SICKNESS.

33. In the case of a vessel having on board a person suffering, or suspected to be suffering, from sleeping sickness, the person or persons shall not be permitted to land without the specific written permission of the Health Officer, *who* may, pending the receipt of written instructions from Government, permit the landing of such persons only if arrangements can be made for their strict isolation on shore. In the case of Aden, the Health Officer may prevent the embarkation of, or subject to the arrangements above referred to may disembark, any person proceeding to India who is suffering or suspected to be suffering from sleeping sickness.

34. *In the case of a vessel arriving from the East Coast of Africa within the limits of Port Sudan and Durban or from other localities declared to be infected, the procedure prescribed by regulation 2 shall be complied with and the crew or passengers, etc., shall be medically inspected in accordance with regulation 9.*

PART VI-E.—JIGGER.

35. In the case of a vessel having on board any person or persons suffering from jigger,—

(1) the Health Officer shall carefully examine every person on board and any person or persons found to be suffering shall be removed to hospital for treatment;

(2) the clothes of infected persons shall be disinfected, and the Health Officer may, in his discretion, order the disinfection of the clothes, bedding, etc., of all persons on board;

(3) any part of the vessel likely to harbour jigger fleas shall be thoroughly washed with a watery solution of kerosene oil emulsion or in a recognized solution of tar acid which is accepted by the Port Health Officer;

(4) the ballast of such vessel, if of earth or sand, shall not be landed without the permission, in writing, of the Health Officer, who, if he considers it necessary, may order that it shall be discharged into the $\frac{\text{sea}}{\text{river}}$ at such places as shall be appointed for the purpose by Government.

PART VII.—GENERAL.

Vessels.

36. The master of any vessel coming under these regulations shall comply with all directions which the Health Officer may consider necessary under the foregoing rules.

37. The master of any vessel who may object to submit to the foregoing regulations may put out to sea again, provided that objection has been taken before there has been any communication, except by signal or through the port authorities, between such vessel and the shore or with any other vessel in port. Goods may be landed from such vessels after precautions have been taken to isolate the ship, crew and passengers and on condition that such information as the Health Officer may require regarding the mortality among rats is duly supplied: Passengers may be disembarked at their own request on condition that they submit to all the measures prescribed by the local authorities.

38. In the event of any vessel putting back to sea the Health Officer shall intimate the fact by telegraph to the next port of call if in British India.

PERSONS.

39. All persons removed to hospital or kept under observation at any place shall obey and conform to the rules, regulations and orders for the time being in force at such hospital or place and shall be liable to pay all such charges as for the time being may, under the sanction of Government, be made against them.

40. When a suspected case of any infectious disease is removed from a vessel at any port, the Health Officer shall report the confirmation or otherwise of the diagnosis, by telegraph, to the Health Officer of the next port of

call it that port is in British India, Ceylon or the Straits Settlements. In other cases a note shall be made on the bill of health stating the nature of the suspected infectious disease and the precautions taken in connection therewith.

DEAD BODIES.

41. Disposal shall be as follows :—

(1) If death occurs on board a vessel before entering port limits, the body shall, unless there are special reasons to the contrary, be buried at sea in not less than nine fathoms of water, in such manner as shall secure its immediate sinking and remaining below the surface.

(2) If death occurs during the day on board a vessel within the port limits the ensign and house flag, if there is one, are immediately to be lowered half-mast and kept in such position from sunrise till sunset as long as the body remains on board. If death occurs between sunset and sunrise, one red light is to be hoisted at the peak, half-mast high.

(3) The master of the vessel shall cause the death of a person on board to be intimated forthwith to the police, either by letter or otherwise and shall forward to the Port Officer a written report as soon as possible after the occurrence, in which all the circumstances attending the death must be fully detailed.

(4) No dead body shall be removed from a vessel within port limits without the permission of the police, which shall not be given until the Health Officer has certified *either*—

(a) *that the death is not due to infectious disease, or*—

(b) *that in the case of injectious disease, the Port authorities have given permission for burial on shore.*

If the Port authorities in consultation with the Health Officer decide that burial on shore cannot be permitted, the body must be buried at sea in such manner as the Health Officer may direct.

DISINFECTION.

42. All disinfection prescribed by these regulations shall be carried out unless otherwise specifically provided for, in the manner prescribed in the Appendix thereto.

PART VIII.—VESSELS LEAVING PORTS IN THE PRESIDENCY OF BENGAL FOR PORTS BEYOND INDIA.

43. No vessel shall leave any port *which has been declared to be infected with any contagious or infectious disease* for any port beyond India until—

(1) all persons sailing by the vessel, whether as passengers or as members of the crew, have been medically examined by the Health Officer.

(2) in the case of plague—

(*a*) all persons sailing by the vessel, either as passengers or as members of the crew (except such onward bound passengers as have not remained one night on shore and such members of the crew *as have not* remained one night on shore *or* have not newly joined, who may be examined on board), have been medically examined by the Health Officer on shore by day as shortly as possible before embarkation ;

(*b*) all merchandise or articles of any sort which the Health Officer may consider to be infected with plague have been disinfected on shore previous to embarkation ;

(*c*) all clothing, bedding, and infected articles belonging to Asiatic and African members of the crew, not being officers, engineers or doctors, to deck and fourth-class passengers, and to third-class passengers not entitled to cabin accommodation, which the Health Officer may consider to be infected with plague, and, if the Health Officer thinks fit so to direct, all clothing, bedding and infected articles belonging to passengers of any class higher than the third and of any members of the crew, have been disinfected on shore by day as shortly as possible before being placed on board ;

(3) the Health Officer has given to the master of the vessel a bill of health stating that the medical examination and disinfection prescribed by this regulation have been carried out.

(4) In the case of any disease other than plague the Health Officer may, in his discretion, enforce the provisions of clauses 2 (*b*) and 2 (*c*) above.

Provided that, if the vessel is only making a call at the port in question, the medical examination and disinfection prescribed by this regulation shall be made only in the case of persons joining the vessel there and articles belonging to them, unless there is communication between the vessel and the shore. The Health Officer shall decide, for the purpose of this proviso, what constitutes communication between the vessel and the shore. The bill of health in such case need only take the form of an endorsement on the last bill of health held by the vessel and need only refer to the passengers and crew embarking at the port in question.

44. It shall be open to the consular representative interested in any vessel to be present, if he so desires, at the medical examination and disinfection prescribed by regulation 43.

45. If any vessel does not leave port *within 24 hours after* the medical examination made under regulation 43, she shall not leave until—

(*a*) a fresh medical examination of the passengers and crew has been made under that regulation, and

(*b*) a fresh bill of health has been given to the master under that regulation :

Provided that such fresh examination may be conducted on board the vessel, whether or not there has been communication with the shore since the previous examination was made, and provided that if the time of departure be after sunrise on the day after that of inspection, the master of the vessel shall send the bill of health to the Health Officer to have the date of departure amended.

46. If, after a bill of health has been given to the master of any vessel and before the vessel leaves the port, any cargo of goods of any kind be placed on or taken off the vessel *except in such manner as may be directed by the Health Officer*, the vessel shall not leave the port until—

(*a*) such further medical examination and disinfection as the Health Officer may consider necessary have been made under regulation 43, and

(*b*) a fresh bill of health has been given to the master under that regulation.

Provided that such further examination and disinfection may be conducted on board the vessel.

47. (1) After a bill of health has been given to the master of any vessel no person except the pilot *or person authorised by the Health Officer* shall be permitted to embark on the vessel unless he has been medically examined by the Health Officer as prescribed in regulation 43.

(2) If any such person is permitted to embark, the Health Officer shall amend the bill of health accordingly.

48. Port-clearance shall not be granted for any vessel, unless and until the master produces the bill of health prescribed by the foregoing regulations :

Provided that, at any port where, in the opinion of Government, local conditions render this relaxation advisable, the authority responsible for

granting port-clearance may grant port-clearance for any vessel on receiving from the agents of the vessel a written guarantee that a duplicate of such bill of health, signed by the Health Officer, will be furnished by them to him within forty-eight hours.

49. (1) If the Health Officer considers that any passenger is suffering from, or is in the incubation stage of, any infectious or contagious disease he shall prevent such passenger and his or her relatives and attendants from embarking or sailing; and their baggage and personal effects shall not be allowed on board the vessel and if already placed on board, shall be removed as early as possible.

(2) For the purposes of this regulation, the term "relatives" shall mean such persons as have been living with, or have been, in the opinion of the Health Officer, in dangerous communication with the suspected passengers.

50. (1) If the Health Officer considers that any member of the crew of the vessel is suffering from, or is suspected to be in the incubation stage of, any infectious or contagious disease—

(*a*) he shall prevent such member from re-embarking on such vessel and shall refuse to give a bill of health until the baggage and personal effects of such member have been removed from the vessel and such parts of the vessel as have been occupied or frequented by such member have been disinfected; and

(*b*) the baggage and personal effects of such persons as were in immediate contact with such member of the crew shall be disinfected, and the names of such persons shall be given to the medical officer or master of the vessel for supervision on the voyage.

(2) All action taken under clause (1) of this regulation for the disinfection of a vessel shall be noted in the bill of health.

51. Any person who is prevented by the Health Officer under the foregoing regulations from embarking or sailing may be removed to and kept at a hospital or kept under observation; or, if any such person gives a genuine address, he may, at the discretion of the Health Officer, be subjected to surveillance for a period not exceeding five days.

52. At all ports declared to be infected with plague, proper measures shall be taken to prevent rats obtaining access to vessels (Appendix B).

53. Regulations 43 to 52 shall apply to all pilgrim or emigrant ships and may, by order of Government, be applied to vessels leaving a port in India or Burma for another in India or Burma.

(*See Regulation 42.*)

APPENDIX A.

INSTRUCTIONS FOR DISINFECTION.

Personal effects, such as rags, bandages, papers and other articles without value, which, in the opinion of the Health Officer, are deemed likely to carry infection, should be destroyed by fire.

2. Under-clothing, bedding, wearing apparel, mattresses, carpets, etc., which are contaminated or *suspected*, and other articles to be disinfected, should be exposed for 15 minutes to saturated steam—under pressure if possible—at a temperature of not less than 100°C (212° F.), care being taken that the steam shall reach all parts of each article to be disinfected.

3. *Disinfecting Solutions*—

(*a*) Solution of corrosive sublimate of one part in 1,000 with the addition of 2 parts in 1,000 of hydrochloric acid or 160 grains of chloride of soda in one gallon. The solution should be coloured with aniline dye or indigo. It should not be placed in metal vessels.

(*b*) A 5-per-cent. solution of pure crystallized carbolic acid, or 5 per cent. of crude commercial carbolic acid free from tar oils in a warm solution of soft soap.

(*c*) Freshly-prepared lime-wash*.

(*d*) Such proprietary tar acid compound as the Port Health Officer may approve of.

4. *Special instructions to be observed in the employment of disinfecting solution.*—The linen, clothing and articles soiled by the excreta of patients should be soaked in the solution of corrosive sublimate. The solution of pure carbolic acid and the solution of soap and carbolic acid are equally suited to the purpose. The articles should remain in the solution for at least six hours.

Articles which cannot be subjected to the temperature of 212° F. without injury, as leather goods, wooden articles stuck together with glue, felt velvet, silk, etc., should be washed with a disinfecting solution; coins can be disinfected with the solution of soap and carbolic acid. Persons engaged in nursing the sick should wash their hands and faces with one of the carbolic solutions. The carbolic solutions will be useful more particularly for disinfecting articles such as metal, or instruments, which can neither be subjected to a temperature of 212° F. nor placed in contact with corrosive sublimate. Chlorinated lime is particularly recommended for disinfecting excreta. Expectorated matter should be burnt.

5. *Disinfection of ships on which plague has occurred among human beings or rats.*—All rats on board shall be destroyed by means of sulphurous anhydride or other suitable disinfectant. The cabins, etc., occupied by the sick or those suspected to be suffering from plague shall, at the discretion of the Health Officer, be treated with a solution of corrosive sublimate and thoroughly cleansed with soap and water. In the case of pneumonic plague preliminary disinfection with corrosive sublimate solution shall be invariably carried out.

6. *Disinfection of the hold of an infected ship.*—The bilge-water shall be pumped out, and the hold washed with sea-water, a sufficient quantity of a solution of corrosive sublimate being subsequently thrown in at the discretion of the Health Officer. The bilge-water shall not be pumped out when the vessel is in harbour without the written consent of the Health Officer.

---

* The lime-wash should contain 20 per cent. of lime, and may be prepared as follows:—Take 2 pounds of good quick-lime and slake it by moistening it gradually with about half a pint of water. When the operation is completed, the resulting powder must be kept in an airtight vessel in a dry place.

For use the quantity of slaked lime obtained from 2 pounds of quick-lime should be placed in a convenient vessel and water added to make one gallon.

APPENDIX B.

MEASURES TO BE ADOPTED TO PREVENT RATS OBTAINING ACCESS TO VESSELS.

1. There shall be a space of at least three feet between any part of the vessel and the wall of the dock or wharf.

2. All ropes and hawsers connecting the vessel with the dock or wharf shall be furnished with a circular concave-convex rat-guard at least four feet in diameter fitting tightly, with the concavity towards the wharf, on the rope or hawser, and so fixed that no part of the margin of the guard shall be less than 24 inches from the rope or hawser, or any other pattern of rat-guard that may be approved by Government.

3. To prevent rats reaching the ship by means of a gangway, as few gangways shall be used as possible; all gangways shall be raised at night; and a watchman shall be placed on each gangway during the day from the time the gangway is lowered until it is raised.

4. A responsible person shall be deputed by the local Government to ensure these measures being applied immediately the vessel is berthed.

NOTIFICATION.

No. 3466.

Calcutta, the 2nd November 1914.

IN exercise of the powers conferred by clause (*b*) of section 37C and section 106 of the Cess Act, 1880 (Bengal Act IX of 1880), the Board of Revenue is pleased to prescribe the following rules :—

Rules for the Guidance of Attestation Officers employed in Cess Revaluation of Midnapore.

1. Tenants who have under them under-tenants shall for the purpose of the Cess Act, 1880, be treated as tenure-holders and the under-tenants as raiyats.

2. Tenancies held on a produce rent shall be valued as follows :—

(*a*) If the rent is a *sanja* rent (*i.e.*, when a definite amount of produce is payable annually), this amount valued at the average value of the produce for the last three years next preceding the revaluation shall be the annual value.

(*b*) If the rent is a *bhag* rent (*i.e.*, when a definite proportion of the produce is payable annually), the Settlement Officer shall ascertain the average quantity of grain annually produced from the land or from each class of land, and shall assess the annual value of the definite proportion of the quantity so ascertained at the average value of the produce for the last three years next preceding the revaluation.

3. Rent-free lands, whether liable to rent or not, shall be valued as follows :—

(*a*) If no part is sublet, the annual value of the land shall be determined by the average letting value of the land, or of similar lands, in the village.

(*b*) If any portion is sublet to a tenant or tenants, the tenancy shall be treated as a tenure in the manner indicated in rule 1 and shall be valued accordingly.

(*c*) Rent-free lands not liable to rent of an annual value of less than Rs. 5 shall not be liable to cess.

4. The culturable land in the cultivating possession of a proprietor (*nij-jote* or *nij-chas*) or a tenure-holder (*nij-chas*) shall be valued as follows :—

The annual value of such land shall be the rent which might reasonably be expected to be paid if the land were let out to tenants. If, therefore, the tenure-holder, when he sublets the land in his own cultivation, usually lets it out on a produce rent, the land should be valued as if it is let out on a produce rent in accordance with rule 2. If, however, he usually sublets such land on a cash rent, the average incidence of cash rent of the land, or of similar land in the village, shall be taken for determining the annual value. If he does not usually let the land out at all, it shall be valued on the system on which the majority of the lands in the village are held.

5. Service lands shall be valued in the manner prescribed by rule 4, as if they were lands in the direct cultivation of the proprietors or tenure-holders.

6. The unculturable land held by proprietors or tenure-holders shall be assessed as follows :—

(*a*) *Waste.*—Lands which are absolutely unculturable, or are incapable of yielding an outturn of any kind, are not liable to assessment, but where land may be made capable of yielding a rent under any circumstances it is liable to assessment, whether the owner chooses to utilise it or not. Such lands shall be valued in accordance with rule 4.

(*b*) *Roads.*—These shall not be assessed.

(*c*) *Homestead lands of non-agriculturists.*—The rent of the land on which a house or a shop stands is assessable. Such land shall ordinarily be valued at the rent payable, or if no rent is paid, at the rate at which similar homesteads are held in the vicinity.

(*d*) *Tanks, bands, ahars, etc.*—Such lands shall be valued according to the ground-rent payable.

(*e*) *Bazars, fairs and hâts.*—Rents received from a bazar, fair or *hât* in the shape of payments for the use and occupation of land by dealers or traders are assessable to cess and must be valued.

(*f*) *Valuable Jungle lands.*—(*i*) The Assistant Settlement Officer shall ordinarily ascertain the annual value of jungle from the rates at which the jungle or similar jungles in the vicinity are sold or might reasonably be expected to be sold having regard to the age of the tree when cut.

All miscellaneous demands such as *falkar*, *bankar*, etc. (except *tasarkar*), both from jungle and other lands shall be included for the determination of the annual value.

(*ii*) In the case of extensive jungle areas in an estate or tenure where sales of the trees in the jungle are annually made, the average annual receipts from such sales during the last three preceding years for the whole estate or tenure or any portion thereof situate in a thana, can be taken to be the annual value of the jungle in the said whole estate or tenure or portion thereof.

(*g*) *Scrubs* (*Jhari and Jhanti*) *jungle.*—Lands comprising such lands may either be valued separately from valuable jungles in the manner prescribed in clause (*f*), if necessary, or may be included therein.

Two copies of the said pass will be forwarded by the officer issuing it to the Subdivisional Officer of Naugaon: Provided that, under an import pass issued by the Deputy Commissioner of Sambalpur, *ganja* to the amount specified in such import pass may be purchased either direct from cultivators or through a broker by the Subdivisional Officer, Naugaon, and consigned by him direct to the said Deputy Commissioner. The bond may also provide for the payment of penalty duty at such rate as may be prescribed on any deficiency or excess in quantity on the arrival of the *ganja* at its destination. If a bond has been executed in favour of the Collector of the importing district the fact shall be noted on the import pass by the officer who issues the same. In the event of the bond being executed in Naugaon, the Subdivisional Officer shall despatch the same by post to the Collector of the importing district in order that he may take necessary action thereon.

or, in the case of a veterinary dispensary, of orders countersigned by the Superintendent of the Civil Veterinary Department.

Duration and number of licenses.

58. Licenses for the wholesale or retail vend of excisable articles may be granted for one year, from the 1st April to the 31st March, subject to the following provisions :—

(1) licenses for the retail vend of country spirit, *ganja*, *bhang* or *charas*, in the Calcutta district, may be granted for three years beginning on the 1st April ;

(2) licenses for the retail vend of *pachwai* may be granted for any number of years up to three beginning on the 1st April, in cases where the Excise Commissioner considers this advisable ;

(3) if any license be granted during the course of the financial year, it shall be granted only up to the 31st March next following ;

(4) season licenses for the sale of fresh *tari* may be granted for periods fixed by the Collector ;

(5) temporary licenses may be granted to provide for the supply of excisable articles on temporary and special occasions, *e.g.*, fairs, regimental camps of exercise, etc., and shall be limited to the period during which such temporary or special occasions last ;

(6) wholesale licenses for the supply and sale of excisable articles may be granted for any number of years not exceeding five, as the Local Government may decide in each case.

59. The number of licenses which may be granted for any local area shall be regulated by the needs of the people of that area, and no license for the sale of any excisable article in any local area shall be granted unless it is required either to meet and ascertain demand for such article or to counteract supply through illicit sources.

60. The general principles below stated shall be borne in mind, and shall be applied by Collectors so far as possible in fixing the number of licenses to be granted for the retail sale of liquor and *ganja* :—

Liquor and *ganja* shops should not be so sparsely distributed as to give to each a practical monopoly over a considerable area, or at least such a monopoly should only be allowed when prices can be effectively fixed. At the same time, two or more shops should not be equally convenient to a considerable number of persons. In other words, liquor and *ganja* shops need not be so limited in number as to make it practically impossible for a resident in a particular area to get his liquor or *ganja* except from one particular shop ; but it should only be possible for him to obtain his requirements from two different shops at the cost of considerable inconvenience, and he ought to have as little freedom of choice in the matter as possible.

Location of shops.

61. (*1*) No new shop shall be licensed, for the consumption of liquor on the vendor's premises,—

(*a*) in a market-place, or

(*b*) at the entrance to a market-place, or

(*c*) in close proximity to a bathing ghât, school, hospital, place of worship, factory, or other place of public resort, or

(*d*) in the congested portion of a village.

(*2*) So far as practicable, an established liquor shop licensed for the consumption of liquor on the premises should not be allowed to remain on a site which would not, under clause (*1*) of this rule, be permissible for the location of a new shop.

(*3*) In areas inhabited by aborginal tribes or tea garden coolies, country spirit shops shall not be licensed to be placed immediately on the side of a main road or in any other prominent position that may place temptation in the way of such persons.

62. In granting licenses for new shops, and, as far as practicable, in granting licenses for established liquor shops, the Collector shall have regard to the following principles:—

(*a*) a liquor shop should not be inaccessible to consumers, but it should not be in such a situation as to obtrude itself on the attention of the public or to render persons passing by subject to annoyance from persons drinking;

(*b*) in towns, the position of a liquor shop should be so far public that persons entering it should not escape observation, and it should be such as to render supervision easy, but it should not be so prominent as to compel attention, *e.g.*, by occupying a whole side of a public square;

(*c*) a liquor shop should never occupy a position to which the near neighbours object on grounds which, upon enquiry, appear to be sufficient and free from malice or ulterior motives.

63. Licenses for the retail sale of liquor at any place within two miles of the border of another district shall not be granted unless the Collectors of both districts concur, or, if they fail to concur, unless the Excise Commissioner so directs.

64. Except with the previous sanction of the Local Government no new shop shall be licensed for the retail sale of any excisable article within three miles of the State of Nepal or Bhutan or of the Native States of Hill Tippera or Cooch Behar, nor shall the site of any existing shop within such limits be changed by more than 440 yards from the site approved by the Local Government.

65. Licenses for the sale of foreign liquor for consumption on the vendors' premises shall only be granted in places where there is a proved demand on the part of a class of drinkers accustomed to foreign liquor, *e.g.*, in large industrial centres, or in towns where there is a population specially accustomed to drinking such liquor.

66. Licenses shall not be granted for the sale of foreign liquor and country spirit on the same premises.

Prohibition of grant of retail licenses to certain persons.

67. Licenses for the retail sale of any excisable article shall not ordinarily be granted—

(*a*) to any persons who have been convicted by a Criminal Court of a non-bailable offence, or

(*b*) to former licensees who are in arrears to Government, or whose conduct has been found to be unsatisfactory, or who have been found guilty of any serious breach of conditions of their licenses.

68. No license shall be granted to any person who is interested either directly or indirectly in the manufacture or sale of any excisable article in any foreign territory or Native State within or bordering upon Bengal.

69. No license shall be granted to an outstill licensee for the retail sale of foreign liquor or distillery spirit or *tari* in a shop within twenty miles of his outstill.

70. No license shall be granted to a distillery shop licensee for the retail sale of foreign liquor or *tari* in a shop within twenty miles of his distillery shop.

71. No license for the retail sale of country spirit shall be granted to any person who has been granted the exclusive privilege of manufacturing or supplying to retail vendors or of manufacturing and supplying country spirit to retail vendors thereof within a specified area, or to any person who

has a joint interest either directly or indirectly with the grantee of an exclusive privilege as aforesaid, in such grant.

Prohibition of sale to certain persons.

72. (*1*) No excisable article shall be sold—

(*a*) to any Railway servant at the time on duty, to any Excise or Police officer below the rank of Sub-Inspector being in uniform, any European vagrant under Police escort, or any insane person, by any licensed vendor or by the agent or servant of any licensed vendor, or

(*b*) to any soldier, whether in uniform or not, or any member of a soldier's family, or any camp-follower, by any licensed vendor or the agent or servant of any licensed vendor, unless such licensed vendor has been approved by the General Officer Commanding the Division or the Officer Commanding a Cantonment or Camp.

Provided that at Railway and Steamer Refreshment rooms and dâk bungalows—

(*i*) troops and camp followers marching under the command of an officer may be supplied with the consent of such an officer; and

(*ii*) soldiers and their families travelling in small parties not under the command of an officer may be supplied with a reasonable quantity if the men are in uniform and sober.

(*2*) In this rule,—

(*i*) "soldier" does not include a commissioned officer, a volunteer, or a soldier in civil employ, and

(*ii*) "camp-follower" means a person (other than a soldier or a private servant) whom the person selling an excisable article knows or has reason to believe to have a right to be in cantonments; and

(*iii*) the expressions "soldier," "member of a soldier's family," and "camp-follower" do not include an Indian soldier, or a member of an Indian soldier's family, or an Indian camp-follower, when such soldier or camp-follower is absent from his regiment.

ASCERTAINMENT OF LOCAL OPINION PRIOR TO THE GRANT OF CERTAIN LICENSES FOR THE RETAIL SALE OF LIQUOR AND INTOXICATING DRUGS.

73. (*1*) By the 20th October the Collector shall prepare a list showing what licenses it is proposed to grant for the retail sale of spirit, for consumption on the vendors' premises, for the next period of settlement.

(*2*) The said list shall specify, as accurately as may be possible, the locality of the premises to be licensed, and shall distinguish proposed new licenses from existing licenses which it is proposed to renew.

(*3*) No new license shall be entered in the list and no change of site of an existing shop shall be proposed until the necessity therefor has been established by a local enquiry held by the Collector himself or by a gazetted officer.

(*c*) send to the Commanding Officer of each cantonment an extract reproducing so much of the said list as relates to shops within the limits of the cantonment or within a distance of two miles from those limits, and

(*d*) give such opportunity as he thinks to be required for the expression of opinion—

(*i*) by Railway authorities, on proposals for the grant of licenses for shops near railway stations;

(*ii*) by Forest Officers, on proposals for the grant of licenses for shops for supplying spirit to aboriginal tribes inhabiting forests; and

(*iii*) by large employers of labour in tea gardens, mills, factories and coal mines, on proposals for the grant of licenses for shops for supplying spirit to their labourers.

75. The Chairman of each Municipality and of each Local Board shall cause a copy of the extract sent to him under rule 74, clause (*b*), to be conspicuously affixed at the central office of the Municipality or Local Board for a period of not less than seven days expiring before the 14th November, and shall send to each member of each Ward Committee (if any), and in the case of Local Boards, to each elected member not later than the 5th November, a copy of so much of the extract as relates to shops situated in his ward, or in the area for which he has been elected as a representative.

76. All objections and opinions with respect to proposals contained in the list referred to in rule 73 must be sent so as to reach the Collector (or in the Calcutta district, the President of the Licensing Board concerned) by the 15th November;

The local committee for each Municipal town shall be constituted by the Commissioner of the Division with due regard to the adequate representation of the non-official community and of the Excise Department. In areas other than Municipal towns the Local Boards shall be local committees for the areas under their charge.

(*2*) The Collector shall record the opinion of each local committee upon the proposed number of licenses and location of shops in the area with which it is concerned and upon the objections which he has received by the said date; and if that opinion is not accepted by him, he shall record his reasons for disagreement. Provided that the Collector may delegate the duty of recording the opinion of any committee except the committee constituted for the Municipality at the district head-quarters and the Sadar Local Board to the Subdivisional Officer. In such cases the Subdivisional Officer shall forward to the Collector all objections and opinions together with the opinion of the local committee and his own opinion.

(*3*) On or before the 30th November the Collector shall submit the list referred to in rule 73 as revised by him under section 34, and the objections and opinions which he has received by the 15th November, together with a report of the proceedings of the local committees and his own opinion to the Commissioner of the Division.

OF IMPORTATION OF PETROLEUM.

Ports of importation.

1. The ports of Calcutta and Chittagong are hereby declared to be the only ports at which petroleum may be imported.

Declaration by master of ship carrying petroleum or by the ship's agent.

2. The master of every ship carrying petroleum shall deliver to the pilot before entering either of the ports mentioned in rule 1, a written declaration under his signature stating—

(*a*) what quantity of petroleum the ship is carrying;
(*b*) whether any and, if so, what part of it is dangerous petroleum;
(*c*) whether any and, if so, what part of it is certificated petroleum;
(*d*) whether any and, if so, what part of it is petroleum having a flashing-point above 150° of Fahrenheit's thermometer; and
(*e*) what quantity of petroleum [specifying whether any and, if so, what part of it belongs to each of the classes (*b*), (*c*) and (*d*)] it is intended to land at either of the ports specified in rule 1 or at any other port in British India:

Provided that if, in anticipation of a ship's arrival, the agent for such ship delivers to the Port Officer a written declaration as aforesaid under his signature, no such declaration shall be necessary by the master of the ship.

Delivery of certificate.

3. If the master or agent declares that any petroleum is certificated petroleum which it is intended to land at either of the ports specified in rule 1 or at any other port in British India, he shall deliver to the pilot, along with his declaration, the certificate relating to such petroleum.

Certificate and declaration to be forwarded to Assistant Harbour Master or Port Officer.

5. (*1*) When the master of, or the agent for, a ship has made the declaration required by rule 2, the Superintendent of the Petroleum Wharf, Budge-Budge, or the Collector of Customs, Chittagong, as the case may be, shall direct an officer

N.B.—The rules in Part III are inoperative in the Port of Chittagong in so far as they relate to the taking of samples and the testing of petroleum as there is no testing officer at present at that port. Telegraphic certificates by the Chemical Examiner, Rangoon, in respect of the flash point of petroleum imported are accepted.

to go on board the vessel and obtain samples of all the petroleum on board which it is intended to land at the port of Calcutta or Chittagong as the case may be. If the importer so desires he shall also take samples of all the petroleum on board which it is intended to land at any other port in British India:

Provided that no samples need be taken in the case of petroleum which is declared to be dangerous.

(2) The master shall deliver to the officer aforesaid, without charge, samples of every variety of petroleum comprised in the petroleum of which samples are to be taken under sub-rule (1). Such samples shall, if such officer so require, be taken from the particular receptacles indicated by him and under his personal superintendence, and shall not exceed forty fluid ounces:

Provided that when the petroleum is in cases, samples may be taken as delivery proceeds.

Selection of samples.

6. The minimum number of samples to be selected of each brand or quality contained in the cargo shall be as follows:—

(*a*) of certificated petroleum in cases—

one sample for every fifteen thousand cases or fraction of fifteen thousand cases;

(*b*) of certificated petroleum in casks or drums declared to be of uniform quality—

one sample for every one hundred and twenty thousand gallons or part of one hundred and twenty thousand gallons;

(*c*) of certificated petroleum in bulk or in tanks—

one sample from each group of tanks or tank compartments certified to be of the same brand or quality;

(*d*) of petroleum other than certificated, in cases—

one sample for every ten thousand cases or fraction of ten thousand cases;

(*e*) of petroleum other than certificated, in casks or drums declared to be of uniform quality—

one sample for every eighty thousand gallons or part of eighty thousand gallons;

(*f*) of petroleum other than certificated in bulk or in tanks—

one sample from each tank or tank compartment.

Sealing of samples and forwarding the same to testing officer.

7. When the samples required have been delivered to the officer aforesaid, such officer shall forthwith seal the bottles containing the samples, and shall label them with the name of the ship, the name of the consignee, and such other distinguishing marks as may be necessary. He shall then forward them to the testing officer.

Methods of test.

8. The testing officer shall test the samples thus received in the manner laid down in the first Schedule to the Act.

Averaging results of tests.

9. If more than one sample of any one brand or quality forming the cargo or a portion of the cargo of a ship is sent to the testing officer for report, that officer shall test each sample separately and strike an average of the results. If the average flashing point is not lower than 73° of Fahrenheit's thermometer, and no one test gives a flashing point below 70° of that thermometer, he shall report the whole of the petroleum represented by the samples to the Port Commissioners, Calcutta, or the Collector of Customs, Chittagong, as the case may be, as non-dangerous.

Procedure when tests show want of uniformity.

10. If the testing officer, after testing samples, considers further tests necessary to satisfy him that none of the petroleum is dangerous, he shall report to the Port Commissioners, Calcutta, or the Collector of Customs, Chittagong, as the case may be, accordingly.

Procedure on report.

11. On receipt of a report under rule 10—

(*a*) when the consignment is imported in cases, the Port Commissioners, Calcutta, or the Collector of Customs, Chittagong, as the case may be, shall cause the petroleum in question to be landed, or to be discharged into boats, and the officer referred to in rule 5 shall select and deliver to the testing officer one sample from every thousand cases;

(*b*) when the consignment is imported in bulk, the Port Commissioners, Calcutta or the Collector of Customs, Chittagong, as the case may be, shall forward a second sample and, until receipt of the testing officer's further report, may prevent the landing of any portion of the contents of the tank in question, or may permit it to be landed as provided in rule 18;

(*c*) if the petroleum has been already landed and stored under rule 18 samples shall be selected as aforesaid.

Report of testing officer.

12. The testing officer shall, as soon as practicable, and ordinarily within twenty-four hours after receipt of any samples, sign a report certifying that they are, or are not, dangerous petroleum, as the case may be, and shall forward such report to the office of the Port Commissioners, Calcutta, or the Collector of Customs, Chittagong, as the case may be, where it shall be deposited.

Fee for testing.

13. The fee for testing each sample shall be five rupees:

Provided that the total amount of the fees chargeable under this rule shall not, in the case of any one ship, exceed Rs. 50.

When a ship carrying petroleum may anchor at ordinary anchorage.

14. A ship may proceed to the usual anchorage in either of the ports specified in rule 1 and there discharge any certificated petroleum not exceeding five thousand gallons in quantity:

Provided that the officer whose duty it is, under rule 5, to select samples of petroleum on board, may at any time take a sample of any such petroleum for the purpose of having it tested.

Exception in respect of petroleum declared dangerous which is not in excess of forty gallons.

15. If the quantity of petroleum declared dangerous on board a ship does not exceed forty gallons and there is no other petroleum on board, or the aggregate quantity of petroleum on board, including petroleum declared dangerous, does not exceed forty gallons, the said petroleum may be forthwith landed.

When a ship carrying petroleum must anchor at a special anchorage.

16. Save as provided in rules 14 and 24, every ship having petroleum on board shall be anchored at such anchorage as the Conservator of the port shall appoint in this behalf. If the petroleum is intended to be discharged at either of the ports specified in rule 1, the vessel shall not leave such anchorage, except for the purpose of discharge of bulk oil petroleum as laid down in rule 19, until all the petroleum has been so discharged. If the petroleum or a portion of it is intended for some other port, the petroleum or such portion of it shall be temporarily discharged at such anchorage before the vessel proceeds into the harbour. If it is not so discharged, the vessel shall remain at such anchorage until her final departure.

Such anchorage shall in no case be the same as that for vessels laden with explosives, and shall be sufficiently far removed from the anchorage for vessels laden with explosives to prevent the possibility of a fire originating at the former place affecting vessels anchored at the latter.

Petroleum referred to in rule 16 not to be landed until it has been tested.

17. Save as provided in rule 18, no petroleum, of which samples have been taken under rule 5, shall be landed from any ship referred to in rule 16 until the testing officer's report in respect thereof has been received in the office of the Port Commissioners, Calcutta, or the Collector of Customs, Chittagong, as the case may be.

Landing of petroleum in anticipation of the testing officer's report.

18. (*1*) The Port Commissioners, Calcutta, or the Collector of Customs, Chittagong, as the case may be, may, in anticipation of the testing officer's report, allow the consignee of any petroleum to discharge the same into boats or to land it.

(2) Such permission shall be subject to the condition that the boats into which the petroleum is discharged shall remain at such place as may be directed by the Port Commissioners, Calcutta, or the Collector of Customs, Chittagong, as the case may be, or that the petroleum shall be landed at a landing-place duly appointed for this purpose, and be stored in an installation licensed under rule 13 or 14 of Chapter IV, Part II.

Landing of petroleum in bulk.

19. When petroleum is imported in bulk, its removal from the ship shall be effected by means of a hose and a metal pipe, and it shall be pumped into storage-tanks. The discharge shall be continuous, day and night, until completed, weather and appliances permitting. When working at night electric light only shall be used; and, when the ship has finished discharging, the pipe to the storage-tanks shall immediately be emptied by means of a supplementary pump on shore. If for any cause the discharge of petroleum is at any time suspended, arrangements must be made by means of a valve for effectually preventing any of the oil left in the pipe from escaping.

Landing of petroleum otherwise than in bulk.

20. When petroleum imported otherwise than in bulk is landed within the port—

(1) it shall be landed either at jetties provided for the purpose, or in cargo-boats, and, except where electric light is exclusively used, only after sunrise and before sunset, and only at such place or places as the Conservator of the port shall direct;

(2) dangerous and non-dangerous petroleum shall not be conveyed to the shore at the same time on the same cargo-boat;

(3) no smoking, fire or light of any description (other than lights required by the port rules), shall be allowed in any cargo-boat during the time that the petroleum is on board the boat.

Transhipment of petroleum.

21. Petroleum may be transhipped from one ship to another for conveyance to any other port, whether within or beyond the limits of British India:

Provided that—

(*a*) the petroleum shall not be transhipped between sunset and sunrise except when electric light is exclusively used,

(*b*) dangerous and non-dangerous petroleum shall not be conveyed at the same time on any boat which is used for transhipping the petroleum, and

(*c*) no smoking, fire or light of any description (other than lights required by the port rules), shall be allowed on any boat which is being used for transhipping the petroleum from the one ship to the other.

Import-licenses how obtainable.

22. (*1*) Applications for import-licenses under section 5 of the Act shall be submitted to the officer appointed by the Government of Bengal in this behalf, who will, after enquiry, forward the same with his opinion to the Government of Bengal.

(*2*) If the application is granted, a license in Form M, signed by a Secretary to the Government, shall be forwarded to the applicant through the officer to whom his application was submitted. The license may be granted for a period of twelve months.

Petroleum comprised in ship's stores.

23. Nothing in the foregoing rules in this Part applies to petroleum, other than dangerous petroleum, comprised in a ship's stores and manifested as such provided it is not of unreasonably large amount. If any question arises as to whether any petroleum manifested as ship's stores of an unreasonably large amount, the decision thereon of the Collector of Customs shall be final.

Petroleum having a flashing point above 150° F.

24. Nothing in the foregoing rules in this Part applies to petroleum which has a flashing point above 150° of Fahrenheit's thermometer. If the master of, or agent for, a ship certifies in writing that any petroleum on board is of this description, the Port Commissioners Calcutta, or the Collector of Customs,

Chittagong, as the case may be shall allow it to be discharged in the same manner as ordinary cargo; but the Superintendent of the Petroleum Wharf at Budge-Budge or in Chittagong, the Superintendent of Police or the District Magistrate, as the case may be, may at any time require a sample of any portion of it to be delivered to him, with a view to having it tested.

The Collector and the Commissioner, in whose jurisdiction operations under these rules are in progress, shall be entitled to inform themselves of the nature and progress of such operations.

CHAPTER II.—STAPLE FOOD-CROPS AND PRICE-LISTS.

Price-lists by whom to be prepared.

7. (*1*) Price-lists shall ordinarily be prepared by a gazetted officer not below the rank of a Sub-Deputy Collector. But in special cases, where a Sub-Deputy Collector is not available, the Collector may authorise a kanungo to prepare the lists.

(*2*) Where prices are recorded at marts other than those at the head-quarters of districts, the Collector may, with the sanction of the Commissioner, authorise a Sub-Registrar to prepare the list, on days when no gazetted officer or kanungo is available.

(*3*) One or two respectable inhabitants of the locality shall always be asked to assist in the preparation of price-lists, and the list shall be signed by at least one of them, as well as by the officer preparing it.

Verification by local inquiry.

13. As far as practicable, the application shall be in Form I appended to these rules. The Collector shall either verify the application personally or shall depute a Revenue-officer, not below the rank of Sub-Deputy Collector, to make the verification. In all cases the verification shall be by local inquiry.

He shall cause such proclamation to be published by beat of drum in every such village and he shall cause a copy of the proclamation, together with a copy of the landlord's application, to be fixed up, in the presence of not less than two persons, in some conspicuous place of every such village. The expense of such publication shall be borne by the applicant for registration.

Record of local inquiry.

15. The Revenue-officer who makes a local inquiry under rule 13 shall ascertain whether the work in question was carried out and, if so, at what time, at whose expense, and at what cost; whether the work is an improvement as defined in section 76, sub-section (*2*), of the Act, and was lawfully made by the landlord, and, if the improvement comes under clause (*e*) of that sub-section, whether enhanced rent is already being paid for the original improvement; and what tenants have been benefited thereby and to what extent. The Revenue-officer shall embody in a proceeding the result of his local inquiry. When an officer other than the Collector has made the local inquiry, he shall submit the proceeding to the Collector.

Orders by Collector on local inquiry

16. The Collector, after considering the proceeding of the local inquiry and after holding such further inquiry as he thinks necessary, shall pass an order directing or refusing the registration of the landlord's improvement; and if he directs registration, he shall record clearly whether it falls under clause (*e*) of section 76 (*2*) of the Act, and, if so, what enhancement of rent, if any, is being paid for the original improvement.

Powers of officer recording evidence as to improvement.

17. *Section 81 (1).*—Every Revenue-officer who records evidence under section 81 (*1*) of the Act shall exercise all the powers which are exercised by a Civil Court in the trial of suits, and shall be guided by the provisions of rules 5 and 8 of Order XVIII of the Code of Civil Procedure (Act V of 1908).

(*d*) the names of the tenants (if any) in occupation of each such plot; and
(*e*) the grounds of the application.

Inquiry on receipt of application.

20. On receipt of the application, the Collector shall make such inquiry as he may think fit by examining the applicant or his agent, and may call for further particulars before ordering further proceedings. If the Collector directs that further proceedings be taken, he may transfer the application for inquiry and report to any Revenue-officer subordinate to him.

Measurement of lands, where necessary, and deposit of cost thereof.

21. If the area of the lands has not been already ascertained by measurement made by competent agency under the authority of Government, or if for sufficient reason a further measurement is considered desirable, the Collector shall order that the lands be measured and shall estimate the cost of measurement, and shall require the applicant to deposit the amount either at once or in such instalments as he may deem fit.

Record of proceeding.

22. If the Collector determines that the land or any portion thereof is proprietor's private land within the meaning of section 120 of the Act, he shall record a proceeding to that effect and shall attach thereto a map of the land as ascertained by measurement.

Rules 41 to 48 to apply to officers acting under Chapter XI of the Act.

(b) the particulars specified in section 102 of the Act, in respect of which the application is made; and

Procedure for making survey and preparing record-of-rights.

50. (1) When an order has been made under section 101 (1) or section 101(2) of the Act directing that a survey shall be made and a record-of-rights prepared by a Revenue-officer in respect of the lands of any local area, estate or tenure or part thereof, the survey shall be made and the record-of-rights prepared in the manner described in the following rules (in this Part and in Part III of this Chapter) and by the following processes, namely :—

(i) Traverse survey.

(ii) Cadastral survey.

(iii) Erection of boundary marks.

(iv) Preliminary record-writing (or *khanapuri*).

(v) Local explanation (or *Bujharat*).

(x) Preparation of the final record.

(xi) Publication of the final record.

(xii) Distribution of the final record and of printed maps; and recovery of costs where ordered under section 114.

(xiii) Settlement of fair rents under sections 105 and 105A.

(xiv) Trial of suits under section 106:

Provided that stage (v),—local explanation,—may be omitted with the approval of the Director of Land Records.

(2) A Revenue-officer who has been appointed with the additional designation of "Settlement Officer" may, at any time before the publication of the final record, direct that any portion of the proceedings in respect of

thelands of any local area, estate or tenure or part thereof, shall be cancelled and that the proceedings shall be carried out *de novo* from such stage as he may direct.

(3) When an order has been made under section 103 directing that all or any of the particulars specified in section 102 shall be ascertained and recorded with respect to any estate or tenure or part thereof, the Revenue-officer shall proceed in accordance with the following rules (in this Part and in Part III of this Chapter), so far as they may be applicable.

51. *Traverse Survey.*—The cadastral survey of the notified area shall be based upon a traverse survey, and such traverse shall ordinarily be carried out by theodolite observations. If possible, the traverse survey shall be connected with one or more points which have been fixed by previous surveys.

52. *Cadastral Survey.*—(1) In the course of proceedings under section 101 of the Act, a large-scale map showing roads, rivers, railways and other physical features of the country, as well as homesteads and other fields, shall be prepared for each village contemplated by section 115A of the Act as the unit of survey and record.

(2) When the area contained within the external boundaries of the village maps of the previous survey contemplated by section 115A is unsuitable as the unit of survey and record, or, if there has been no such previous survey, the Settlement Officer shall, after ascertaining, as far as possible, the opinions of the landlords and tenants concerned, submit his proposals for the determination of the area to be adopted as the unit of record and survey to the Board of Revenue through the controlling officers to whom he is subordinate. That unit shall, if sanctioned by the Board of Revenue, be adopted in framing the record-of-rights, but shall not be deemed to constitute a village within the meaning of the Act until a notification has been issued under section 3 (10) (*b*). The Board of Revenue shall submit a copy of its order in each case to the Local Government for the issue of the notification.

53. *Erection of Boundary Marks.*—Boundary marks of a permanent nature shall ordinarily be erected at every point where the boundaries of three villages meet, and may also be erected at any other points where this is necessary, in the opinion of the Revenue-officer, for the definition of any boundary.

54. *Preliminary Record-writing.*—At this and the two following stages the draft record shall be prepared. The draft record shall consist of statements of rights which are hereinafter styled the *khatians*. There shall ordinarily be a separate *khatian* for each person interested, or each group of persons jointly interested, in the land, whether as proprietor, tenure-holder, raiyat, under-raiyat or occupant, and each *khatian* shall show the rights and liabilities of each person or group of persons according to the particulars which have been specified in the notification under section 101. At this stage all such particulars shall find entry, with the exception that no entry shall be made as to the revenue, rent or cess, the class to which the tenant belongs, or the special conditions and incidents of the tenancy. At this stage there shall also be prepared a field-index or *khasra* arranged according to the serial numbers of the fields in the village. This field-index shall not form part of the draft record. Disputes regarding the ownership of land, or the ownership of any interest in land, shall be decided by a Revenue-officer or a kanungo in a summary manner and on the basis of actual possession.

55. *Local Explanation.*—When the areas of the fields have been extracted and entered in the preliminary record, a copy of each *khatian* shall be made over by a Revenue-officer or a kanungo to the person or body of joint persons in whose names the *khatian* has been opened, or to their representatives. Each *khatian* shall then be examined on the ground, with reference to the village map, by a Revenue-officer or a kanungo, and shall be explained to the person or persons concerned, or their representatives, if present. The Revenue-officer or kanungo shall make such corrections as are necessary in the map, in the draft record, and in the copies of the *khatians* which have been distributed, if they can be produced for this purpose. At this stage entries of the rent which is payable according to the statement of the landlord and according to the statement of the tenant shall be made in the draft *khatians* of the tenants and in such copies as are produced; but the other particulars which were omitted at the stage of preliminary record-writing shall be deferred until the stage of attestation.

56. *Attestation.*—This stage of the operations shall be taken up after the landlords and tenants have been allowed a sufficient interval to study their copies of the *khatians*. The attestation of each village shall be taken up at a convenient place in or near the village. Before attestation begins, a proclamation shall be published in the village giving due notice to the landlords and tenants and calling on them to appear before the Revenue-officer on the date fixed, bringing with them their copies of the *khatians*. As each person appears before him the Revenue-officer shall examine his *khatian*, read out all the important entries, make corrections where required, and see that the *khatian* is complete in all particulars. Disputes regarding the ownership of land, or the ownership of any interest in land, shall be decided by the Revenue-officer in a summary manner and on the basis of actual possession. In the *khatian* of each proprietor or group of proprietors he shall enter with his own hand the revenue payable to Government. In the *khatian* of each tenant or group of tenants he shall enter with his own hand the class to which the tenant or group of tenants belongs, the special conditions and incidents (if any) of the tenancy and the rent lawfully payable or deliverable to each landlord or group of landlords. In the *khatian* of each cultivating raiyat as defined in the Cess Act, the Revenue-officer shall, and in the *khatian* of each tenure-holder as defined therein, the Revenue-officer shall, as far as possible, record the cess lawfully payable to each landlord or group of landlords. The Revenue-officer shall then sign and date the office copy of the *khatian*, and if the copy of the *khatian*, which was given to the person or persons concerned, is produced, the Revenue-officer shall see that it corresponds with the office copy as attested. When the Revenue-officer has completed the attestation of all the *khatians* of a village, he shall draw up a formal proceeding to this effect.

Ben Act IX of 1880.

57. *Publication of the Draft Record.*—The Revenue-officer shall publish the draft record-of-rights by placing it for public inspection, free of charge, during a period of not less than one month, at such convenient place as he may determine. A proclamation shall previously be published in each village, informing the landlords and tenants of the place at which the draft record of that village will be open to public inspection, the period during which it will be open to such inspection, and the last date on which objections may be filed. Notwithstanding anything contained in the proclamation, the Revenue-officer may extend the period during which the draft record will be open to inspection and during which objections may be filed.

58. *Objections under section 103A.*—(*1*) Blank forms of objection shall be supplied free of charge and objections shall, as far as practicable, be made on such forms. Along with the original objection, the objector shall file a copy or copies for service on all other persons who, in the opinion of the Revenue-officer, are materially interested in the case. The Revenue-officer shall issue notices informing the objector and all other persons so interested of the date and place fixed for the hearing of the objection, and with each notice to a person other than the objector he shall forward a copy of the objection. Objections regarding the ownership of land, or the ownership of any interest in land, shall be decided by the Revenue-officer on the basis of actual possession. The record shall contain the names of the witnesses examined and an abstract of the reasons for the decision. When a Revenue-officer directs that a change shall be made in the rent recorded as payable by any tenant he shall direct that a corresponding change shall be made in the cess, if any, recorded as payable by such tenant. Objections shall not be disposed of in the absence of any of the parties materially interested, or their representatives, unless the Revenue-officer be satisfied, for reasons to be recorded in writing, that the notice was duly served on the person concerned.

(*2*) Whenever the Revenue-officer has been unable, before the publication of the draft record, to enter the cess payable by all or any of the tenure-holders in any local area, and whenever, owing to a revaluation duly made after the publication of the draft record, there have been changes in the cess lawfully payable by all or any of the tenure-holders in such local area, the Collector may, at any time before the final publication of the record, make an objection to the omissions or entries in question, and the Revenue-officer shall thereupon proceed, notwithstanding anything contained in sub-rule (*1*) of this rule, to consider the objection, and, if necessary, to make in the draft record of such local area entries or revised entries of the cess which is then lawfully payable by each tenure-holder concerned :

Provided that no such entry or revised entry shall be made unless the tenure-holder has been previously informed of the proposed entry and has been given an opportunity of objecting thereto.

59. *Preparation of a settlement rent-roll.*—Where land revenue is being, or is about to be, settled, the Revenue-officer shall prepare a rent-roll for each village, in accordance with the following procedure :—

(*i*) Before preparing the rent-roll the Revenue-officer shall issue a proclamation informing the landlords and tenants of the time and place at which the preparation of the rent-roll will begin. If any tenant be absent, the Revenue-officer shall make no entry in the rent-roll which would have the effect of altering the rent of that tenant until a special notice has been duly served on that tenant.

(*ii*) When the Revenue-officer is preparing the settlement rent-roll on the basis of a table of rates, he shall consult the landlord and tenants of the village regarding their own classification of the lands therein and regarding the relative capability of each class of land, according to that classification. When specifying in the table of rates the rate of rent which is fairly and equitably payable in respect of each class of land, the Revenue-officer shall specify and have regard to the rate of rent which is now being paid in respect of each class of land, and shall also have regard to the statements of the landlords and tenants as to the classification and relative capability of lands. Before settling any rent upon the application of the table of rates, the Revenue-officer shall consider the circumstances of the tenant and shall compare the total rent which he is now paying with the rent which he would pay according to the table of rates. He shall also consider whether the land held by the tenant is good or bad land of its class.

(*iii*) When determining the final entries to be made in the rent-roll, the Revenue-officer shall read out, or cause to be read out in his presence, the principal entries relating to the holding and rent of each tenant whose rent is to be settled, and shall enter in the rent-roll with his own hand the fair rent settled for each such tenant.

(*iv*) The Revenue-officer shall enter in the settlement rent-roll the cess which is payable by each tenant to his landlord after the determination of the fair rent.

(*v*) The publication of the draft table of rates, if any, and of the draft settlement rent-roll shall be carried out in the manner and for the period prescribed in the case of the publication of the draft record-of-rights.

(*vi*) Objections under section 104B (*3*) or under section 104E of the Act shall ordinarily be disposed of by the Revenue-officer, in or near the village in which the land is situated. The Revenue-officer shall record his reasons for each order on an objection. Appeals will lie against these orders to the superior Revenue authority mentioned in rule 48.

60. *Preparation of the Final Record.*—When all objections under section 103A of the Act have been disposed of, and when the settlement rent-roll, if any, has been prepared, sanctioned and incorporated with the record, and when the draft record has been corrected in accordance with the original and appellate orders on all objections, the Revenue-officer shall proceed to frame the final record. The final record shall be prepared in conformity with the draft record corrected as above, and shall consist of a series of *khatians* prepared on forms which are generally similar to the forms used for the *khatians* of the draft record. The *khasra* shall not form part of the final record. The final record shall be printed or prepared in manuscript, according as the Local Government may, by general or special order, determine.

61. *Publication of the Final Record.*—The Revenue-officer shall publish the final record-of-rights by placing it for public inspection free of charge, during a period of not less than one month, at such convenient place as he may determine. A proclamation shall previously be published in each village, informing the landlords and tenants of the place at which the final record of that village will be open to public inspection and the period during which it will be open to such inspection.

62. *Distribution of printed maps and of copies of the Final Record.*— The maps which have been prepared under rule 52 (*1*) may be printed under the authority of the Local Government, and may be distributed to public officers, to landlords and tenants and to others, in such manner as the Local Government may, from time to time, by general or special order, direct. Copies of the final record-of-rights, or of portions thereof, shall be printed or prepared in manuscript and shall, after certification under section 76 of the Indian Evidence Act, be distributed to public officers, to landlords and tenants and to others, in such manner as the Local Government may, from time to time, by general or special order, direct. The printed maps and the copies of the record or of portions thereof, which are distributed under this rule to persons other than public officers shall be distributed free or on payment, according as, in the case of each local area, the Local Government may direct When payment is required the sums so received shall ordinarily be adjusted against the expenses incurred on account of survey and settlement, should the account of those expenses still be open. PART III.

PROCEDURE AFTER FINAL PUBLICATION.

Settlement of fair rents under Sections 105 and 105A.

63. (*1*) When the landlord or tenant applies for the settlement of a fair rent, he shall be considered as plaintiff and the opposite party as defendant. The proceedings shall be dealt with as suits and, subject to the directions contained in this rule, the Revenue-officer shall adopt, as far as it is applicable, the procedure laid down in the Code of Civil Procedure for the trial of suits.

(*2*) When the estate or tenure is managed by the Court of Wards or by a manager appointed by the District Judge under section 95 of the Act and a settlement of revenue is not being or is not about to be made, the procedure laid down in this rule for recording and settling rents shall be followed, the manager of the estate or the tenure being regarded as the landlord.

(*3*) When a landlord or tenant applies for the settlement of fair rent notice shall be served on every person interested in the application, together with a copy of the application, or extract therefrom, or summary thereof, so far as the application concerns such persons.

(*4*) With the consent of the Revenue-officer, any number of tenants occupying land under the same landlord in the same village may make a joint application for the settlement of rent, or may be joined as defendants in the same proceedings on a similar application by the landlord :

Provided that, if at any time it appears to the Revenue-officer that the question between any two of the parties, of whom one is so joined with others, cannot conveniently be so jointly tried, he may order a separate trial to be held of that question, or he may pass such order, in accordance with the Code of Civil Procedure, for the joint or separate disposal of the application, as he may think fit.

(*5*) On the date fixed for the settlement of fair rents, or any subsequent date to which the proceedings may be adjourned, the Revenue-officer shall read aloud, or cause to be read aloud in his presence, the name of each tenant whose rent has to be settled, the area of his tenancy, and the existing rent, and shall then proceed to settle a fair rent under the provisions of section 105 of the Act.

(*6*) When a landlord or tenant does not attend, after due service of notice has been proved, the procedure may be *ex parte*.

(*7*) Where a landlord or a tenant appears and the fair rent is not settled under sub-section (5) or sub-section (6) of section 105 of the Act, that is, by the acceptance by the parties of a rent proposed by the Revenue-officer, or by compromise, the Revenue-officer shall record evidence in the manner prescribed in clause (*f*) of section 148 of the Act for the trial of rent suits, and shall settle a fair and equitable rent according to law :

Provided that in important cases the Revenue-officer may, in his discretion, record evidence at length.

(8) When a fair rent has been settled under these rules, it shall be entered in the *khatian* as the rent payable in respect of the tenancy from the date prescribed by section 110 of the Act.

(9) It shall not be necessary for a Revenue-officer to draw up a separate decree with regard to the fair rent settled; but the entry made in his decision or schedule attached thereto with regard to the fair rent settled shall be held to be a decree.

(10) A proceeding under section 105A of the Act shall be considered as part of the proceeding under section 105 in which the issue arose, and the record of a proceeding under section 105A shall be considered as part of the record of the proceeding under section 105. In trying and deciding issues under section 105A, the Revenue-officer shall record evidence in the manner prescribed in sub-rule (7) of this rule.

64. *Suits under section 106.*—Proceedings under section 106 of the Act shall be dealt with in all respects as suits between the parties.

Rules under Order XXVI, rule 9, of the Civil Procedure Code, not to apply to proceedings under section 105, 105A or 106 of the Bengal Tenancy Act.

65. The rules issued by the Local Government under Order XXVI, rule 9, of the Civil Procedure Code, 1908, shall not apply to proceedings in the Court of a Revenue-officer under section 105, 105A or 106 of the Act.

Applications under section 108A by whom to be dealt with.

66. Applications under section 108A of the Act for the correction of *bond fide* mistakes must be dealt with by a Revenue-officer specially empowered by the Local Government. If they are presented to a Revenue-officer not specially empowered under that section, he shall receive them and forward them with his report to the Revenue-officer so empowered. The Court-fee payable on every such application is eight annas.

CHAPTER VII.—GENERAL SCALE OF FEES.

Fees for service of notice.

67. *Service of Notices.*—(1) For the service of every notice under this Act, not being a notice issued by any Revenue or Civil Court [fees for serving which are regulated by the Court-fees Act, 1870 (VII of 1870)], and not being provided for by any other rule made under this Act, a process-fee of 12 annas shall be levied, if the notice be directed to one or more persons residing in the same village.

The rate at which such boat-hire is to be charged shall be the same as those fixed for criminal processes under rule VII of the Rules prescribed by the High Court under clause (*ii*) of section 20 of Act VII of 1870, and shall be sufficient only to cover, on the whole, the actual cost of hiring boats, or of such boat establishment as it may be necessary to maintain for the purpose of serving processes of this nature.

(4) If a peon is detained at the place of service for more than 24 hours at the request of the person at whose instance the process was issued, or of his agent, such person or agent shall then and there pay demurrage at the rate of 5 annas a day and obtain a receipt from the peon. Unless this demurrage is paid, the peon shall decline to wait. No demurrage shall be charged if the delay was not due to the person requiring the process or to his agent.

Draft Notification.

No. Marine.—In exercise of the powers conferred by section 5 of the Indian Explosives Act, 1884, and with the previous sanction of the Governor-General in Council, the Governor in Council of the Presidency of Fort William in Bengal is pleased to make the following revised rules to regulate the transport and importation of explosives, other than those mentioned in section 14 of the Act, in the Port of Calcutta, in supersession of the rules previously made.

These rules are supplementary to the revised rules relating to the transport and importation of explosives made by the Governor-General in Council and published under Government of India, Commerce and Industry Department Notification No. 4013-33, dated the 6th June 1914.

Rules to regulate the transport and importation of explosives in the Port of Calcutta.

[The additions and alterations proposed to be made are shown in italics.]

N.B.—"Explosive," as defined in section 4, Act IV of 1884, and as used in these rules—

(*a*) means gunpowder, nitro-glycerine, dynamite, gun-cotton, blasting powders, fulminate of mercury or of other metals, coloured fires, and every other substance, whether similar to those above mentioned or not, used or manufactured with a view to produce a practical effect by explosion or a pyrotechnic effect; and

(*b*) includes fog-signals, fireworks, fuzes, rockets, percussion caps, detonators, cartridges, ammunition of all descriptions and every adaptation or preparation of an explosive as above defined. It also includes any dangerous substance which may have been ordered by the Governor-General in Council, under section 17 of the Indian Explosives Act, 1884, to be deemed an explosive.

1. Except as is hereinafter provided for, no vessel shall have on board, within the limits of the port, any explosives, as defined in section 4, Act IV of 1884, except two storm or danger signals, six smaller lights of the same description, 24 blue lights, 24 rockets, *or 24 socket signals with friction tubes*, 24 detonating signals with friction tubes, or in lieu thereof 24 one-pound charges of gunpowder for use in a gun *together with a small box of friction tubes and a flask of priming powder*, 24 private signals of any Company, and 12 red lights for each boat *and life raft* carried under the statutory rules for life-saving appliances (made by the Board of Trade under section 427 of the Merchant Shipping Act, 1894), and a reasonable quantity of safety cartridges for the equipment of the vessel or for the personal use of the officers on board the ship, provided that the quantities held by them are declared in the prescribed Customs Forms A and B respectively, or, in the case of foreign vessel, in the Stores List of such vessel. Detonators and their friction tubes to be stored separately. All explosives which vessels are by this rule permitted to keep on board in port shall be stored in all cases in separate, detached and completely

enclosed magazines for each description of signals. The magazines should be kept in a house on deck and stowed or ranged as far apart as possible, so that in the event of fire they can be removed or thrown overboard.

2. All inward-bound vessels carrying explosives in excess of the quantity prescribed by rule 1, are prohibited from proceeding above Budge-Budge, and the Master of any vessel lying within the port, which shall have on board any explosives in contravention of these rules, shall be liable to a fine which may extend to the sum mentioned in clause (*a*) or clause (*b*), as the case may be, of the proviso to section 5 of the Indian Explosives Act, 1884.

3. Explosives of classes 1, 6 and 7, as laid down in the rules issued under Government of India, Commerce and Industry Department Notification *No. 4013—33, dated the 6th June 1914*, that is to say, gunpowder, ammunition and fireworks in excess of the quantity prescribed in rules 1 and 2, shall be landed and deposited in the magazine at Moyapore.

4. For the convenience of vessels having ship's gunpowder, *ammunition and fireworks* on board, a properly constructed powder-boat will be always in attendance off the magazine for landing and shipping *these explosives*. No charge will be made for the use of the boat for landing ship's *explosives*, but the responsibility of the keeper in respect of the ship's *explosives* shall not commence until *they are* landed on the bank, and shall cease as soon as *they are* shipped on board the boat. Every precaution will be taken to insure the safety of the *explosives* while in the boat, but the landing and shipping shall be at the risk of the vessel.

5. Vessels bringing consignments of trade explosives shall be allowed the use of the magazine boat; but should passing vessels require the use of the boat to put out or take in ship's *explosives*, such vessels shall be accommodated before the boat can be used to discharge explosives brought as cargo. The landing of *trade explosives*, whether the station boats or private boats are employed, shall be at the risk and expense of the consignees of the explosives, and no liability shall be accepted for damage sustained while in course of landing or until the consignments are stored in the magazine.

6. Explosives specified in the first division, class 6 of the rules published under Government of India, Commerce and Industry Department Notification *No. 4013—33, dated the 6th June 1914*, viz., safety cartridges, safety fuzes for blasting, railway fog-signals, and percussion caps brought as part of a general cargo and which have been placed on board the vessels while lying in dock at ports of shipment, may be brought into port and landed at the docks or jetties in accordance with the regulations prescribed in that behalf in the Port Commissioners' bye-laws.

The term "safety fuze" means a fuze for blasting which burns and does not explode, and which does not contain its own means of ignition, and which is of such strength and construction, and contains an explosive in such quantity, that the burning of such fuze will not communicate laterally with other like fuzes.

The expression "safety cartridges" means cartridges for small-arms of which the case can be extracted from the small-arm after firing, and which are so closed as to prevent any explosion in one cartridge being communicated to other cartridges. The term also includes rifle-calibre machine-gun cartridges if they are of the above description, whether they are for use with machine-guns having chambers identical with those of rifles or with machine-guns which have special chambers.

The maximum diameter at which a small-arm or machine-gun cartridge can be accepted as "safety" is one inch.

7. In order to avoid unnecessary detention, Masters of vessels requiring the use of the powder-boat shall hoist a flag at the fore-topmast head on coming in sight of the magazine, as a signal to the keeper to have the boat and coolies in attendance.

8. Masters of vessels shall mark the names of their respective vessels on the barrels and packages of ship's *explosives* previously to their being landed; if not marked, they shall not be received by the magazine boat.

9. Explosives shall not be landed within the port or at Moyapore or Diamond Harbour at any time when artificial lights are required to be used, and no explosives shall be landed, received into, or delivered from, the magazine when artificial lights are required to be used.

10. The magazine-keeper shall give to the Master of any vessel landing explosives at the magazine a receipt for the number of packages, and the magazine-keeper shall be accountable to such Master for the re-delivery of such packages.

11. Before entering the limits of the port, the Master of every vessel having explosives on board shall make and sign a declaration in writing that to his knowledge and belief there is not on board any explosive exceeding the quantity prescribed in these rules.

12. A clerk shall be always in attendance in the powder-boat, and shall receive from the Master the declaration specified in the foregoing rule.

13. If any vessel shall be prevented, by stress of weather or by being in distress, from landing or depositing such explosives in excess of the quantity allowed as aforesaid, such vessel may be permitted to come up to the lower limits of the port, but shall not proceed above Matteabrooj Ghât, and the Master of such vessel shall forthwith give notice to the Harbour Master of his having such explosives on board, and shall obey the Harbour Master's directions relating to the same.

14. Masters of vessels, outward bound, who may require ship's *explosives* for their outward voyage, shall not take such *explosives* on board in any part of the river above Budge-Budge, with the exception of a quantity not exceeding that named and sanctioned in rule 1.

15. Masters of vessels who have deposited ship's *explosives* at the magazine shall inform the Harbour Master of the date on which the vessel will pass the magazine outward bound, and on receipt of this information, orders shall be forwarded to the keeper to place the *explosives* in the boat, and send it off in such time as to avoid any detention of the outward-bound vessel. Before taking the *explosives* on board, the receipt granted by the magazine-keeper shall be given up

16. Boats shall be permitted to take on board at the Moyapore Magazine and bring as far as *Prinsep's* Ghât, under cover of passes to be granted by the Commissioner of Police and the Port Commissioners, 50lbs. of trade gunpowder, the property of dealers and consignees.

17. Delivery of trade powder into boats at the Moyapore Magazine for conveyance to Calcutta shall only be granted upon orders issued by the Port Commissioners.

18. No boat containing powder, under the provisions of rules 16 and 17, shall be allowed to proceed above *Prinsep's* Ghât. All such powder shall be landed at *Prinsep's* Ghât, and no powder shall be landed at any other ghât, except with the special permission of the Port Commissioners.

19. No smoking, and no fire or light of any description, except the red lamps between sunset and sunrise, shall be permitted on board of any boat having explosives on board.

20. Masters of vessels having on board explosives belonging to the following classes, as laid down in the rules prescribed in the notification of the Government of India, Commerce and Industry Department *No. 4013—33, dated the 6th June 1914*, shall make their own arrangements for the discharge of the explosives:—

Class 2.—Nitrate mixture.	Class 4.—Chlorate mixture.
„ 3.—Nitro compound.	„ 5.—Fulminate.

21. Explosives of the classes specified in the foregoing rule shall not be landed at the Moyapore Magazine. They shall only be allowed to enter and pass through the port under the supervision of the Port Police and subject to such restrictions as may, from time to time, be ordered by the Commissioner of Police and the Port Commissioners, in addition to the restrictions laid down in the rules promulgated by the Government of India, Commerce and Industry Department Notification *No. 4013—33, dated the 6th June 1914*. But they may be landed at Diamond Harbour and conveyed thence by rail to Durgapur: provided they are taken direct from the vessel to wagons: or if there be no wagons ready to receive them, arrangements are made for their safe custody after leaving the vessel.

22. Boats containing explosives of the classes specified in the two foregoing rules may anchor at Diamond Harbour if it is intended to land the explosives at that place, but shall, in no case, anchor within port limits, or be made fast at any part of the river bank or alongside any vessel, stage, jetty, or pier within the limits of the port. Such boats, if allowed to enter port, shall proceed direct through the port to the place licensed by the Local Government for the landing and storage of the explosives.

3. Government reserves to itself the right to alter the quantity and class of opium to be offered for sale in each month. No reduction in the quantities to be sold, however, will be made without three months' previous notice.

4. The following are the conditions of sale. Government reserves to itself the right of altering all or any of these conditions after giving three months' previous notice, and power is reserved to vary the upset price referred to in condition (ii) at any time without such previous notice :—

(i) The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

(ii) The opium will be ordinarily offered for sale at an upset price of Rs. 1,600 per chest of uncertified opium and will be sold to the highest bidder above that price, except under the circumstances for which provision is made by clause (xiii) of these conditions of sale. The bids must advance by Rs. 5 at a time.

(iii) The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M., but if, at that hour any of the lots advertised for sale shall remain unsold, the

sale may, at the discretion of Government, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or if the whole quantity advertised shall not be sold on the day appointed, the Government may dispose of the lots which remain on hand at a future sale.

(iv) Each lot shall contain five chests.

(v) A promissory note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such promissory notes shall be redeemed on the part of the purchasers at this office by Bank of Bengal receipts, or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as Government shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.

On bids of Rs. 1,600 and upwards, but less than Rs 2,000 per chest, Rs. 400 per chest.

On bids of Rs. 2,000 and upwards, but less than Rs. 2,400 per chest, Rs. 500 per chest.

And so on, Rs. 100 being added to the deposit for every bid additional to the extent of Rs. 400.

(vi) The said promissory notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

(vii) The promissory notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

(viii) No tender of money, Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause (v) on the fifth day following the day of sale, will be afterwards accepted: Provided always that money so subsequently tendered may be taken in payment of the said promissory note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. (v) and No. (vi).

(ix) The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and, in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as Government shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

(x) Puchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots or of a different number of lots or chests, whether more or less,

than the number of lots or chests ordinarily required to be included in each certificate or order.

(xi) No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

(xii) The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a promissory note would otherwise be taken under the fifth of these conditions.

(xiii) With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 1,600 specified in the second of these conditions.

(xiv) The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of opium not exceeding altogether fifteen lots, provided always that there remain a sufficient number of lots of the opium to complete the said fifteen.

(xv) In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

5. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the office of the Government of Bengal:—

No. 1—Certificate of the opium advertised for sale.
No. 2—Report of the examination of such opium.

6. The public are hereby informed that in providing the investment of the opium manufactured at the Ghazipur Factory, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug, when packed at the Ghazipur Factory, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the office of the Government of Bengal.

7. Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the office of the Government of Bengal. But, in accordance with established usage, under no circumstances will the Government entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

3. Government reserves to itself the right to alter the quantity and class of opium to be offered for sale in each month. No reduction in the quantities to be sold, however, will be made without three months' previous notice.

4. The following are the conditions of sale. Government reserves to itself the right of altering all or any of these conditions after giving three months' previous notice, and power is reserved to vary the upset price referred to in condition (ii) at any time without such previous notice :—

(i) The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

(ii) The opium will be ordinarily offered for sale at an upset price of Rs. 1,600 per chest of uncertified opium and will be sold to the highest bidder above that price, except under the circumstances for which provision is made by clause (xiii) of these conditions of sale. The bids must advance by Rs. 5 at a time.

(iii) The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M., but if at that hour any of the lots advertised for sale shall remain unsold, the

sale may, at the discretion of Government, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or if the whole quantity advertised shall not be sold on the day appointed, the Government may dispose of the lots which remain on hand at a future sale.

(iv) Each lot shall contain five chests.

(v) A promissory note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such promissory notes shall be redeemed on the part of the purchasers at this office by Bank of Bengal receipts, or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as Government shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.

On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.

On bids of Rs. 2,000 and upwards, but less than Rs. 2,400 per chest, Rs. 500 per chest.

And so on, Rs. 100 being added to the deposit for every bid additional to the extent of Rs. 400.

(vi) The said promissory notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

(vii) The promissory notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

(viii) No tender of money, Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause (v) on the fifth day following the day of sale, will be afterwards accepted: Provided always that money so subsequently tendered may be taken in payment of the said promissory note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. (v) and No. (vi).

(ix) The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and, in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as Government shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

(x) Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots or of a different number of lots or chests, whether more or less,

than the number of lots or chests ordinarily required to be included in each certificate or order.

(xi) No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

(xii) The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render t the time a deposit either in Government of India notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a promissory note would otherwise be taken under the fifth of these conditions.

(xiii) With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 1,600 specified in the second of these conditions.

(xiv) The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of opium not exceeding altogether fifteen lots, provided always that there remain a sufficient number of lots of the opium to complete the said fifteen.

No. 2—Report of the examination of such opium.

6. The public are hereby informed that in providing the investment of the opium manufactured at the Ghazipur Factory, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug, when packed at the Ghazipur Factory, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the office of the Government of Bengal.

7. Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the office of the Government of Bengal. But, in accordance with established usage, under no circumstances will the Government entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Governor in Council,

Secretary.

DRAFT NOTIFICATION.

No. Marine, dated the .—In exercise of the powers conferred by section 29 of the Inland Steam-Vessels Act, 1884 (VI of 1884), as applied to steam and motor vessels, and with the previous sanction of the Governor-General in Council, the Governor in Council of the Presidency of Fort William in Bengal is pleased to make the following revised rules relating to the grant of certificates of competency to engineers and engine-drivers of inland steam and motor vessels, in supersession of Notification No. 68Marine, dated the 8th July 1910, as amended by Notification No. 113Marine, dated the 11th October 1912.

RULES RELATING TO THE EXAMINATION OF ENGINEERS AND ENGINE-DRIVERS UNDER ACT VI OF 1884.

Certificates of competency to be granted to persons who pass requisite examinations.

1. Certificates of competency will be granted to those persons who pass the requisite examinations and otherwise comply with the requisite conditions. For this purpose examiners have been appointed and arrangements have been made for holding the examinations periodically at the Ports of Calcutta and Chittagong, and at Goalundo in the Faridpur district.

Examinations to be continued till all the candidates are examined.

2. The examinations will commence early in the forenoon, and will be continued until all the candidates whose names appear upon the list of the Port Officer, Calcutta or Chittagong, or of the Subdivisional Officer, Goalundo, on the day of examination are examined.

Application how to be made.

3. Candidates for examination must make their application in form Exn. 1, which must be filled in at the Port Office, Calcutta or Chittagong, or at the Subdivisional Office, Goalundo.

Candidates unable to write English must apply at the Port Office, Calcutta or Chittagong, or at the Subdivisional Office, Goalundo, for a copy of form Exn. 1, and the same must be filled in before the Port Officer, Calcutta or Chittagong, or Subdivisional Officer, Goalundo, before submission at the Port Office, Calcutta or Chittagong, or at the Subdivisional Office, Goalundo.

The form Exn. 1, properly filled in, together with the candidate's testimonials, must be lodged with the Port Officer, Calcutta or Chittagong, or Subdivisional Officer, Goalundo, not later than three days before the day of examination.

Testimonials required.

4. Applicants will be required to produce, in addition to the usual forms of discharge, satisfactory testimonials as to sobriety, experience, ability, and general good conduct for at least the last 12 months' service on boardship preceding the date of application to be examined, unless the Government after having investigated the matter, should see fit to reduce the time.

An applicant already possessed of a certificate and wishing to appear for one of a higher grade must produce his certificate and all the discharges and testimonials he submitted when he applied for examination in the lower grade as well as the discharges and testimonials necessary for the higher grade certificate. Should references of doubtful authenticity be submitted by candidates for examination, the examining officer may require proof from the candidate of their genuineness, or an affidavit made to that effect.

If applicants have served on shore immediately preceding their application, certificates of sobriety must be produced from their employers, or from a respectable householder if unemployed. No candidate will be allowed to be examined unless he has served on boardship six months within the last three years preceding the date of his application to be examined.

5. As such testimonials and discharges may have to be verified before the candidates can be examined, it is desirable that these should be handed over, together with the form Exn. 1, as early as possible.

Testimonials of Foreigners.

6. The testimonials of service of Foreigners and of British seamen serving in foreign vessels, which cannot be verified in the Port Office, Calcutta or Chittagong, or Subdivisional Office, Goalundo, must be confirmed either by the Consul of the country to which the ship in which the candidate served belonged, or by some other recognized official authority of that country, or by the testimony of some credible person on the spot, having personal knowledge of the facts required to be established. The production, however, of such proofs will not of necessity be deemed sufficient. Each case must be decided on its own merits; and if the sufficiency of the proofs given appears to be at all doubtful, the point must be referred to the Government.

Certificate as to age.

7. Should any doubt exist as to the age of a candidate, he will be required to produce a certificate of birth or baptism.

Foreigners to know English.

8. Foreigners must prove to the satisfaction of the examiners that they can speak and write the English language sufficiently well to perform the duties required of them on board a British vessel.

9. Testimonials of service must ordinarily be based on their employers' office records.

Services claimed which cannot be 'verified from the employers' office records must be authenticated by affidavits of men under whom such services have been performed as well as by an affidavit of the candidate himself.

Testimonials of service from European engineers will be accepted.

10. Candidates will be required to account for any gaps in their services with documentary evidence.

42. If the applicant fails in the *vivâ voce* or practical part of the examination, he may not present himself for re-examination until he can produce proofs of three months' further service afloat. If he fails in arithmetic or drawing only, he may come up again at any time. Engine-drivers may be examined *de novo* after six months' active service as serang or principal tindal or second driver if the past examination showed that they might reasonably be expected to qualify.

Reading the Water-Gauges.

(Engineers and Engine-drivers.)

Notwithstanding that the reading of the water-gauge is made a special feature in the examination of Engineers, many boiler casualties result from the Engineer of the watch either not understanding the construction of the water-gauge fittings or not satisfying himself by actual trial that the cocks, pipes, etc., are clear.

In one case, two furnace crowns came down in a steamer that was just starting on a voyage. The Engineers were satisfied that there was plenty of water in the boiler because the water-gauge showed full glass, and they called the attention of the Surveyor to this fact as being conclusive evidence that the casualty could not have resulted from shortness of water. On examination of the fittings, however, it was found that the cock between the boiler and the steam pipe leading to the gauge was shut, having been carelessly left in that position on the previous day when the mountings were overhauled for survey. Directly the cock was opened the water disappeared from the gauge glass, and the Second Engineer admitted that he had blown down the boiler in order to lower the water level, as the glass was full.

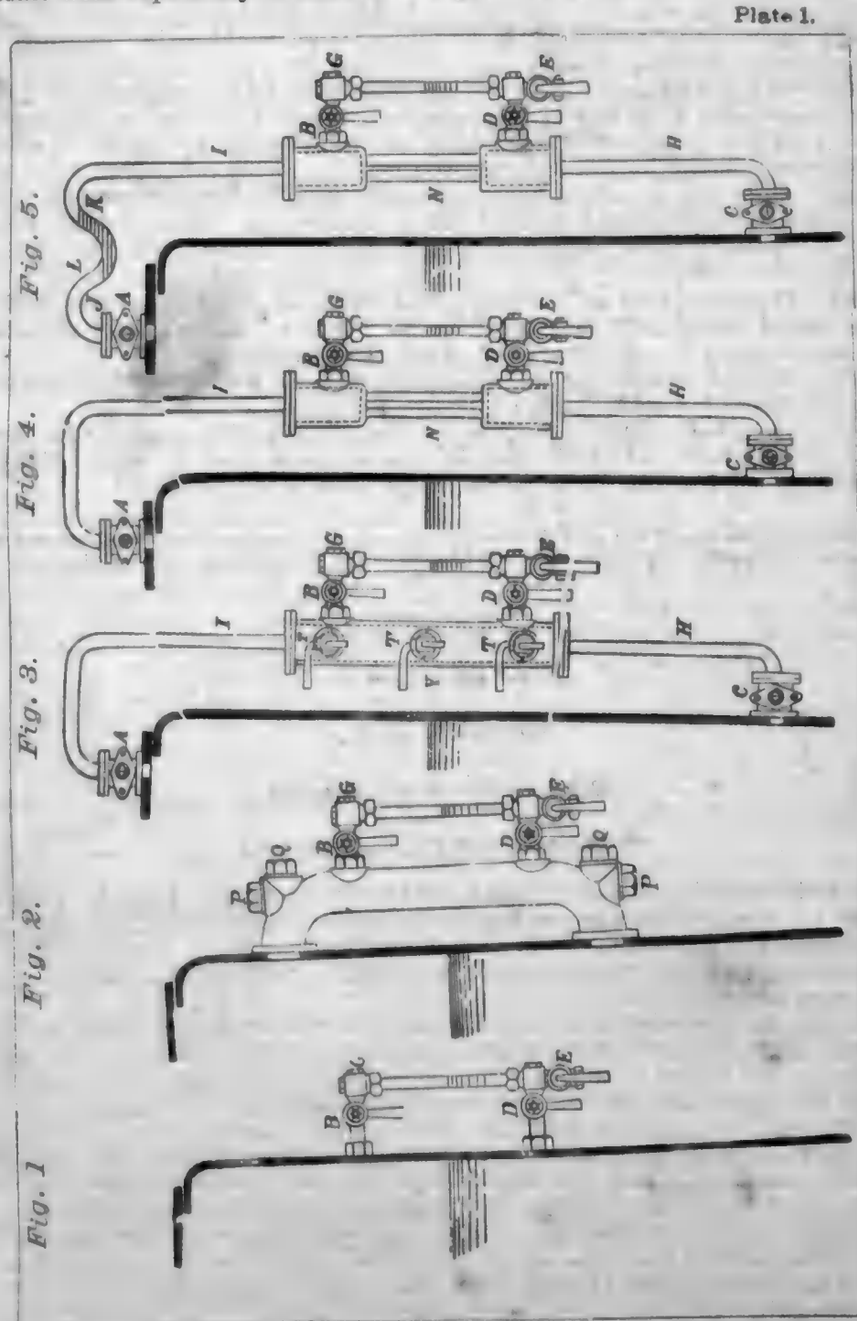
Many steamers have had their furnaces brought down at sea in a similar manner to the above through what the Engineers of the watch have called "false" water in the glass," and which on examination has been found to result from the top communication being choked.

These casualties resulted from what, to say the least, was bad management, not false water.

Unless a candidate under examination is able to prove that he understands how to verify the indications of the water-gauge, he should not be passed in practical knowledge and, as failure in practical knowledge involves the candidate going to sea for another three months before being eligible for re-examination, the Examiner should explain to such candidate his error, after failing him, in order to prevent further casualties resulting from his want of knowledge on this subject.

The sketches, Figures 1, 2, 3, 4, and 5, Plate I. represent the usual methods of attaching water-gauge mountings to marine boilers. The important features in each gauge and the method of verifying its indications are dealt with separately in the following remarks :—

Plate 1.



REFERRING TO FIGURE 1 ONLY.

In this case the water-gauge cocks are attached direct to the boiler, and the accuracy of the gauge when the boiler is under steam can be tested, as follows:—

First.—Let B remain open, then close cock D and open cock E, and if steam issues it proves that cock B and the passage through the top fitting and gauge glass are clear. If no steam or water issues, either cock B or the passage through the top fitting and gauge glass is choked and the gauge cannot act properly until the obstruction is removed.

Second.—Close cock B and open D and E, and if water issues, cock D is clear. If no water or steam issues, either cock D or the passage from the boiler through the lower fitting is choked and must be cleared before the gauge can act properly.

REFERRING TO FIGURE 2 ONLY.

In this case the gauge cocks are attached to a bent pipe of comparatively large diameter (at least 3 inches in the bore), the upper end of which communicates with the steam space, and the lower end with the water space of the boiler. Owing to the bore of the pipe being large it is not liable to become choked or stopped under the ordinary conditions of working. The water-gauge is, therefore, in practically the same condition as if it were attached direct to the boiler, as in Figure 1. This gauge, when at work, is tested in precisely the same manner as the one shown in Figure 1.

Screw plugs are inserted at P.P. and Q.Q., by the removal of which the apertures in the pipe can be cleared, if necessary, by the insertion of a wire or rod when steam is down.

REFERRING TO FIGURE 3 ONLY.

In this gauge there is an open communication from A to C through the column Y, and in order to "blow through the *glass*" it is only necessary to shut cocks D and B alternately keeping E open. But to "blow through the *water-gauge*," including the pipes H and I, it is necessary, after blowing through the glass as described above, to shut A and C alternately, at the same time keeping B, D and E open for such time as will ensure the complete discharge of the contents of the gauge and its connections. When B, D and C are clear and A choked the steam lodging in the glass and in the pipe I leading from column Y to A becomes condensed and the water flowing through C to take its place rises in column Y and in the glass to a level above that of the water in the boiler. In other words, the gauge shows a false level. If now E be opened and water is blown out, then on E being again closed the water in the gauge will rise higher than before and be still further misleading. On the other hand, when B, D and A are clear and C choked, the water, if any, in the glass is trapped and no longer rises and falls with the water in the boiler or with the motion of the vessel; it, however, slowly rises in the glass owing to the condensation of the steam in the upper part of the gauge until such time as E is opened when the whole of the water in the glass is blown out, and on E being closed the glass does not show any water notwithstanding that the water in the boiler may be at the proper level. When the test cocks T T T are attached to column Y, as shown in Figure 3, they cease to be reliable when either cock A or C or the pipe in connection therewith is choked, or nearly choked.

REFERRING TO FIGURE 4 ONLY.

Sometimes the water-gauge fittings are arranged as shown in Figures 4 and 5, with no passage up the column, the central portion (N) of the column, being simply a pillar or connecting piece of any convenient section between the upper and lower portions to which the cocks B and D are attached.

By this arrangement double communications are obviated and there is no need for what is known as "double shut off" in testing the accuracy of the gauge. When, however, the gauges are constructed in this manner the

cocks B and D are unreliable as test cocks in the event of there being no glass in the gauge. This feature should be carefully noted. Moreover, when in working condition the reduction of pressure in the glass which arises when E is opened causes the water in pipe H to rise above its normal level. This objectionable feature should also be noted.

REFERRING TO FIGURE 5 ONLY.

Sometimes there is a bend, L, in the steam pipe, I, leading from cock A to cock B. This has occasionally escaped observation when new boilers have been fitted on board ship. In most cases this bend arises from the pipe being led in an abnormal direction to escape other pipes, beams or fittings near the smoke-box. With such a bend the condensed steam collects in the pipe and falls to the bottom of the bend, and in time it completely fills the pipe from J to K. The steam from K down to the level of the water in the glass is thereby trapped and, as condensation proceeds, leads to a reduction of pressure in the pipe below that of the boiler and an equivalent rise of the water in the bend and also in the gauge glass. When the vessel is quiescent the water in the gauge glass increases in height until cock E is opened or until the pressure in the boiler is so much in excess of that in the lower part of pipe I, as to cause the water in the bend to be blown into the gauge glass. In either case instantaneous change to water level in the glass ensues.

In the ordinary course of working the phenomenon described above is more or less modified by the presence of air in the upper part of the gauge and by the rise and fall of the water in the boiler and gauge glass arising from the rolling or pitching motions of the vessel.

OTHER SPECIAL POINTS TO BE NOTED.

When the cocks A and C are omitted, as in Figure 2, it is owing to the bore of the stand pipe being sufficiently large to enable it to be regarded as part of the boiler. Such pipes require, however, to be examined and cleared at intervals by passing a rod through the holes provided for the purpose at P.P. and Q.Q.

Cocks at A and C are not necessary for the testing of gauges arranged as shown in Figures 4 and 5. Examiners ought, however, to make sure that candidates are aware of the impossibility of testing the reliability of the indications of water-gauges arranged as in Figure 3 when the cocks A and C are absent and of the effect which the choking of cock A or C, or pipe H or I has on the indications of the test cocks T T T attached to column Y.

Probably more than half the steamers afloat are fitted with water-gauges as shown in Figures 3 and 4, and it is therefore specially important that Engineer candidates should thoroughly understand their construction, the principle on which they act, and the steps which must be taken to keep them in an efficient condition.

When fitting a gauge glass into its place it is specially important that it should not be placed so high as to prevent a clearing rod being inserted at G, Figures 1, 2, 3, 4 and 5. This defect, especially if it occurs in a water-gauge attached to a boiler subject to priming, permits a rapid accumulation of scum around the top of the glass and results in the choking of the orifice leading from cock B to the gauge glass in each of the figures.

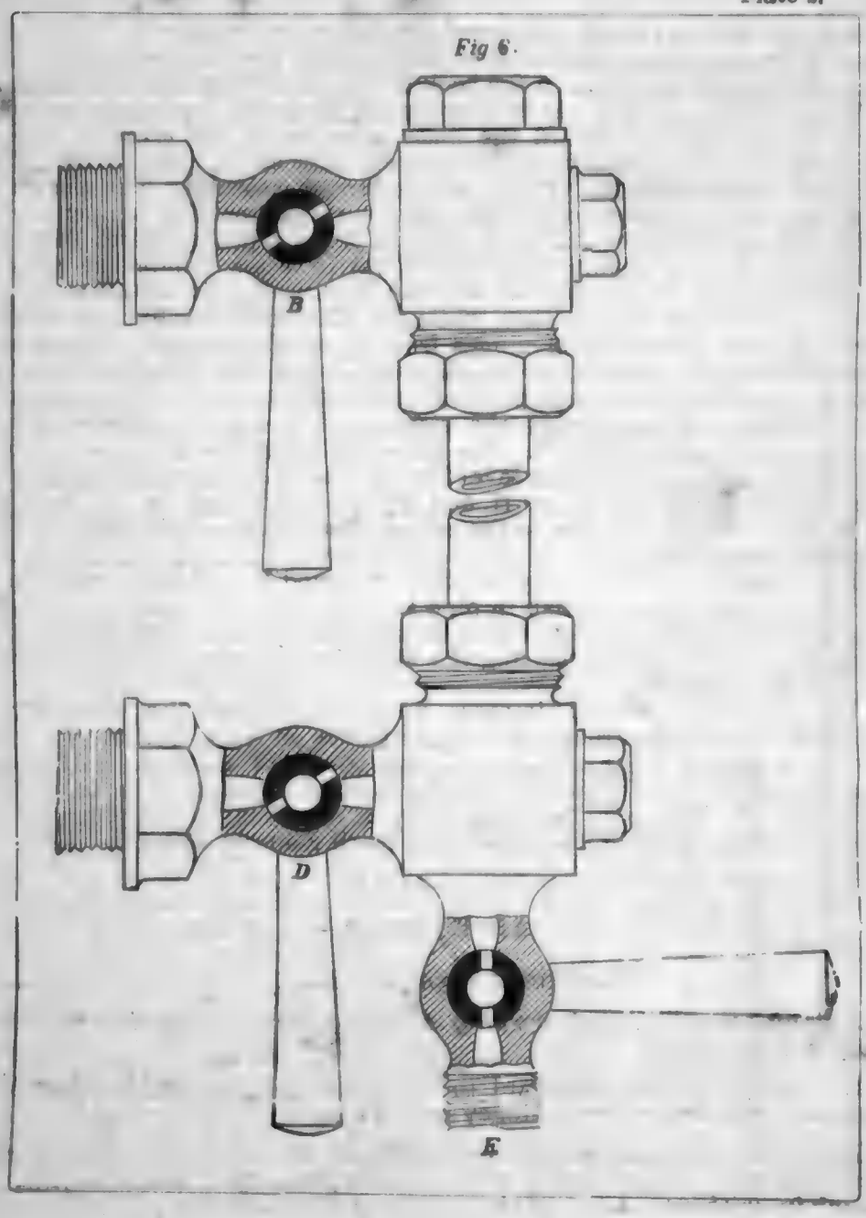
When a gauge glass is too short or is placed either too high or too low in the fittings, it is also liable to become choked by the packing material being forced over its ends by the glands whilst being screwed up.

The use of unsuitable or insecure internal pipes in connection either with the ordinary glass gauge cocks of the description shown in Figure 1, or with test cocks which are jointed to the boiler itself should also be carefully guarded against.

Boiler casualties have resulted from the cocks B and D having the parts wrongly placed as shown in Figure 6, Plate 2. In one case of that kind,

Plate 2.

Fig 6.



the Engineer in testing the water-gauge omitted to see that the passages in the cocks B and D were clear *when the handles were in their proper working position*. This defect could easily have been discovered if proper attention had been paid to the condition of the cocks. A defect of this nature may be due to faulty construction originally, or to the handle of the cock having been overstrained, and the neck twisted. Whether the passages in the plugs are fair and clear can, however, be verified in a few minutes. As an illustration, the water cock D, Figure 6, Plate II, can be verified by blowing through E with B shut and then moving the handle of D to one side until it is just closed, and then to the other side until it is again just closed; the proper working position of the handle is about equally distant from each of the above positions. The other cocks can be verified in the same manner.

Another serious casualty occurred through the handle of the cock A, Figure 3, having been twisted from its original position relatively to the orifice of the cock, resulting in the cock being shut when apparently open.

When a water-gauge, that is clear in all its parts, has been thoroughly blown through, the water in the glass rises above the level at which it formerly stood, immediately the drain cock E is closed, but if left undisturbed for a time it gradually falls to its former position. The amount of rise which occurs on these occasions depends chiefly on the temperature of the contents of the boiler and on the length of the pipes by which column Y is connected top and bottom to the boiler, but in cases where the gauge is of the description illustrated in Figures 3, 4 and 5, it amounts in high pressure boilers to about 4 inches, while the time occupied by the water in returning to its former level ranges from 30 to 40 minutes. The cause of this rise is twofold, namely, (*a*) the displacement of the comparatively cold water in pipe H by hotter, and proportionately lighter, water from the boiler, and (*b*) a slight condensation of the steam and a corresponding fractional reduction of pressure in pipe I. The cause of the gradual subsidence of the water in the glass to its former level is also of a dual character, namely, (*a*) the cooling of the water in pipe H, and (*b*) the diminution in the condensation of steam in pipe I owing to the collection therein of air released from the steam condensed.

These results will, however, be somewhat modified if the water in the boiler is of higher density than in pipe H, and this will nearly always be the case owing to the condensation of the steam in the glass and upper fittings of the water-gauge, causing the water in the lower part to be fresher than that in the boiler.

The Examiner should impress upon candidates the necessity for periodically blowing through the water-gauge on each boiler (no matter what the form may be) in a systematic and thorough manner, and, in cases where a boiler is fitted with two water-gauges, of keeping both in constant use; finally, he should further impress upon them the necessity for keeping the water-gauges well lighted, clean, and in all respects efficient.

APPENDIX D.

[*See* RULES 25 (*n*) AND 25(*o*).]

Examination in rough working drawing for an Engineer's Certificate of Competency.

1. The regulations in regard to the qualifications of a candidate for an Engineer's certificate of competency specify that—

He will be required to make an intelligible hand sketch, or a working drawing of some one or more of the principal parts of a steam-engine, and to mark in, without a copy, all the necessary dimensions in figures, so that the sketch or drawing could be worked from.

He must be able to state the general proportions borne by the principal parts of the machinery to each other.

2. In accordance with these clauses, a candidate for an Engineer's certificate is required to make a rough working drawing of the parts specified. An Engineer who has been some years in charge of marine engines and boilers ought to have familiarly in his mind the general construction of at least one set of engines and boilers, say, that set he was last with.

Fine drawing is not expected, and in the proportions of the parts a wide margin will be allowed ; absurd dimensions will be failure in practical knowledge.

3. The drawing must, however, be practically a working drawing, giving a sufficient number of views to show the parts fully—sections, plans, or elevations—just as the candidate would require to be supplied to him if he had to make the parts represented to the design of another person.

4. A clear hand sketch showing the construction completely, and fully dimensioned, will be accepted if the candidate prefers this alternative.

5. A portion only of the parts specified may be accepted in place of the whole, if that portion is sufficient to show that the candidate has a good practical idea of the construction of the parts, and a fair notion of their general proportions or dimensions.

6. Candidates are cautioned not to put on paper what they have not fully considered, and deliberately intend to be understood, as evidence of what they know about the construction of any part required.

7. The statements given in by a candidate may be in themselves, apparently, of little importance, but, as sample material from which the extent of the candidate's knowledge of engines and boilers is to be inferred, every detail which is glaringly inconsistent with a sound knowledge of the use of the part, or in which an essential consideration has evidently been overlooked, is an important element in the description which the candidate is giving of his own qualifications.

8. The candidate is advised not to begin more than he can clearly finish in the time allowed. An important object in this part of the examination is to ascertain whether the candidate can be trusted to mark all necessary dimensions upon a sketch or a drawing. The test of this is, practically, the making of the part from the sketch without having to supply additional dimensions, and without measuring the drawing. To prove this ability the candidate must fully dimension the parts shown in his sketch or drawing, notwithstanding that the parts may be correctly drawn to scale. A drawing is fully dimensioned when no part of it is left to the option of the party who is to work to the drawing.

9. To prevent misunderstanding, however, when the candidate has been led into showing more of the details than he has time fully to finish, he should name, in the statement on the other side, the particular parts which he has fully dimensioned.

10. All dimensions should have lines and darts, to indicate distinctly the points between which the dimensions are given.

11. Beware of writing cross dimensions upon centre lines, or upon longitudinal dimension lines. This is not an order, but a recommendation.

12. The candidate is not expected to design anything ; he has merely to sketch or draw something with which he is expected to be already familiar. At the same time he should call attention to any defect in the design of the article or apparatus. Omission to do so will imply want of practical knowledge.

13. Pencil in nothing after half-past 3 ; all the dimensions, the figures, and the darts must be inked in ; employ the remaining time in examining the drawing and in inking in any figures which may have been before overlooked and in checking the dimensions.

14. Make sure that you will have sufficient room on the drawing sheet to show all the necessary views. You can have another sheet of drawing paper if necessary. All the paper used must be forwarded with the drawing.

Examination of serving officer.

8. Where a notice is returned under rule 6, the Certificate-officer shall, if the return under that rule has not been verified by the affidavit of the serving officer, and may, if it has been so verified, examine the serving officer on oath, or cause him to be so examined by another Certificate-officer, or, subject to any general order of the Collector, by an Assistant Collector, Deputy Collector or Sub-Deputy Collector, touching his proceedings, and may make such further enquiry in the matter as he thinks fit; and shall either declare that the notice has been duly served or order such service as he thinks fit.

Service by post.

9. Notwithstanding anything hereinbefore contained, the notice may, if the Certificate-officer so directs, be served by post.

PETITIONS UNDER SECTION 9, DENYING LIABILITY.

Signature and verification of petition denying liability.

10. (*1*) Every petition filed under section 9, denying liability, shall be signed and verified at the foot by the certificate-debtor or by some other person on his behalf who is proved to the satisfaction of the Certificate-officer to be acquainted with the facts of the case.

(*2*) The verification shall be signed by the person making it, and shall state the date on which it is signed.

Transfer of such petitions.

11. (*1*) The Certificate-officer may, subject to any general or special order of the Collector, transfer to any Assistant Collector or Deputy Collector subordinate to the Collector any petition filed under section 9; and such Assistant Collector or Deputy Collector shall hear and determine such petition accordingly:

Provided that the Collector may re-transfer any petition so transferred, and order that it be heard and determined by the Certificate-officer.

(*2*) The provisions of section 10 shall be applicable to any Assistant Collector or Deputy Collector to whom any such petition has been transferred under sub-rule (*1*).

EXECUTION OF CERTIFICATES.

Execution in another district.

12. Where a copy of a certificate is sent for execution to the Collector of another district under section 12, sub-section (*1*), the certificate may be executed by him or may be transferred by him to any Certificate-officer in his district.

ATTACHMENT OF MOVABLE PROPERTY, ETC.

Application for attachment of movable property in the possession of the certificate-debtor.

13. At the time of making an application for the attachment of movable property in the possession of the certificate-debtor, the certificate-holder shall declare whether the property is above or below Rs. 20 in value. If the property is declared to be above Rs. 20 in value, the certificate-holder shall pay the costs of issuing the proclamation of sale. If, however, the value of the property, having been declared to be Rs. 20 or under, should be found, as determined by rule 14, to exceed Rs. 20, the certificate-holder shall pay the costs of issuing the proclamation of sale immediately on receipt of notice of attachment.

Procedure for the attachment of movable property when its value is up to Rs. 20 or above.

14. When the attaching officer believes that the property attached does not exceed Rs. 20 in value, he shall inform the debtor or, in his absence, any present adult member of his family, that it will be sold by public auction at once without the issue of any proclamation. In case the certificate-holder or the certificate-debtor, or any person on his behalf, objects to this, the attaching officer shall convoke a panchayat of not less than three respectable adult male inhabitants of the neighbourhood, of whom ordinarily the headman of the village should be one, and shall require them to assess the value of the property. If they determine that it exceeds Rs. 20 in value, he shall deal with it according to the rules for the sale of movable property exceeding Rs. 20 in value, otherwise he shall forthwith proceed to sell it by auction, after giving such reasonable notice as the circumstances of the case admit of to intending purchasers.

Attachment of movable property (other than agricultural produce) in possession of certificate-debtor.

15. Where the property to be attached is movable property (other than agricultural produce) in the possession of the certificate-debtor, the attachment shall be made by actual seizure, and the attaching officer shall keep the property in his own custody or in the custody of one of his subordinates, and shall be responsible for the due custody thereof:

Provided that, when the property seized is subject to speedy and natural decay or when the expense of keeping it in custody is likely to exceed its value, the attaching officer may sell it at once.

Attachment of agricultural produce.

16. Where the property to be attached is agricultural produce, the attachment shall be made by affixing a copy of the warrant of attachment—

(a) where such produce is a growing crop—on the land on which such crop has grown, or

(b) where such produce has been cut or gathered—on the threshing floor or place for treading out grain or the like, or fodder stack, on or in which it is deposited,

and another copy on the outer door or on some other conspicuous part of the house in which the certificate-debtor ordinarily resides, or, with the leave of the Certificate-officer, on the outer door or on some other conspicuous part of the house in which he carries on business or personally works for gain, or in which he is known to have last resided or carried on business or personally worked for gain;

and the produce shall thereupon be deemed to have passed into the possession of the Certificate-officer.

Provisions as to agricultural produce under attachment.

17. (1) Where agricultural produce is attached, the Certificate-officer shall make such arrangements for the custody thereof as he may deem sufficient, and, when the produce is a growing crop, shall have regard to the time at which it is likely to be fit to be cut or gathered.

(2) Subject to such conditions as may be imposed by the Certificate-officer in this behalf, either in the order of attachment or in any subsequent order, the certificate-debtor may tend, cut, gather and store the produce and do any other act necessary for maturing or preserving it; and, if the certificate-debtor fails to do all or any of such acts, the certificate-holder may, with the permission of the Certificate-officer and subject to the like conditions, do all or any of them either by himself or by any person appointed by him in this behalf, and the costs incurred by the certificate-holder shall be recoverable from the certificate-debtor as if they were included in the certificate.

(3) Agricultural produce attached as a growing crop shall not be deemed to have ceased to be under attachment or to require re-attachment merely because it has been severed from the soil.

(4) Where an order for the attachment of a growing crop has been made at a considerable time before the crop is likely to be fit to be cut or gathered, the Certificate-officer may suspend the execution of the order for such time as he thinks fit, and may, in his discretion, make a further order prohibiting the removal of the crop pending the execution of the order of attachment.

(5) A growing crop which from its nature does not admit of being stored shall not be attached under this rule at any time less than twenty days before the time at which it is likely to be fit to be cut or gathered

Attachment of debt, share, and other movable property not in possession of certificate-debtor.

18. (1) In the case of—

(a) a debt not secured by a negotiable instrument,

(b) a share in the capital of a Corporation, or

(c) other movable property not in the possession of the certificate-debtor, except property deposited in, or in the custody of, any Court,

the attachment shall be made by a written order prohibiting,—

(i) in the case of the debt—the creditor from recovering the debt and the debtor from making payment thereof until the further order of the Certificate-officer;

(ii) in the case of the share—the person in whose name the share may be standing from transferring the same or receiving any dividend thereon;

(iii) in the case of the other movable property (except as aforesaid)—the person in possession of the same from giving it over to the certificate-debtor.

(2) A copy of such order shall be affixed on some conspicuous part of the office of the Certificate-officer, and another copy shall be sent, in the case of the debt, to the debtor, in the case of the share, to the proper officer of the Corporation, and, in the case of the other movable property (except as aforesaid), to the person in possession of the same.

(3) A debtor prohibited under clause (i) of sub-rule (1) may pay the amount of his debt to the Certificate-officer, and such payment shall discharge him as effectually as payment to the party entitled to receive the same.

Attachment of share in movables

19. Where the property to be attached consists of the share or interest of the certificate-debtor in movable property belonging to him and another as co-owners, the attachment shall be made by a notice to the certificate-debtor prohibiting him from transferring the share or interest or charging it in any way.

Attachment of salary or allowances of public officer or servant of Railway Company or Local Authority

20. (*1*) Where the property to be attached is the salary or allowances of a public officer or of a servant of a Railway Company or Local Authority, the Certificate-officer, whether the certificate-debtor or the disbursing officer is or is not within the local limits of the Certificate-officer's jurisdiction, may order that the amount shall be withheld from such salary or allowances, either in one payment or by monthly instalments as the Certificate-officer may direct; and, upon notice of the order to such officer as the Local Government may, by notification in the Calcutta Gazette, appoint in this behalf, the officer or other person whose duty it is to disburse such salary or allowances shall withhold and remit to the Certificate-officer the amount due under the order, or the monthly instalments, as the case may be.

(*2*) Where the attachable proportion of such salary or allowances is already being withheld and remitted to a Certificate-officer or to a Civil Court in pursuance of a previous and unsatisfied order of attachment, the officer appointed by the Local Government in this behalf shall forthwith return the subsequent order to the Certificate-officer issuing it, with a full statement of all the particulars of the existing attachment.

(*3*) Every order made under this rule, unless it is returned in accordance with the provisions of sub-rule (*2*), shall, without further notice or other process, bind the Government or the Railway Company or Local Authority, as the case may be; and the Government or the Railway Company or Local Authority, as the case may be, shall be liable for any sum paid in contravention of this rule.

Attachment of negotiable instruments.

21. Where the property is a negotiable instrument not deposited in a Court nor in the custody of a public officer, the attachment shall be made by actual seizure, and the instrument shall be brought before the Certificate-officer and held subject to his orders.

Attachment of property in custody of Court or public officer.

22. Where the property to be attached is in the custody of any Court or public officer, the attachment shall be made by a notice to such Court or officer, requesting that such property, and any interest or dividend becoming payable thereon, may be held subject to the further orders of the Certificate-officer by whom the notice is issued :

Provided that, where such property is in the custody of a Court, any question of title or priority arising between the certificate-holder and any other person, not being the cetificate-debtor, claiming to be interested in such property by virtue of any assignment, attachment or otherwise, shall be determined by such Court.

Attachment of immovable property.

23. Where the property is immovable, no attachment need be made before sale.

Removal of attachment on satisfaction or cancellation of certificate

24. Where—

(*a*) the amount due, with costs and all charges and expenses resulting from the attachment of any property or incurred in order to a sale, are paid to the Certificate-officer, or

(*b*) the certificate is cancelled,

the attachment shall be deemed to be withdrawn, and, in the case of immovable property, the withdrawal shall, if the certificate-debtor so desires, be proclaimed at his expense, and a copy of the proclamation shall be affixed in the manner prescribed by rule 67, sub-rule (*1*).

MAINTENANCE AND CUSTODY, WHILE UNDER ATTACHMENT, OF LIVE-STOCK AND OTHER MOVABLE PROPERTY.

Custody of property under attachment.

25. Under rule 15, the property seized will remain in the custody of the attaching officer or of one of his subordinates on his responsibility.

Removal of property to Court.

26. If no suitable place can be found in the village for the safe custody of the attached property, the attaching officer shall remove the property to the Court at the certificate-holder's expense. In the event of the certificate-holder failing to provide the necessary funds, the attachment shall be withdrawn.

List of property under attachment.

27. Whenever attached property is kept at the place where it is attached, the officer shall forthwith report the fact to the Certificate-officer, and with his report shall forward an accurate list of the property seized, so that the Certificate-officer may thereon at once issue the proclamation of sale.

Debtor's consent to the sale of the property under attachment.

28. If the debtor shall give his consent in writing to the sale of the property without awaiting the expiry of the prescribed term, the officer shall receive the same and forward it without delay to the Certificate-officer for orders.

Custody of property under attachment, while in Court.

29. When property is removed to the Court, it shall be kept by the nazir on his own sole responsibility in such place as may be approved by the Certificate-officer. If the property cannot, from its nature or bulk, be conveniently kept in the Court premises, or in the personal custody of the nazir, he may, subject to approval by the Certificate-officer, make such arrangements for its safe custody under his own supervision as may be most convenient and economical and the Certificate-officer may fix the remuneration to be allowed to the persons, not being officers of the Court, in whose custody the property is kept.

Claim of any person other than the certificate-holder to the property under attachment.

30. When property remains at the place where it is attached in the custody of the attaching officer, and any person other than the certificate-debtor shall claim the same, or any part of it, the officer shall nevertheless, unless the certificate-holder desires to withdraw the attachment of the property so claimed, remain in possession, and shall direct the claimant to prefer his claim to the Certificate-officer.

Withdrawal of attachment.

31. If the certificate-holder shall withdraw an attachment, or if it be withdrawn under rule 26 or rule 38, the attaching officer shall inform the debtor, or in his absence, an adult member of his family, that the property is at his disposal.

In the absence of any person to take charge of it, or in case the officer shall have had notice of claim by a person other than the certificate-debtor, the officer shall, if the property has been moved from the premises in which it was seized, replace it where it was found at the time of seizure.

Feeding and tending of live-stock under attachment.

32. Whenever live-stock is kept at the place where it has been attached, the certificate-debtor shall be at liberty to undertake the due feeding and tending of it, under the supervision of the attaching officer; but the latter shall, if required by the certificate-holder, and on his paying for the same, at a rate to be fixed by the Certificate-officer, engage the services of as many persons as may be necessary for the safe custody of it.

Cost for feeding live-stock and expenses attending its removal to Court.

33. In the event of the certificate-debtor failing to feed attached live-stock, the officer shall call upon the certificate-holder either to pay for feeding it on the spot, or for the expenses attending its removal to the Court. If the certificate-holder shall fail to provide for either, the officer shall report the matter, without delay, to the Certificate-officer who may thereupon withdraw the attachment.

Responsibility of the nazir for safe custody and proper feeding.

34. When attached live-stock is brought to Court, the nazir shall be responsible for the safe custody and proper feeding of it so long as the attachment continues.

Custody of live-stock in Government pounds.

35. If there be a Government pound in or near the place where the Court is held, the nazir shall be at liberty to place in it such attached live-stock as can be properly kept there in which case the pound-keeper will be responsible for the property to the nazir, and shall receive the same rates for accommodation and maintenance thereof as are paid in respect of impounded cattle of the same description.

Responsibility of the nazir for the custody of live-stock.

36. If there be no pound available, or if, in the opinion of the Certificate-officer, it be inconvenient to lodge the attached live-stock in the pound, the nazir may keep it in his own premises, or he may entrust it to any person selected by himself and approved by the Certificate-officer. The nazir will in all cases remain responsible for the custody of the property.

Rates to be allowed for the custody and maintenance of various descriptions of live-stock.

37. The Certificate-officer shall, from time to time, fix the rates to be allowed for the custody and maintenance of the various descriptions of live-stock with reference to seasons and local circumstances. The Collector may make any alterations he deems fit in the rates so prescribed.

Fees to be charged where process of attachment of movable property is by actual seizure.

38. (*1*) Where process of attachment of movable property by actual seizure is issued, fees at the following rates shall be charged, and the officer deputed to attach such property shall be furnished with a certificate stating the period for which the fees in accordance with this rule have been paid.

(*i*) When the amount under the certificate exceeds Rs. 1,000—

	Rs.	A.	P.
(*a*) for the seizure under the order of attachment ...	2	0	0
(*b*) for each man necessary to ensure safe custody of property so attached, when such man is actually in possession, *per diem* ...	0	6	0

(*ii*) When the amount under certificate is Rs. 1,000 or under, but above Rs. 50—

	Rs.	A.	P.
(*a*) for the seizure under the order of attachment	1	0	0
(*b*) for each man necessary to ensure the safe custody of property so attached, when such man is actually in possession, *per diem* ...	0	4	0

(*iii*) When the amount under certificate is Rs. 50 or under—

(*a*) for the seizure under the order of attachment	0	8	0
(*b*) for each man necessary to ensure the safe custody of property so attached, when such man is actually in possession, *per diem* ...	0	4	0

(*2*) When process of attachment is issued in a number of cases relating to the same or neighbouring villages, the fee (*a*) referred to above must be paid in each case, and the daily fee (*b*) only for the men actually employed. The daily fee (*b*) is to be paid at the time of obtaining the process for so many days as the Certificate-officer shall order, not being ordinarily less than fifteen days, and the number of days required for the coming and going of the attaching officer; but where that officer is not to be left in possession, then the daily fee is to be paid only for the time to be occupied by the officer going, effecting the attachment and returning. When the inventory filed by the certificate-holder shows the property to be of such small value that the expense of keeping it in custody may probably exceed the value, the Certificate-officer shall fix the daily fee with reference to the provisions of rule 15.

Provided that, if it appears that for any reason the number of days fixed by the Certificate-officer under this rule, and in respect of which fees have been paid, is likely to be exceeded and certificate-holder desires to maintain the attachment, the certificate-holder shall apply to the Certificate-officer to fix such further number of days as may be necessary and the additional fees in respect thereof shall be paid in the manner provided in sub-rule (*3*). If such additional fees be not paid within the period originally fixed and in respect of which fees have been paid, the attachment shall cease on the expiry of that period.

(*3*) The fees prescribed by this rule shall be payable in advance at the time when the petition for service or execution is presented, and shall be paid by means of Court-fee stamps affixed to the petition in addition to the stamps necessary for its own validity.

INVESTIGATION OF CLAIMS AND OBJECTIONS.

Investigation by Certificate-officer.

39 (*1*) Where any claim is preferred to, or any objection is made to the attachment or sale of, any property in execution of a certificate, on the ground that such property is not liable to such attachment or sale, the Certificate-officer shall proceed to investigate the claim or objection:

Provided that no such investigation shall be made where the Certificate-officer considers that the claim or objection was designedly or unnecessarily delayed.

(*2*) Where the property to which the claim or objection applies has been advertised for sale, the Certificate-officer ordering the sale may postpone it pending the investigation of the claim or objection.

Evidence to be adduced.

40. The claimant or objector must adduce evidence to show that—

(*a*) (in the case of immovable property) at the date of the service of the notice under section 7, or

(*b*) (in the case of movable property) at the date of the attachment,

he had some interest in, or was possessed of, the property attached.

Release of property from attachment or sale.

41. Where, upon the said investigation, the Certificate-officer is satisfied that, for the reason stated in the claim or objection, such property was not,—

(*a*) (in the case of immovable property) at the date of the service of the notice under section 7, or

(*b*) (in the case of movable property) at the date of the attachment,

in the possession of the certificate-debtor or of some person in trust for him or in the occupancy of a tenant or other person paying rent to him, or that, being in the possession of the certificate-debtor at the said date, it was so in his possession, not on his own account or as his own property, but on account of or in trust for some other person, or partly on his own account and partly on account of some other person,

the Certificate-officer shall make an order releasing the property, wholly or to such extent as he thinks fit, from attachment or sale.

Disallowance of claim to property attached.

42. Where the Certificate-officer is satisfied that the property was, at the said date, in the possession of the certificate-debtor as his own property and not on account of any other person, or was in the possession of some other person in trust for him, or in the occupancy of a tenant or other person paying rent to him, the Certificate-officer shall disallow the claim.

Saving of suits to establish right to attached property.

43. Where a claim or an objection is preferred, the party against whom an order is made may institute a suit in a Civil Court to establish the right which he claims to the property in dispute; but, subject to the result of such suit (if any), the order shall be conclusive.

SALE GENERALLY.

Power to order sale of attached property.

44. Any Certificate-officer executing a certificate may order that any property liable to sale, or such portion thereof as may seem necessary to satisfy the certificate, shall be sold.

Sale of movable property falling under rule 15 or of value not exceeding Rs. 20 or of greater value.

45. Sales of property under the proviso to rule 15 and of movable property not exceeding Rs. 20 in value, shall be held on the spot. Such sales will necessarily be conducted by peons when they are the attaching officers. Sales of movable property of greater value can, under rule 46, take place only after the issue of a proclamation but they may be held on the spot or at the sadar or subdivisional headquarters, as may seem convenient and conducive to the securing of good prices, provided that the place and time of sale are notified in the proclamation. For such sales officers of higher rank than peons should always be deputed when the value of the property is estimated to exceed Rs. 50, and proclamation should be issued. When the value is between Rs. 20 and Rs. 50, the Collector or Certificate-officer may, by a special order, depute a peon, if he considers it desirable to do so.

Proclamation of sale by public auction.

46. (*1*) Where any immovable property, or any movable property exceeding twenty rupees in value, is ordered to be sold by public auction, the Certificate-officer shall cause a proclamation of the intended sale to be made in the language of the Courts of the district.

(*2*) Such proclamation shall be drawn up after notice to the certificate-debtor, and shall state the time and place of sale, and shall specify, as fairly and accurately as possible,—

(*a*) the property to be sold;

(*b*) (where the property to be sold is an interest in an estate or in part of an estate paying revenue to the Government) the revenue assessed upon the estate or part of the estate;

(*c*) the amount for the recovery of which the sale is ordered; and

(*d*) any other thing which the Certificate-officer considers it material for a purchaser to know in order to judge of the nature and value of the property.

(*3*) Where a tenure, or a raiyati holding at fixed rates, situated in an area in which Chapter XIV of the Bengal Tenancy Act, 1885, is in force, is to be sold in execution of a certificate for arrears of rent due in respect thereof, the said proclamation shall also state that the tenure or holding will first be put up to auction subject to registered and notified incumbrances, and will be sold subject to those incumbrances if the sum bid is sufficient to liquidate the amount specified in the certificate, and costs, and that otherwise it will, if the certificate-holder so desires, be sold on a subsequent day, of which due notice will be given, with power to annul all incumbrances. VIII of 1885.

(*4*) Where an occupancy holding, situated in an area in which Chapter XIV of the Bengal Tenancy Act, 1885, is in force, is to be sold in execution of a certificate for arrears of rent due in respect thereof, the said proclamation shall also state that the holding will be sold with power to annul all incumbrances. VIII of 1885.

(*5*) Where the certificate-holder is a co-sharer landlord and the certificate is for his share of the rent only, the provisions of sub-rules (*3*) and (*4*) shall not apply.

(*6*) For the purpose of ascertaining the matters to be specified in the proclamation, the Certificate-officer may summon any person whom he thinks necessary to summon, and may examine him in respect to any such matters and require him to produce any document in his possession or power relating thereto.

Mode of making proclamation.

47. (*1*) Every proclamation for the sale of immovable property shall be made at some place on or near such property by beat of drum or other customary mode, and a copy of the proclamation shall be affixed on a conspicuous part of the property and then upon a conspicuous part of the office of the Certificate-officer.

(*2*) Where the Certificate-officer so directs, such proclamation shall also be published in the Calcutta Gazette or in a local newspaper, or in both; and the cost of such publication shall be deemed to be costs of the sale.

(3) If a tenure, a raiyati holding at fixed rates or an occupancy holding situated in an area in which Chapter XIV of the Bengal Tenancy Act, 1885, is in force, is to be sold in execution of a certificate for arrears of rent due in respect thereof, the proclamation shall also be published in the Malkachari or rent-office of the estate and at the local thana. VIII of 1885.

(4) Where property is divided into lots for the purpose of being sold separately, it shall not be necessary to make a separate proclamation for each lot, unless proper notice of the sale cannot, in the opinion of the Certificate-officer, otherwise be given.

Time of sale.

48. Save in the case of property of the kind described in the proviso to rule 16, no sale hereunder shall, without the consent in writing of the certificate-debtor, take place until after the expiration of at least thirty days in the case of immovable property, or of at least fifteen days in the case of movable property exceeding twenty rupees in value, calculated from the date on which a copy of a sale proclamation has been affixed in a conspicuous part of the office of the Certificate-officer:

Provided that if a tenure, a raiyati holding at fixed rates or an occupancy holding situated in an area in which Chapter XIV of the Bengal Tenancy Act, 1885, is in force, is to be sold in execution of a certificate for arrears of rent due in respect thereof, the sale shall not, without the consent in writing of the certificate-debtor, take place until after the expiration of at least thirty days, calculated from— VIII of 1885

(a) the date on which a copy of the sale proclamation has been affixed in a conspicuous part of the office of the Certificate-officer, or

(b) the date on which the sale proclamation has been published in the Malkachari or rent-office of the estate and at the local thana,

whichever is later.

Purchase of property by the certificate-holder.

49. (1) No holder of a certificate in execution of which property is sold shall, without the express permission of the Certificate-officer, bid for or purchase the property.

(2) Where a certificate-holder purchases with such permission, the purchase-money and the amount due on the certificate may be set off against one another, and the Certificate-officer executing the certificate shall enter up satisfaction of the certificate in whole or in part accordingly.

(3) Where a certificate-holder purchases, by himself or through another person, without such permission, the Certificate-officer may, if he thinks fit, on the application of the certificate-debtor or any other person whose interests are affected by the sale, by order set aside the sale; and the costs of such application and order, and any deficiency of price which may happen on the re-sale and all expenses attending it, shall be paid by the certificate-holder.

(4) This rule shall not apply when the certificate-holder is the Secretary of State for India in Council.

Adjournment or stoppage of sale.

50. (1) The Certificate-officer may, in his discretion, adjourn any sale hereunder to a specified day and hour; and the officer conducting any such sale may, in his discretion, adjourn the sale, recording his reasons for such adjournment:

Provided that, where the sale is made in, or within the precincts of, the office of the Certificate-officer, no such adjournment shall be made without the leave of the Certificate-officer.

(2) Where a sale is adjourned under sub-rule (1) for a longer period than seven days, a fresh proclamation under rule 47 shall be made unless the certificate-debtor consents to waive it.

(3) Every sale shall be stopped if, before the lot is knocked down, the debt and costs (including the costs of the sale) are tendered to the officer conducting the sale, or proof is given to his satisfaction that the amount of such debt and costs has been paid to the Certificate-officer who ordered the sale.

Defaulting purchaser answerable for loss on re-sale.

51. Any deficiency of price which may happen on a re-sale by reason of the purchaser's default, and all expenses attending such re-sale, shall be certified to the Certificate-officer by the officer or other person holding the sale, and shall, at the instance of either the certificate-holder or the certificate-debtor, be recoverable from the defaulting purchaser under the procedure provided by this Act.

Restriction on bidding or purchase by officers.

52. No officer or other person having any duty to perform in connection with any sale shall, either directly or indirectly, bid for, acquire or attempt to acquire, any interest in the property sold.

Levy of poundage fees.

58. (1) Poundage fees shall be leviable in Court-fee stamps in all cases of sale under the Bengal Public Demands Recovery Act, 1913, at the rate of 2 per cent. on the gross amount realized by the sale up to Rs. 1,000 and at the rate of 1 per cent. on all excess of gross proceeds beyond Rs. 1,000:

Provided that, where a sale of immovable property is set aside under section 25, sub-section (2) of the Act, any poundage or other fee charged for selling the property shall, on application, be refunded.

(2) The percentage leviable shall be calculated on multiples of Rs. 25, that is to say, a poundage fee of 8 annas shall be levied for every Rs. 25 or part of Rs. 25, realized by the sale, up to Rs. 1,000, and in the case of the proceeds of the sale exceeding Rs. 1,000, a fee of 4 annas for every Rs. 25 or part thereof of the excess proceeds above Rs. 1,000, shall be levied.

(3) In cases in which several properties are sold in satisfaction of one certificate, only one poundage fee, calculated on the gross sale-proceeds, shall be levied, 2 per cent. being charged on the gross sale-proceeds up to Rs. 1,000 and one per cent. on the excess over Rs. 1,000 of such proceeds.

(4) The proceeds of a sale effected in execution of any certificate may be paid out of Court only on an application made for that purpose in writing, and the poundage fee for selling the property must be paid by stamps affixed to the first of such applications, whether it be, or be not, made by the person who obtained the order for sale, or whether it does, or does not, extend to the whole of the proceeds. No fee shall be chargeable upon any such application subsequent to the first.

(5) In cases in which the certificate-holder applies for leave to purchase under rule 49, sub-rule (1), no order to set off the purchase-money against the amount of certificate shall be made upon the application for leave to purchase. Such order shall be made upon a petition presented after the property has been knocked down to the certificate-holder at the auction sale, and such petition shall be stamped with stamps of the value of the poundage fee due for selling the property.

Addition of costs, etc., to certificate and payment by certificate-holder of purchase-money in excess of the amount of certificate.

54. Upon the hearing of the petition referred to in rule 53, sub-rule (5), the costs of execution, including the amount of the stamps attached to the petition, shall be ascertained and shall be added to the certificate; and in cases in which the amount of the purchase-money exceeds the amount of the certificate and of such costs, the certificate-holder who has so purchased the property shall pay to the Certificate-officer the sum of 25 per cent upon the balance of the purchase-money after deducting the amount of the certificate and of such costs, and shall pay the balance on or before the fifteenth day from the sale in accordance with rule 69.

SALE OF MOVABLE PROPERTY.

Sale of agricultural produce.

55. (1) Where the property to be sold is agricultural produce, the sale shall be held,—

(a) if such produce is a growing crop—on or near the land on which such crop has grown, or

(b) if such produce has been cut or gathered—at or near the threshing-floor or place for treading out grain or the like, or fodder-stack, on or in which it is deposited:

Provided that the Certificate-officer may direct the sale to be held at the nearest place of public resort, if he is of opinion that the produce is thereby likely to sell to greater advantage.

(2) Where, on the produce being put up for sale,—

(a) a fair price, in the estimation of the person holding the sale, is not offered for it, and

(b) the owner of the produce, or a person authorized to act in his behalf, applies to have the sale postponed till the next day or, if a market is held at the place of sale, the next market day,

the sale shall be postponed accordingly, and shall be then completed, whatever price may be offered for the produce.

Special provisions relating to growing crops.

56. (1) Where the property to be sold is a growing crop, and the crop from its nature admits of being stored but has not yet been stored, the day of the sale shall be so fixed as to admit of the crop being made ready for storing before the arrival of such day, and the sale shall not be held until the crop has been cut or gathered and is ready for storing.

(2) Where the crop from its nature does not admit of being stored, it may be sold before it is cut and gathered; and the purchaser shall be entitled to enter on the land, and to do all that is necessary for the purpose of tending and cutting or gathering the crop.

(2) On payment of the purchase-money, the officer or other person holding the sale shall grant a receipt for the same, and the sale shall become absolute.

(3) Where the movable property to be sold is a share in goods belonging to the certificate-debtor and a co-owner, and two or more persons, of whom one is such co-owner, respectively bid the same sum for such property or for any lot, the bidding shall be deemed to be the bidding of the co-owner.

Irregularity not to vitiate sale, but any person injured may sue.

58. No irregularity in publishing or conducting the sale of movable property shall vitiate the sale; but any person sustaining substantial injury by reason of such irregularity at the hand of any other person may institute a suit in a Civil Court against him for compensation, or (if such other person is the purchaser) for the recovery of the specific property and for compensation in default of such recovery.

Delivery of movable property, debts and shares.

(2) Such execution or endorsement may be in the following form, namely :—

A B, by *C D*, Collector of the district of , in a proceeding under the Bengal Public Demands Recovery Act, 1913, against *A B*.

(3) Until the transfer of such negotiable instrument or share, the Certificate-officer may, by order, appoint some person to receive any interest or dividend due thereon, and to sign a receipt for the same; and any receipt so signed shall be as valid and effectual for all purposes as if the same had been signed by the party himself.

VIII of 1885.

(2) The purchaser at such sale may, in manner provided by section 167 of the Bengal Tenancy Act, 1885, and not otherwise, annul any incumbrance upon the tenure or holding, not being a registered and notified incumbrance. VIII of 1885.

Sale of tenure or holding at fixed rates, with power to avoid all incumbrances.

63. (1) If the bidding for a tenure or a holding at fixed rates, put up to auction under rule 62, does not reach a sum sufficient to liquidate the amount of the certificate and costs as aforesaid, and if the certificate-holder thereupon desires that the tenure or holding be sold with power to avoid all incumbrances, the person holding the sale shall adjourn the sale and make a fresh proclamation under rule 46 announcing that the tenure or holding will be put up to auction and sold with power to avoid all incumbrances, upon a future day specified therein, not less than fifteen or more than thirty days from the date of the postponement; and upon that day the tenure or holding shall be put up to auction and sold with power to avoid all incumbrances.

Postponement of sale to enable certificate-debtor to raise amount due under certificate.

66. (1) Where an order for the sale of immovable property has been made, if the certificate-debtor can satisfy the Certificate-officer that there is reason to believe that the amount of the certificate may be raised by the mortgage or lease or private sale of such property, or some part thereof, or of any other immovable property of the certificate-debtor, the Certificate-officer may, on his application, postpone the sale of the property comprised in the order for sale, on such terms and for such period as he thinks proper, to enable him to raise the amount.

(2) In such case the Certificate-officer shall grant a certificate to the certificate-debtor, authorising him, within a period to be mentioned therein, and notwithstanding anything contained in section 8 or section 18, to make the proposed mortgage, lease or sale:

Provided that all moneys payable under such mortgage, lease or sale shall be paid, not to the certificate-debtor, but to the Certificate-officer:

69. The full amount of purchase-money payable shall be paid by the purchaser to the Certificate-officer on or before the fifteenth day from the sale of the property.

(*2*) Such certificate shall bear date the day on which the sale became absolute.

Delivery of property in occupancy of certificate-debtor.

75. Where the immovable property sold is in the occupancy of the certificate-debtor, or of some person on his behalf, or of some person claiming under a title created by the certificate-debtor subsequently to the service of the notice issued under section 7, and a certificate in respect thereof has been granted under rule 74, the Certificate-officer shall, on the application of the purchaser, order delivery to be made by putting such purchaser, or any person whom he may appoint to receive delivery on his behalf, in possession of the property, and, if need be, by removing any person who refuses to vacate the same.

(*2*) Where appearance is not made in obedience to the notice, the Certificate-officer may issue a warrant for the arrest of the certificate-debtor.

Subsistence allowance.

78. (*1*) When a certificate has been signed either in accordance with the provisions of section 4, or on a requisition made under section 5, no certificate-debtor shall be arrested in execution of the certificate unless and until the certificate-holder pays into Court such sum as the Certificate-officer thinks sufficient for the subsistence of the certificate-debtor from the time of his arrest until he can be brought before the Certificate-officer.

(*2*) When a certificate-debtor is committed to the civil prison in execution of a certificate, the Certificate-officer shall fix for his subsistence such monthly allowance as he may be entitled to according to the scale fixed by the Local Government for the subsistence of arrested judgment-debtors, or, where no such scale has been fixed, as the Certificate-officer considers sufficient with reference to the class to which the certificate-debtor belongs.

(3) The monthly allowance fixed by the Certificate-officer shall be supplied, by the person upon whose requisition the certificate was signed, by monthly payments in advance before the first day of each month.

(4) The first payment shall be made to the Certificate-officer for such portion of the current month as remains unexpired before the certificate-debtor is committed to the civil prison; and the subsequent payments (if any) shall be made to the officer in charge of the civil prison.

(5) Sums disbursed by the certificate-holder for the subsistence of the certificate-debtor in the civil prison shall be deemed to be costs in the proceeding:

NOTIFICATIONS.

No. 12182 For.—The 24th December 1914.—The following revised rules, relating to the recruitment of the Provincial Forest Service in Bengal and the selection of Bengal candidates for deputation to the Ranger Service course at the Imperial Forest College, Dehra-Dun, are published for general information in supersession of those published in Notification No. 1264 M.R., dated the 20th March 1913 :—

I.—RULES FOR THE RECRUITMENT OF THE PROVINCIAL FOREST SERVICE IN BENGAL.

Extract from the Rules of the Forest Research Institute at Dehra-Dun relating to the Provincial Service course.

* * * * * * *

22. The maximum number of students that will be admitted in any one year will be decided by the President, subject to the orders of the Inspector-General of Forests. Within this number, nominations will be assigned to the various provinces by the President who, after satisfying their requirements, may also assign vacancies to British possessions, Native States, etc. The President is empowered to refuse an application for a nomination without assigning any reason.

All applications for nominations must be communicated to the President by the 1st July of the year preceding that in which the course will commence. All nominations will be allotted and communicated to Local Governments, etc., concerned by the 15th July. Should any nomination not be accepted, the President should be informed by as early a date as possible so as to permit of his transferring the nomination to some other Local Government, Native State, etc.

23. It is left to Local Governments to prescribe what educational qualifications they please, including any examination, competitive or otherwise, for candidates that it is proposed to depute to the Provincial Service course. The attention of Local Governments is, however, invited to the fact that candidates must possess a sound knowledge of English and Mathematics sufficient to enable them to follow the College course without difficulty. Experience has shown that even candidates who have graduated at some Indian University have often a wholly inadequate knowledge of both English and Mathematics. Unless therefore a candidate is thoroughly conversant with these subjects, as indicated in rule 25, it will be merely waste of time to send him to the Institute.

Local Governments will also no doubt bear in mind the importance of giving a preference to candidates who are in all respects qualified by previous examinations to follow and profit by the course of instruction, it having been found that without a preliminary training in Science probationers are not able to complete an advanced Forest course within a limited time.

24. *Physical test.*—It is left to Local Governments to prescribe any physical test they please. Should a candidate at any time during the course be found to be physically unfit, the President may remove him from the College.

25. *Qualifying examination, English.*—Local Governments should make their own arrangements, thoroughly to test the knowledge of candidates in English. After a student has been at the college two months the President may remove him if in his opinion the student does not possess a sufficient knowledge of English to enable him to follow the College course intelligently.

Mathematics.—A qualifying examination in Mathematics will be held at various centres to suit the convenience of Local Governments early in November each year on a date to be fixed by the President. The date fixed will be communicated by the President to Local Governments during the month of October. The examination will consist of two papers, one in Arithmetic and Algebra and the other in Geometry and Trigonometry to each of which three hours will be allowed. The papers will be sent under sealed cover to Local Governments who have received nominations. After the examination has been held on the date fixed, answers will be forwarded under sealed cover to the President, Forest Research Institute and College, direct.

The standard in Mathematics is a practical knowledge of Arithmetic, Algebra, up to and including quadratic equations and simple problems, Mensuration, Geometry (including the first three books of Euclid) and elementary Trigonometry including the solution of triangles and the use of logarithms. No candidate who fails to obtain half the full marks in each paper will be considered to have passed.

With the permission of the Local Governments concerned candidates from Native States and private students will be examined at provincial centres.

26. There are four categories of students—

(*a*) private students;
(*b*) Government probationary students, stipendiary or non-stipendiary;
(*c*) students deputed by Native States and British Colonies;
(*d*) students already in Government service.

(*a*) *Private students* can only be admitted if there are vacancies for such after satisfying the demands of (*b*), (*c*), (*d*) above. Their chief *raison d'être* is to meet a possible demand on the part of large landowners who may wish to place their forest areas under professional management.

(*b*) *Government probationary students* are those nominated by a Local Government for direct appointment to, or as probationers for, the Provincial Service.

(*d*) *Students already in Government service* may be deputed at the discretion of Local Governments, provided that they pass the examination prescribed in rule 23.

27. In the case of *private students*, application for nominations must be made to the President direct, supported by a certificate from a Conservator of Forests, District Officer or Political Agent, that the candidate possesses the necessary social qualities and *a good general* education and appears likely to make a good executive Forest officer.

In the case of Government probationary candidates applications must be submitted to the Local Government through a Conservator of Forests.

In the case of candidates from Native States and British Colonies applications must be made to and in the manner prescribed by the State Durbar, or the Governor of a Colony. As a rule, those who have already been through the Rangers' course at the Forest College will not be accepted.

28. *Age.*—Except for special reasons and under the special orders of the Local Government in each case, candidates must be between the ages of 18 and 25 on the 1st July in the year in which the course begins.

The Inspector-General of Forests has the power to relax the above rule.

29. *Certificates.*—With applications must be forwarded the following certificates:—

(*a*) A certificate that the candidate is a "Native of India" within the meaning[9] assigned to those words by section 6 of 33 Vict., Cap. 3.

N.B.—This certificate may be omitted in the case of private students and of students deputed by British Colonies.

(*b*) A certificate of age.

(*c*) A health certificate in the form prescribed by article 49 of the Civil Service Regulations, 5th edition, signed by a Civil Surgeon or such other qualified Medical Officer as may be approved by the President, and testifying to the candidate's sound constitution, good vision and hearing, and general physical fitness for a rough, outdoor life in the Forest Department, and to the fact that he bears on his body marks of successful vaccination or of small-pox.

(*d*) A certificate showing that the candidate is of good social standing and good moral character.

[9] "Native of India" means any person born and domiciled within the dominions of His Majesty in India, or within the territories of Indian Princes tributary to, or in alliance with, His Majesty, of parents habitually resident in India, and not established there for temporary purposes only (article 37, Civil Service Regulations).

The certificates (*c*) and (*d*) must bear date not further back than the 1st April of the year previous to that in which the candidate desires admission to the Research Institute and College.

(*e*) A certificate that the candidate possesses a thorough knowledge of colloquial English, which will permit of his following a highly technical course, and is generally of good education.

Certificates (*d*) and (*e*) must be signed by a Conservator of Forests, District Officer, Political Agent, or a British Government gazetted officer of high standing.

The Inspector-General of Forests may, should he consider it desirable, relax any of the conditions imposed under this rule.

30. The above certificates in the case of candidates included in categories (*a*), (*b*) and (*c*), rule 26, should be forwarded to the President when the names of the candidates are communicated to him.

31. *Preliminary training.*—It is left to the discretion of Local Governments, etc., to test the suitability of their candidates for a forest career by a period of practical training in the forests before they enter the Institute. During such training candidates will receive such consolidated allowance as may be ordered by the Local Governments, etc.

32. Candidates already in Government service may be deputed at the discretion of Local Governments, provided that they pass the examination prescribed in rule 24. As a rule those who have already been through the Rangers' course at the Forest College will not be accepted.

33. *Stipends or scholarships*—

I.—Government probationary students.—It is left to Local Governments to award stipends or scholarships in such manner as they please, provided that the total for 24 months' course does not exceed Rs. 2,400, *i.e.*, does not exceed an average rate of Rs. 100 per mensem. In the event of scholarship being awarded, the general method of assigning such will be—

(*a*) a stipend not exceeding Rs. 100 per mensem for the duration of the course or a portion thereof;

(*b*) in lieu of the above, a lump sum to be paid on a candidate's successfully obtaining such certificate as may have been agreed upon;

(*c*) partly the one, partly the other of the above.

II.—Students already in Government service.—Such officers will, while at the Institute, draw the pay and travelling allowances of their grade in the service, or a stipend not exceeding Rs. 100 per mensem in place thereof as the Local Government may decide.

49. *Travelling allowance of Government probationary students.*—Such students will not ordinarily be entitled to travelling allowance, being expected to defray their expenses when on tour; but it is left to Local Governments to sanction the payment of actual expenses for journeys by rail or steamer.

Rules for the recruitment of candidates for the Provincial Forest Service in Bengal.

1. Appointments to the Provincial Forest Service shall be made—

(*a*) by the promotion of Forest Rangers of long service and tried probity, irrespective of the educational qualifications they may hold;

(*b*) by the selection for direct appointment of candidates who must successfully pass through the Provincial Forest Service course at the Forest Research Institute, Dehra-Dun, and thereafter render not less than three years' satisfactory service as Probationary Extra Assistant Conservator of Forests before being confirmed.

2. The pay of Probationary Extra Assistant Conservators of Forests will be Rs. 150 per mensem for the first three years; and thereafter until they are appointed to vacancies in the sanctioned cadre of the Provincial Forest Service, pay not exceeding Rs. 200 per mensem may be given at the discretion of the Local Government.

3. Candidates for nomination to the Provincial Service course at the Forest Research Institute must possess the following minimum educational qualifications :—

(*i*) a certificate of having passed the I.Sc., I.E., or I.A. examination of an Indian University in a group of subjects including Mathematics, or

(*ii*) the Licentiate of Agriculture degree of a Government Agricultural College, or

(*iii*) if a European, the Junior School certificate awarded in connection with the Cambridge Local Examination in a group of subjects including Algebra, Geometry and Trigonometry :

Provided that in the case of candidates who were above the age of 16 years on the 31st December 1910, other certificates may be accepted, if they show the candidates to possess the educational qualifications laid down in rules 23 and 25 of the Research Institute admission rules.

4. Applications should be submitted to the Conservator of forests, Bengal, through the Collector of the district in which the candidates reside, or through the Divisional Forest Officer if the candidates reside in a Forest Division : applications should be accompanied by the certificates prescribed by rule 29 of the Research Institute admission rules, and by the educational certificates prescribed under rule 3 above. From the applications received, the Conservator of Forests may make a preliminary selection, and candidates so selected will be required to undergo the qualifying examinations in English and Mathematics prescribed by rule 25 of the Forest Research Institute admission rules. The qualifying examination in English and Mathematics will be held at a centre to be fixed by the Conservator of Forests, Bengal. The examination in Mathematics will be that prescribed in rule 25 of the admission rules of the Forest College. The object of the examination in English is to test thoroughly the capacity of candidates to follow the course of instruction given at the College. Two passages will be read out (not dictated) to the candidates at a fair speed, one by a European and the other by an Indian officer. Each candidate will then be required to write a full *précis* of the passages, in order to show that he has grasped the salient points. There will also be a colloquial examination. On receipt of the results of those examinations the Conservator of Forests may select from the candidates who have qualified at those examinations not more than twice the number of men required to be deputed to the course in the ensuing year, and those selected candidates may be required to undergo a course of preliminary practical training in such forest divisions as the Conservator may direct, which may extend over a period of not less than four and not more than six months.

During this course, candidates will be granted a monthly allowance of Rs. 40, which is intended to cover their expenses. The Conservator of Forests will dispense with the services of any candidate whose work or conduct during this period may prove unsatisfactory or whose physical fitness appears to be defective.

The final selection of candidates will be made by Government.

5. While at the Forest Research Institute, the selected candidates will be given a monthly stipend of Rs. 50, which will be supplemented by a bonus of Rs. 1,000 at the end of the course to those candidates who pass with "Honours," and who are well reported on by the President. The amount of the bonus is reducible by Government in the event of the report not being entirely satisfactory.

6. The actual expenses incurred by probationary students on journeys by rail or steamer, while proceeding to and from the Institute and while undergoing the course, will be defrayed by Government. For the purpose of this rule, probationary students will be considered as officers of the second class under article 1002, Civil Service Regulations.

7. On the nomination of candidates they will be required—

(*i*) to sign an agreement binding themselves to work diligently while at the Institute and to serve Government for not less than five years after passing out of the Institute ;

(*ii*) to find two sureties to execute a bond in the prescribed form guaranteeing that, under special circumstances therein detailed, they will refund all money expended by Government on the nominee's behalf, etc.

II.—RULES FOR THE SELECTION OF BENGAL CANDIDATES FOR DEPUTATION TO THE RANGER SERVICE COURSE AT THE IMPERIAL FOREST COLLEGE, DEHRA-DUN.

Extract from the Rules of the Forest College at Dehra-Dun relating to the Ranger Service course.

* * * * * * *

5. The total number of students of each category who can be admitted into the College each year will be limited to such number as the President, subject to the orders of the Inspector-General of Forests and the Government of India, may decide, from time to time, can be educated at the College. The number of studentships to be allotted each year to the respective provinces will, with due regard to the total prescribed, be decided by the President, after consultation with the various administrations as to their requirements, and will be communicated to them not later than the 1st April.

6. In allotting nominations to Local Governments, Colonies, or Native States, the President will allow a margin for possible casualties between the dates of nomination and of actually entering the College. And when a Local Government, Colony or Native State cannot for any reason utilize the full number of studentships allotted, it should immediately inform the President so that the vacancies may be filled up with other candidates in time to permit of the prescribed preliminary training being undergone.

7. There are four categories of students—

(1) private students;

(2) Government probationary students, stipendiary or non-stipendiary;

(3) students deputed by Native States and British Colonies;

(4) students already in Government service.

Private students comprise all those students who are without appointments in any Forest Service, who have not entered into an agreement to serve any Government or Administration, and whose object it is, by becoming possessors of the Forest College certificates, to obtain employment either in the Forest Service of the Government of India or in that of a Native State or some other owner of forest property.

Government probationary students comprise those who have been selected by any Government for an appointment in its Forest Service.

According to the class of studentship applied for, candidates are classified under the four categories defined above.

I.—Rules for candidates in categories (1), (2) and (3).

8. *Age.*—Candidates must not be less than 18 or more than 25 years of age on the 1st April of the year in which they desire admission to the College.

None of the above-mentioned officers need belong to the Forest Circle or province in which the candidate seeks employment.

In the case of candidates of category (3) applications must be sent to, and in the manner prescribed by, the State Durbar or Governor of the Colony.

10. *Certificates.*—All applications must be accompanied by the following certificates :—

(*a*) A certificate that the candidate is a "Native of India" within the meaning* assigned to those words by section 6 of 33 Vict., Cap. 3.

* "Native of India" means any person born and domiciled within the dominions of His Majesty in India or within the territories of Indian Princes, tributary to, or in alliance with, His Majesty, or parents habitually resident in India, and not established there for temporary purposes only (article 87, Civil Service Regulations).

(*b*) A certificate of age.

(*c*) A health certificate in the form prescribed by article 49 of the Civil Service Regulations, 5th edition, signed by the Civil Surgeon of the district in which the said Divisional Forest or District Officer's duties lie and testifying to the candidate's sound constitution, good vision and hearing, and general physical fitness for a rough outdoor life in the Forest Department, and to the fact that he bears on his body marks of successful vaccination or of small-pox.

(*d*) A certificate of respectability and good moral character from two or more persons whose social or official position can be accepted as a guarantee of reliability.

The certificates (*c*) and (*d*) must bear date not further back than the 1st April of the year previous to that in which the candidate desires admission to the College.

If any person giving certificates as above under (*c*) and (*d*) is in a position to mention anything more to the credit of the candidate than the certificates actually called for, he may do so.

(*e*) A certificate of having passed one of the following examinations viz. :—

The B.A., F.A., B.Sc., or Licentiate of Agriculture.

The Matriculation, where no School Final Examination or school-leaving certificate exists.

The School Final Examination, provided the candidate can show that he has qualified in English and Mathematics up to the Matriculation standard, or, for European candidates, a certificate of having passed the High School examination, with a similar proviso.

The school-leaving certificate, as prescribed in the United Provinces, Central Provinces and Bombay.

(*f*) A certificate that each candidate has a sufficient knowledge of colloquial English to assimilate lectures delivered in that language without the aid of dictation.

The President is authorized to admit candidates, as an exceptional measure, who for some valid reason (such as being the subjects of a Native State or foreign country) have had no opportunity of securing any of the certificates mentioned above, provided that in his opinion the candidates possess the educational qualifications necessary to profit by the College course.

The Inspector-General of Forests may, should he consider it desirable, relax any of the conditions imposed under this rule.

11. Upon the receipt by the Conservator of any application in respect to which the preceding conditions shall have been observed, that officer may reject the application without assigning any reason for so doing; but if he accepts it and the applicant is a candidate for Government service, he should be seen by a Conservator of a Forest circle, when this can be conveniently arranged, or by some officer of the Imperial Forest Service, who should record his personal opinion in regard to the suitability of the candidate.

12. Those candidates who have been approved will, with the permission of the Local Government in the case of Government probationary students, and under the Conservator's recommendation in the case of private students, and that of the Durbars in the case of candidates from Native States, be eligible for nomination to the College, and their certificates as detailed in rule 10 above should be sent to the President not later than the 1st August in each year.

13. *Preliminary training.*—All candidates not already in the service of Government, who have been accepted by the President for admission to the College, will be required to undergo, before joining the College, a course of

practical training in the forests of the province from which they come, lasting at least three and a half months. Such candidates will not be allowed to join the College unless they can produce a certificate signed by the Divisional Officer under whom they have served, and countersigned by the Conservator of the circle, or in the case of Native States by the Durbar, that they have undergone the course of practical training in a satisfactory manner and are likely to become useful Forest Officers. The President may exempt a candidate from the whole or a portion of the practical course above prescribed, after satisfying himself that the omission to complete the minimum prescribed term was due to no fault of the candidate, and that the Conservator, under whom the candidate had undergone part of this period of training, has certified that he has given promise of making an efficient Forest Officer.

14. *Stipends or scholarships.*—It is left to Local Governments to award stipends or scholarships in such manner as they please, provided that the total for the 24 months' course does not exceed Rs. 1,200, *i.e.*, does not exceed an average rate of Rs. 50 per mensem. In the event of scholarships being awarded, the general method of assigning such will be—

(*a*) a stipend not exceeding Rs. 50 per mensem for the duration of the course or a portion thereof;

(*b*) in lieu of the above, a lump sum to be paid on a candidate's successfully obtaining such certificate as may have been agreed upon;

(*c*) partly the one, partly the other of the above.

15. *Allowances.*—Government probationary students, while under training in the forests of the province from which their names have been sent up, will receive travelling allowance at the rate of Rs. 25 per mensem to enable them to defray their travelling expenses during the course of the practical training referred to in rule 13. This allowance will be met from the budget grants of the local forest departments, and will be paid only under the countersignature of the Conservator of the circle concerned.

II.—Rules for candidates in category (4).

16. Candidates *in Government service*, who may be deputed to the Forest College, will be ordinarily—

(*a*) Forest Rangers who have not previously obtained the Higher Standard certificate of the College and who desire to qualify themselves for further promotion in their own or to a higher class.

Such officers may be deputed by Local Governments, provided that they are certified by the Conservator under whom they are serving to possess a knowledge of English and general education and ability sufficient to enable them to profit by the course. They must not be above 30 years of age on entering the College, and need not go through the practical training referred to in rule 13. While at the College, they will draw the pay of their grade and the travelling allowances to which they may be entitled under the Civil Service Regulations.

(*b*) Other members of the Subordinate Forest Service (Deputy Rangers, Foresters and other subordinate officials) similarly desirous of qualifying for promotion, who may be deputed by Local Governments, provided that—

(*i*) they have been in that service for not less than two years;

(*ii*) they are under 25 years of age on entering the College;

(*iii*) there is accommodation at the College and that the President is satisfied that the candidate possesses the necessary qualifications.

NOTE.—The Inspector-General of Forests is empowered to relax rules (*i*) and (*ii*).

Such officers will, while at the College, draw the pay and travelling allowances of their grade in the service, or a stipend not exceeding Rs. 50 per mensem in place thereof as the Local Government may decide. They will not be required to undergo the practical training.

49. *Travelling allowance of Government probationary students.*—Such students will not ordinarily be entitled to travelling allowance, being expected to defray their expenses when on tour; but it is left to Local Governments to sanction the payment of actual expenses for journeys by rail or steamer.

Rules for the selection of Bengal candidates for deputation to the Rangers' Service course at the Imperial Forest College, Dehra-Dun.

1. The number of candidates to be selected annually will depend on the requirements of the department, but ordinarily will not exceed four.

2. Candidates for these appointments should apply to the Conservator of Forests, Bengal, through the Collector of the district in which the candidates reside, or through the Divisional Forest Officer if the candidates reside in a Forest Division; applications should be accompanied by the certificates prescribed by rule 10 of the rules of the Forest College at Dehra-Dun relating to the Rangers' Service course.

From the applications received, the Conservator of Forests will make a preliminary selection of not more than twice the number of men to be deputed to the Rangers' course at the Forest College in the ensuing year and candidates so selected will be required to undergo the preliminary training referred to in rule 13 of the College rules relating to the Rangers' class. The Conservator of Forests will dispense with the services of candidates whose work or conduct at any time during this training is unsatisfactory.

The final selection of candidates for deputation to the Forest College will be made by the Conservator in accordance with the results of the preliminary training, preference being given to the men who are considered likely to make the best Forest Officers.

3. While at the Forest College, the selected candidates will be granted a monthly stipend of Rs. 35, which will be supplemented by a bonus of Rs. 360 at the end of the course to those candidates only who pass the course with "Honours." No bonus will be given to candidates who merely obtain the Higher Standard certificate. Selected candidates will be obliged to execute the agreement and security bond prescribed by Government.

NOTE.—Copies of the agreement and security bond to be executed under rule 3 can be obtained from the Conservator of Forests, Bengal.

4. The actual expenses incurred by probationary students on journeys by rail or steamer, while proceeding to and from the College and while undergoing the course, will be defrayed by Government. For the purpose of this rule, probationary students will be considered as officers of the third class under article 1002, Civil Service Regulations.

5. Candidates who obtain the Higher Standard certificate of the Forest College at the completion of the two years' Rangers' course, with or without "Honours," will be appointed Rangers on monthly salaries of not less than Rs. 50. Under similar circumstances, candidates who obtain the Lower Standard certificate will be appointed Deputy Rangers on monthly salaries of not less than Rs. 30.

And so on, Rs. 100 being added to the deposit for every bid additional to the extent of Rs. 400.

(vi) The said promissory notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

(vii) The promissory notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

(viii) No tender of money, Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause (v) on the fifth day following the day of sale, will be afterwards accepted: Provided always that money so subsequently tendered may be taken in payment of the said promissory note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. (v) and No. (vi).

(ix) The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and, in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as Government shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

(x) Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order.

(xi) No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

(xii) The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a promissory note would otherwise be taken under the fifth of these conditions.

(xiii) With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of

the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 1,600 specified in the second of these conditions.

(xiv) The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of opium not exceeding altogether fifteen lots, provided always that there remain a sufficient number of lots of the opium to complete the said fifteen.

(xv) In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

5. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the office of the Government of Bengal:—

No. 1—Certificate of the opium advertised for sale.

No. 2—Report of the examination of such opium.

6. The public are hereby informed that in providing the investment of the opium manufactured at the Ghazipur Factory, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug, when packed at the Ghazipur Factory, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the office of the Government of Bengal.

7. Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the office of the Government of Bengal. But, in accordance with established usage, under no circumstances will the Government entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

HIGH COURT NOTICES.

General Letter No. 13.

To

THE DISTRICT JUDGE OF *

*In Bengal and in Bihar and Orissa

Dated Calcutta, the 15th December, 1914.

SIR,

HIGH COURT, ENGLISH DEPT., Civil.

I AM directed to refer to section 82 of the Calcutta Improvement Act, 1911, which imposes an additional stamp duty on certain instruments affecting immovable properties situated in the Calcutta Municipality. As some misapprehension appears to exist as to the liability of sale certificates in respect of such properties to the additional stamp duty referred to, I am to say that such documents are "instruments," as defined in the Indian Stamp Act, 1899, and that the additional duty should, therefore, be levied on them.

2. I am to request that you will be so good as to instruct the subordinate courts accordingly.

I have the honour to be,

SIR,

Your most obedient servant,

H. M. VEITCH,

Offg. Registrar.
